[57] **CLAIM**

The ornamental design for a ladder rack, as shown and described.

DESCRIPTION

FIG. **1** is a right front perspective view of a ladder rack according to our new design, showing front display panels opened laterally outwardly;
FIG. **2** is a left front perspective view thereof, the front display panels being folded inwardly;
FIG. **3** is a front elevational view of FIG. **2**;
FIG. **4** is a rear elevational view of FIG. **2**;
FIG. **5** is a top plan view of FIG. **2**;
FIG. **6** is a side elevational view, from the left in FIG. **2**;
FIG. **7** is a side elevational view, from the right in FIG. **2**; and,
FIG. **8** is a bottom plan view of FIG. **2** .
The pattern of circular apertures shown along part of the surface of the side panels in FIGS. **1, 2, 6** and **7** are understood to repeat uniformly along the entire surface of the side panels.
