[57] CLAIM

The ornamental design for a fixed blade knife handle, as shown and described.

DESCRIPTION

FIG. 1 is a first side elevational view of a first embodiment of a fixed blade knife handle constructed in accordance with, and embodying, the principles of the present invention, an exemplary knife blade being shown therein in broken lines; FIG. 2 is a top plan view of the handle depicted in FIG. 1, an exemplary knife blade being shown therein in broken lines;

FIG. 3 is a second side elevational view of the handle depicted in FIG. 1, an exemplary knife blade being shown therein in broken lines;

FIG. 4 is a bottom plan view of the handle depicted in FIG. 1, an exemplary knife blade being shown therein in broken lines;

FIG. 5 is a first end elevational view of the handle depicted in FIG. 1, an exemplary knife blade being shown therein in broken lines;

FIG. 6 is a second end elevational view of the handle depicted in FIG. 1;

FIG. 7 is a first side elevational view of a second embodiment of a fixed blade knife handle constructed in accordance with, and embodying, the principles of the present invention, an exemplary knife blade being shown therein in broken lines;

FIG. 8 is a top plan view of the handle depicted in FIG. 7, an exemplary knife blade being shown therein in broken lines;

FIG. 9 is a second side elevational view of the handle depicted in FIG. 7, an exemplary knife blade being shown therein in broken lines;

FIG. 10 is a bottom plan view of the handle depicted in FIG. 7, an exemplary knife blade being shown therein in broken lines;

FIG. 11 is a first end elevational view of the handle depicted in FIG. 7, an exemplary knife blade being shown therein in broken lines; and,

FIG. 12 is a second end elevational view of the handle depicted in FIG. 7.

The broken line showing of the knife blade is for illustrative purposes only and forms no part of the claimed design.
