[57] CLAIM

The ornamental design for a window cleaner with a detachable wiping portion, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of our new design for a window cleaner with a detachable wiping portion, said detachable wiping portion being shown in the assembled position; FIG. 2 is an end elevational view of one end thereof with the detachable wiping portion in the assembled position; the opposite end is a mirror image of FIG. 2; FIG. 3 is a side elevational view of one side thereof with the detachable wiping portion in the assembled position; the opposite side is a mirror image of FIG. 3; FIG. 4 is a bottom plan view thereof with the detachable wiping portion in the assembled position; FIG. 5 is a bottom perspective view thereof with the detachable wiping portion in the assembled position and showing one end and one side; the perspective view from the opposite corner is a mirror image thereof; and, FIG. 6 is a top perspective view thereof with the detachable wiping portion in the assembled position and showing one end and one side; the perspective view from the opposite corner is a mirror image thereof.
