[57] CLAIM

The ornamental design for a slotted guardrail reflector, as shown and described.

DESCRIPTION

FIG. 1 depicts a front perspective view of the slotted guardrail reflector of my invention;

FIG. 2 depicts a side plan view of the slotted guardrail reflector of my invention;

FIG. 3 is a top plan view of the slotted guardrail reflector of my invention;

FIG. 4 depicts an bottom plan view of the slotted guardrail reflector of my invention;

FIG. 5 depicts a front plan view of the slotted guardrail reflector of my invention;

FIG. 6 depicts a rear plan view of the slotted guardrail reflector of my invention;

FIG. 7 is a front perspective view of a second embodiment thereof, wherein the only difference resides in the addition of a second reflector on an opposing side;

FIG. 8 depicts a side plan view of the second embodiment of the slotted guardrail reflector of my invention;

FIG. 9 is a top plan view of the second embodiment of the slotted guardrail reflector of my invention;

FIG. 10 depicts an bottom plan view of the second embodiment of the slotted guardrail reflector of my invention;

FIG. 11 depicts a front plan view of the slotted guardrail reflector of my invention;

FIG. 12 is a front perspective view of a third embodiment thereof, wherein the only difference resides in the rounding of the top the slotted guardrail reflector;

FIG. 13 depicts a side plan view of the third embodiment of the slotted guardrail reflector of my invention;

FIG. 14 is a top plan view of the third embodiment of the slotted guardrail reflector of my invention;

FIG. 15 depicts an bottom plan view of the third embodiment of the slotted guardrail reflector of my invention;

FIG. 16 depicts a front plan view of the third embodiment of the slotted guardrail reflector of my invention;

FIG. 17 depicts a rear plan view of the third embodiment of the slotted guardrail reflector of my invention;

FIG. 18 is a front perspective of a second embodiment of FIG. 12, wherein the only difference resides in the addition of a second reflector on an opposing side;

FIG. 19 depicts a side plan view of the second embodiment of FIG. 12 of the slotted guardrail reflector of my invention;

FIG. 20 is a top plan view of the second embodiment of FIG. 12 of the slotted guardrail reflector of my invention; and,

FIG. 21 depicts the bottom plan view of the second embodiment of FIG. 12 of the slotted guardrail reflector of my invention.
