[57] **CLAIM**

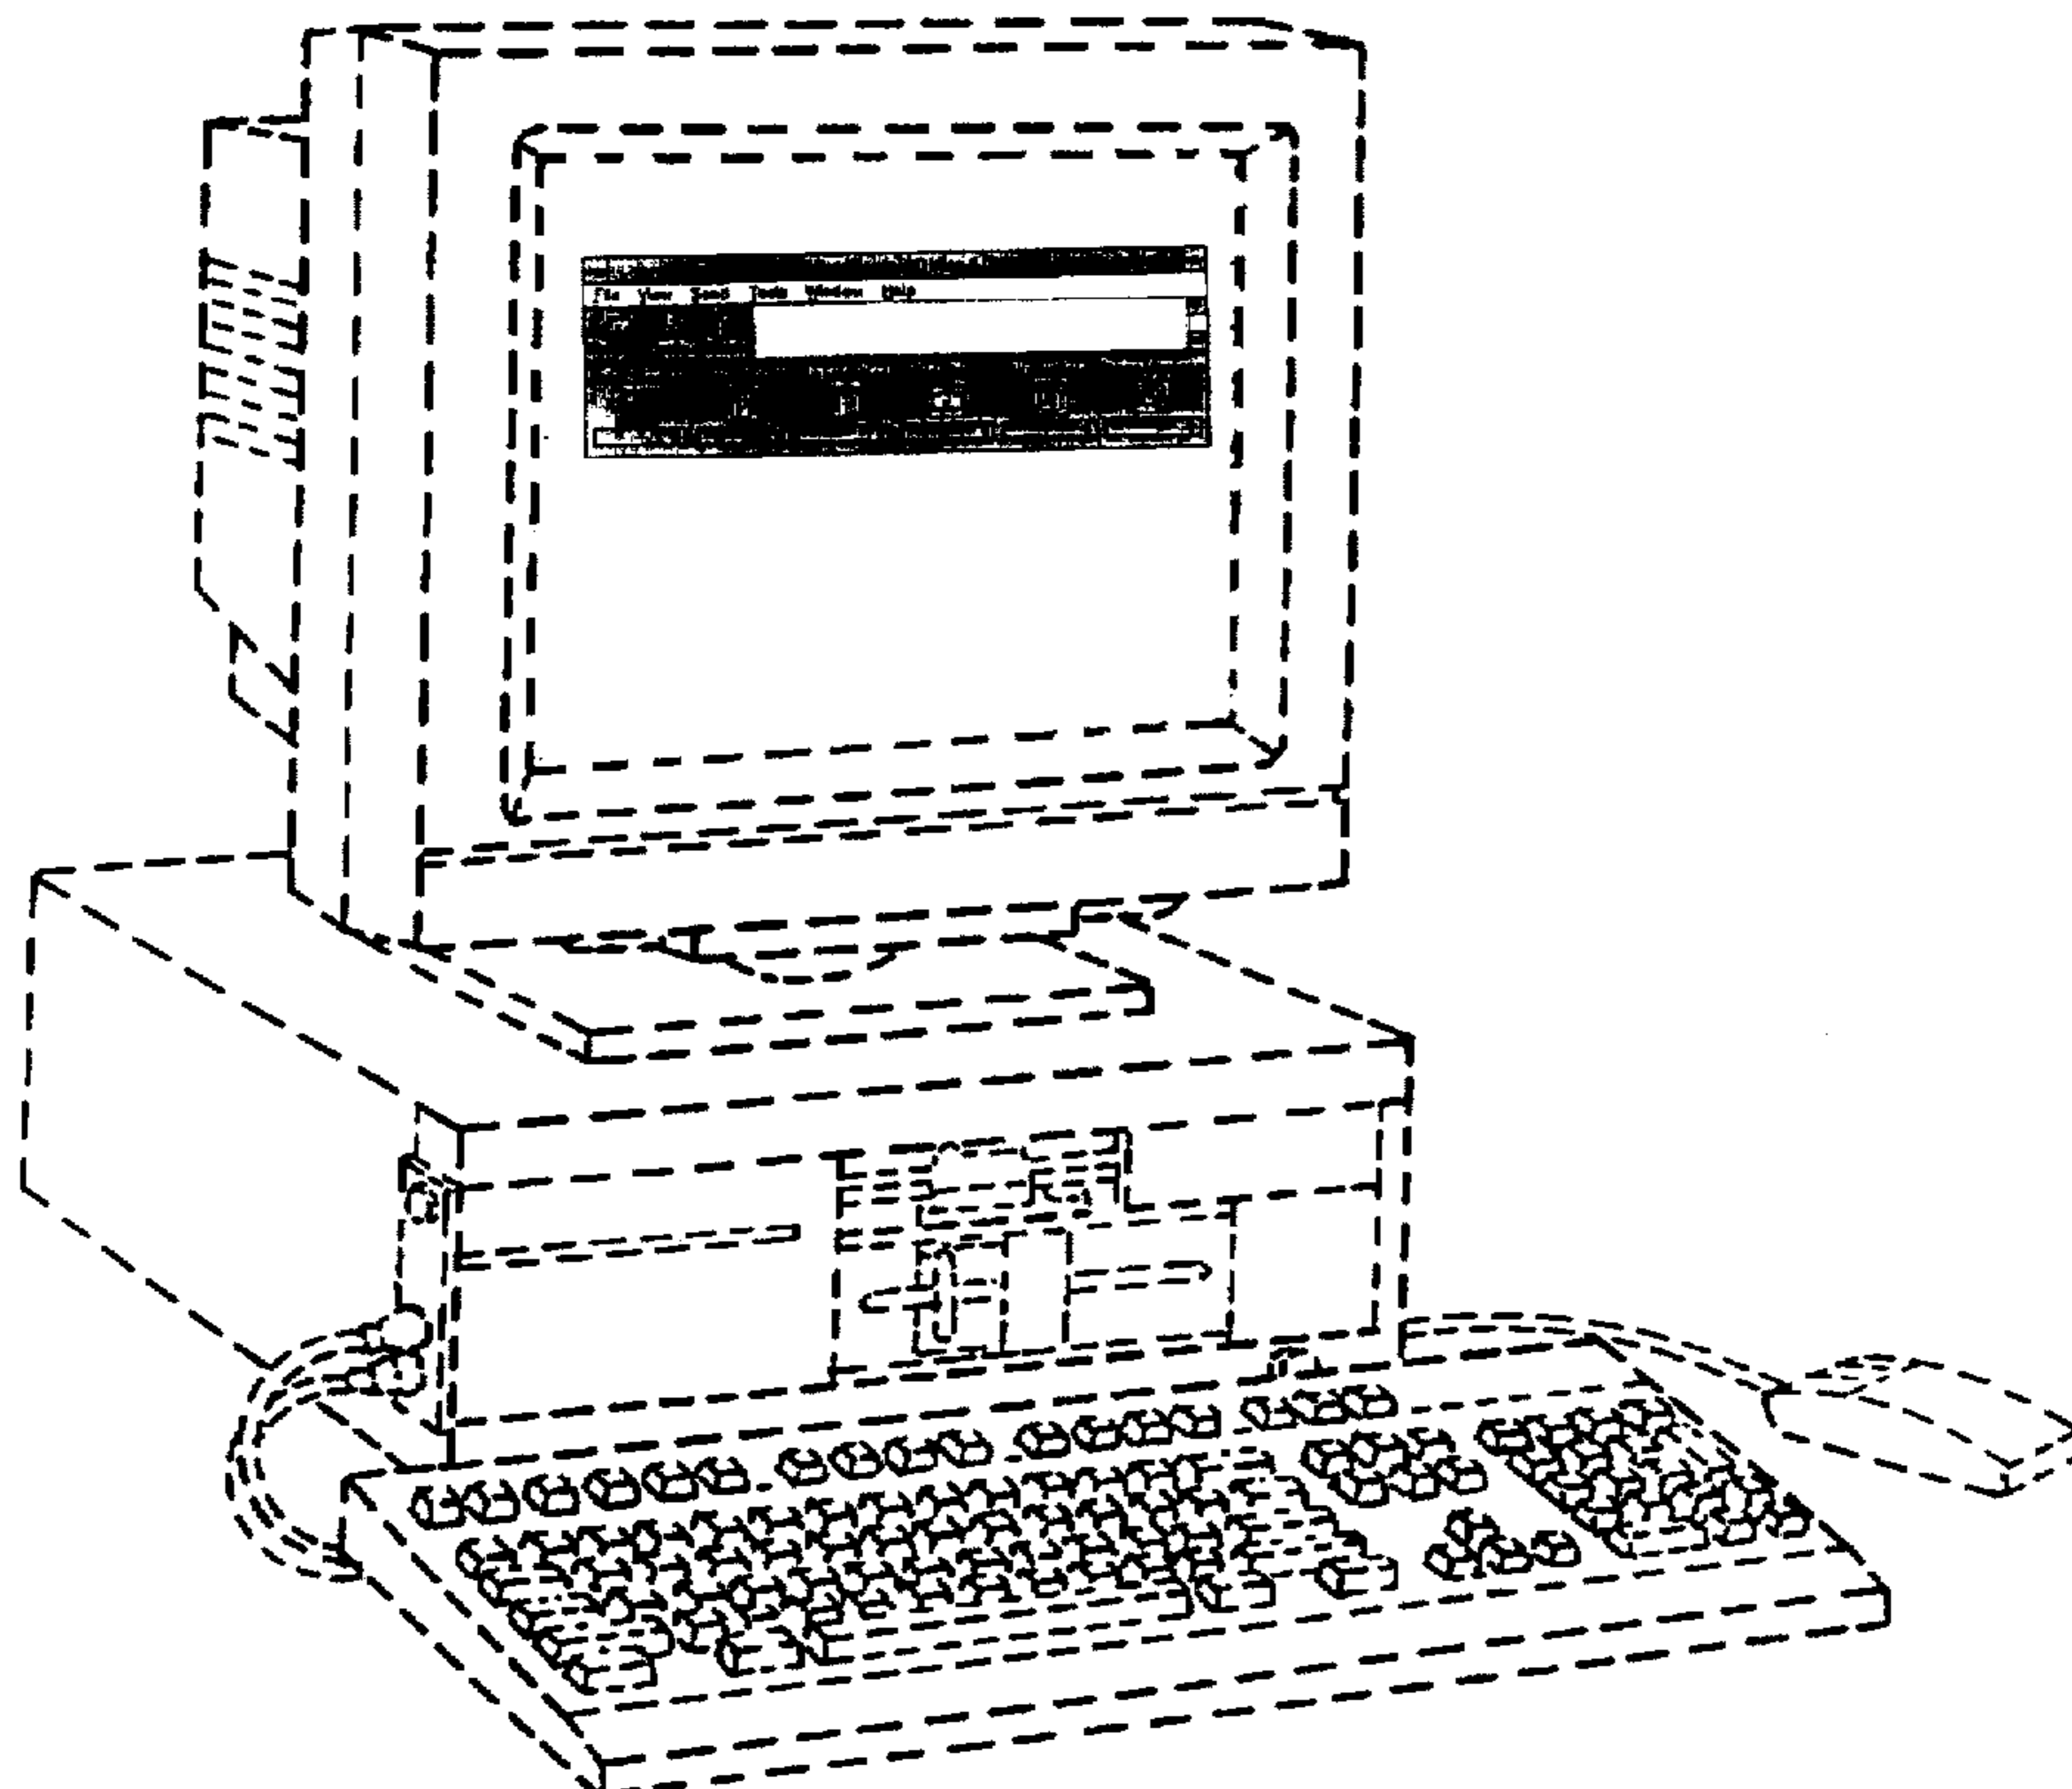

The ornamental design for a software application interface window for a display screen of a computer, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a software application interface window for a display screen of a computer showing the new, original, and ornamental design, the broken line drawing of a computer is for illustrative purposes only and forms no part of the claimed design; and,

FIG. 2 is a front view thereof, on an enlarged scale, the window is shown separately for clarity of illustration.
