[57] **CLAIM**

The ornamental design for baby picture frames, as shown and described.

DESCRIPTION

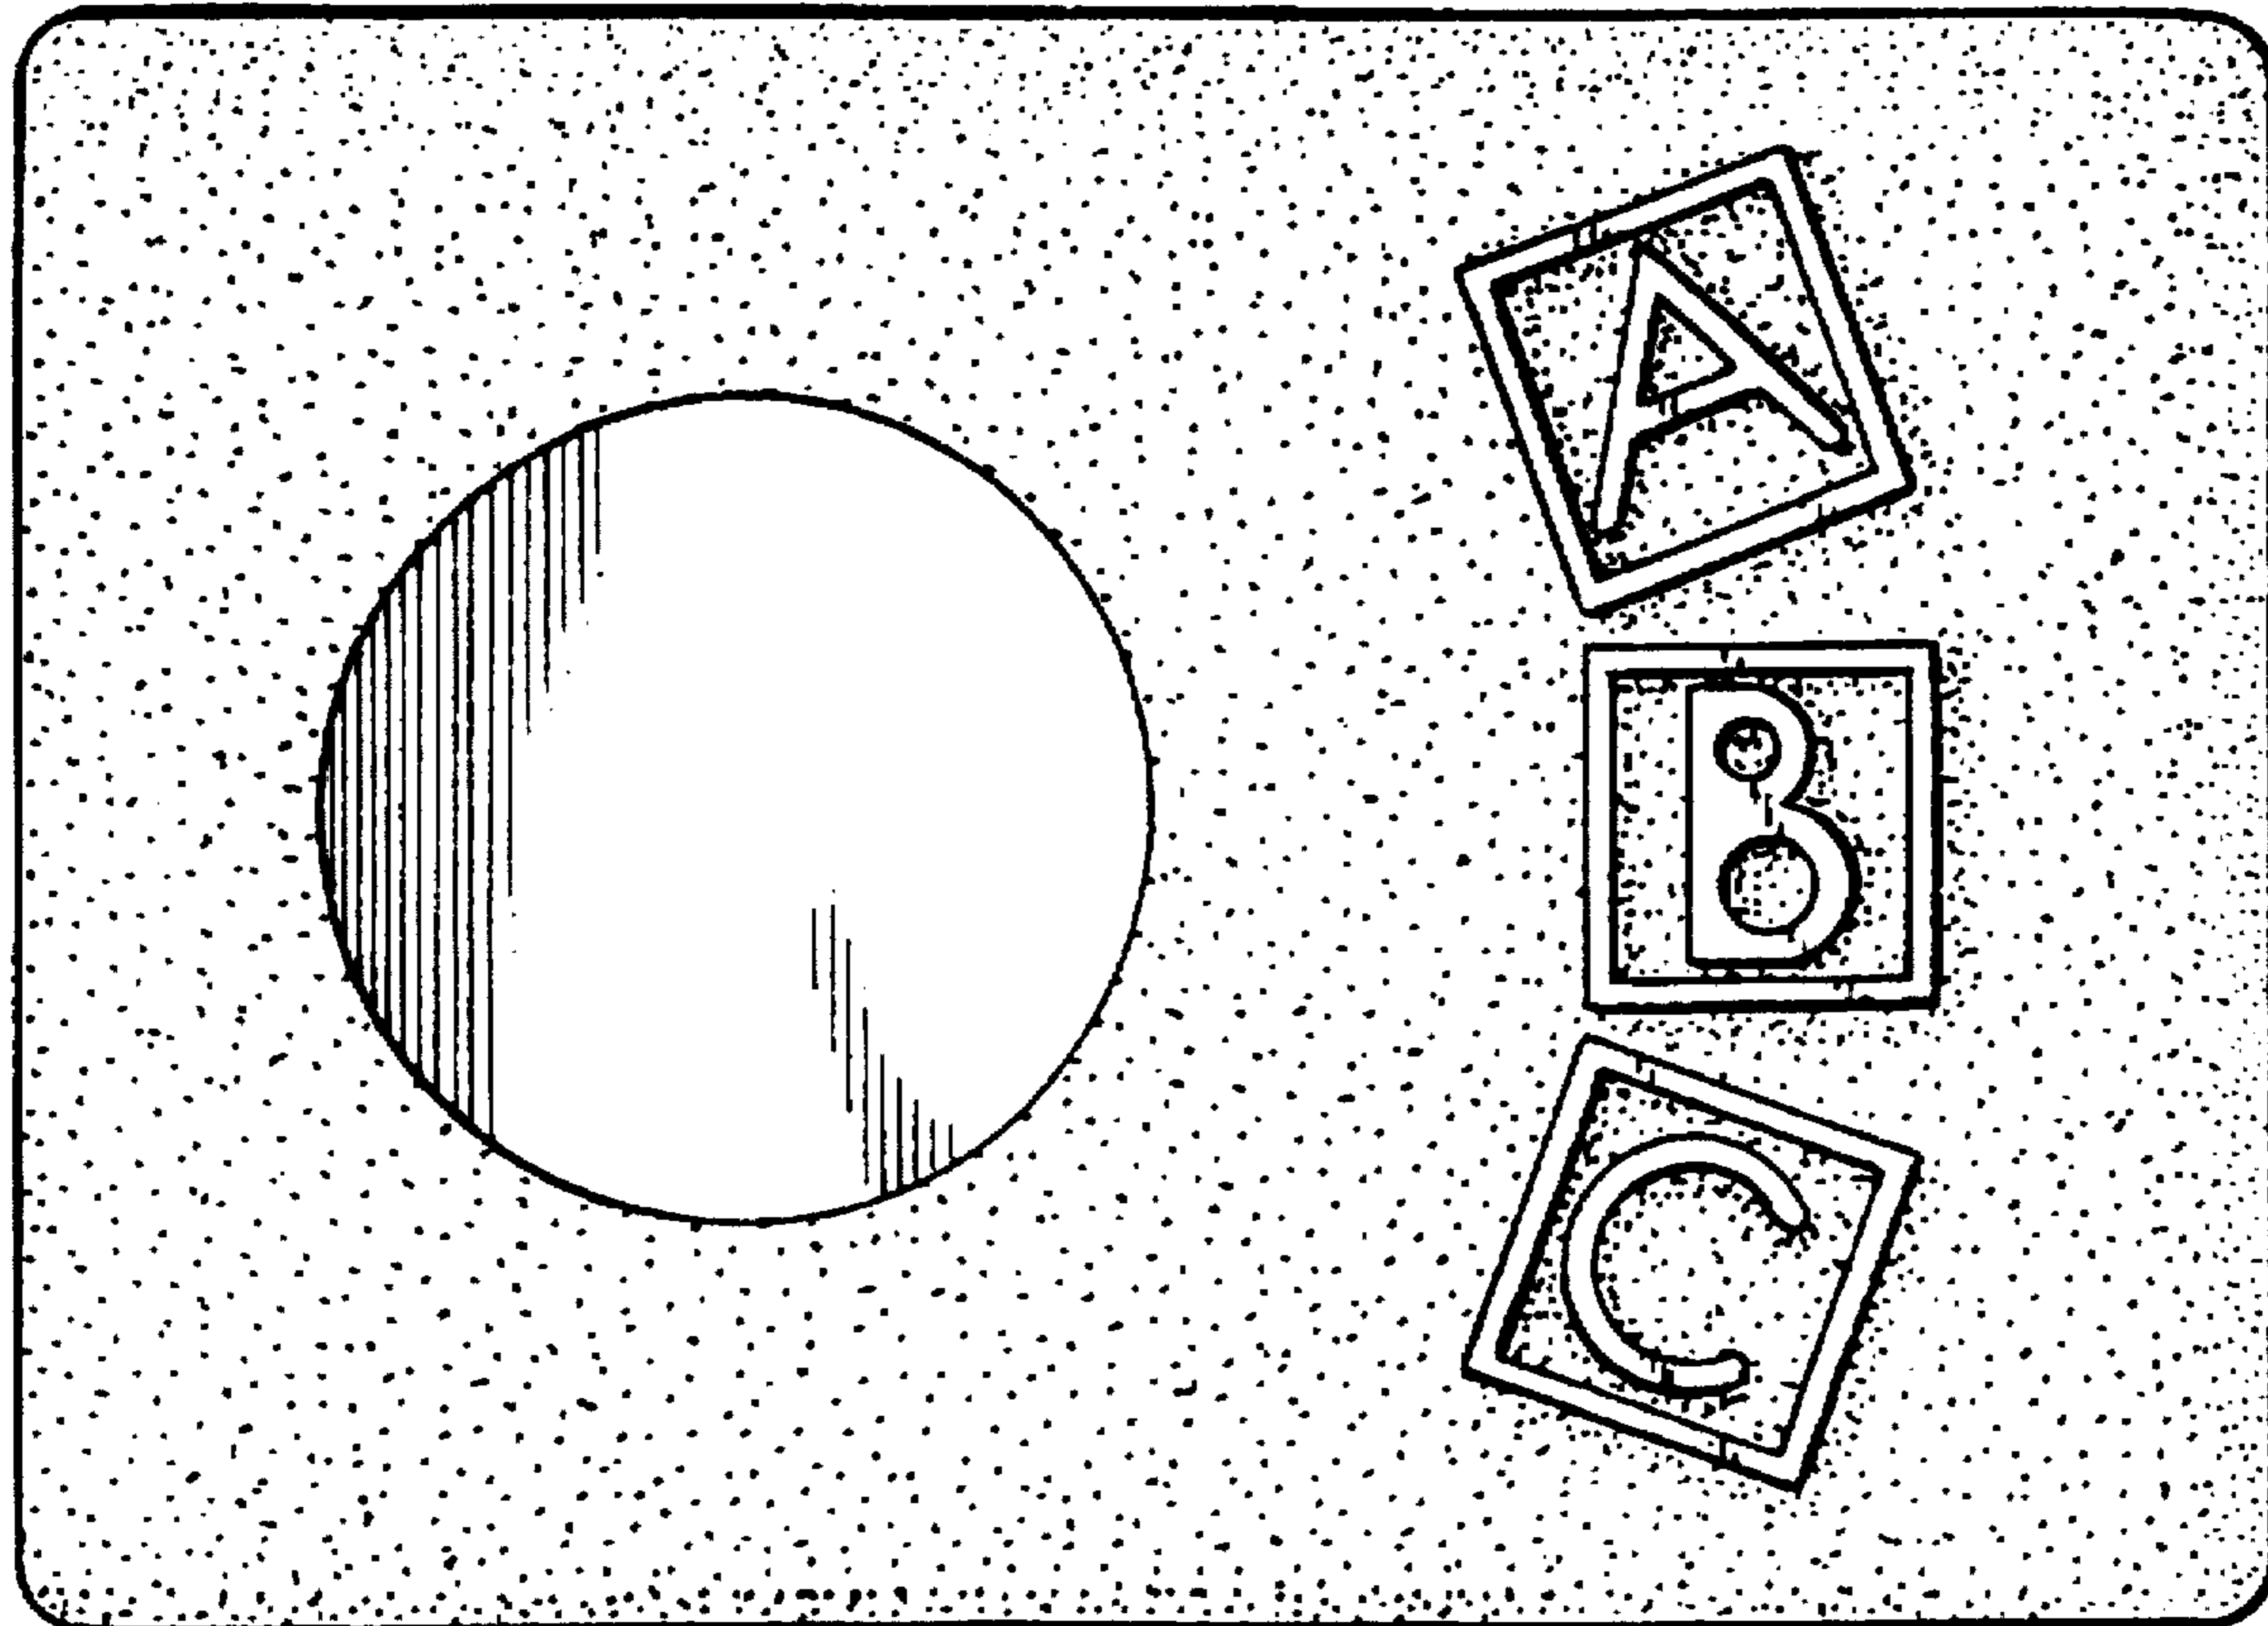

FIG. 1 is a front elevational view of a frame having a textured front surface with raised letter blocks defined by raised rectangular borders surrounding the letters and a recessed aperture for receiving the baby picture as shown;

FIG. 2 is a rear elevational view illustrating the support legs on either side of the bottom portion of the rear face and the outline of the removable cover for placing and retaining the baby picture in place within the recessed aperture;

FIG. 3 is a top view of the picture frame illustrated in FIGS. 1 and 2; and,

FIG. 4 is a side elevational view of the picture frame of FIGS. 1-3, where the bottom view and opposite side view are mirror images of FIGS. 3 and 4 respectively.
