[57] **CLAIM**

The ornamental design for a spring-driven motor for construction toy, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the spring-driven motor for construction toy incorporating our new design;
FIG. 2 is a top plan view thereof;
FIG. 3 is a side elevation thereof taken from a first side;
FIG. 4 is an end elevation thereof taken from a first end;
FIG. 5 is a side elevational view thereof taken from a second side;
FIG. 6 is an end elevational view thereof, taken from the second end; and,
FIG. 7 is a bottom view thereof.
The motor housing is transparent and is shaded accordingly.
