[57] CLAIM

The ornamental design for control panel for an access control system, as shown and described.

DESCRIPTION

FIG. 1 is a front view in accordance with a preferred embodiment of the present invention;

FIG. 2 is a top view in accordance with a preferred embodiment of the present invention illustrated in FIG. 1;

FIG. 3 is a right side view in accordance with a preferred embodiment of the present invention illustrated in FIG. 1;

FIG. 4 is a left side view in accordance with a preferred embodiment of the present invention illustrated in FIG. 1;

FIG. 5 is a bottom view in accordance with the preferred embodiment of the present invention illustrated in FIG. 1; and,

FIG. 6 is a front view in accordance with a second preferred embodiment of the present invention, the sole difference being the lack of indicia on the fifteen oval buttons.

The broken line showing of environmental structure is for illustrative purposes only and forms no part of the claimed design.
