[57] CLAIM

The ornamental design for a compartmented portable therapy case, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a compartmented portable therapy case, showing my new design;
FIG. 2 is a back elevational view of FIG. 1;
FIG. 3 is a reduced scale top elevational view of FIG. 1;
FIG. 4 is a reduced scale top plan view of the compartmented portable therapy case, wherein the sliding top cover has been separated from the case;
FIG. 5 is a left side elevational view of FIG. 1;

FIG. 6 is a right side elevational view of FIG. 1;
FIG. 7 is a reduced scale bottom elevational view of FIG. 1;
FIG. 8 is a reduced scale bottom plan view of the compartmented portable therapy case, wherein the sliding bottom cover has been separated from the case;
FIG. 9 is a bottom plan view of the compartmented portable therapy case, wherein the sliding bottom cover has been omitted;
FIG. 10 is a bottom plan view of the compartmented portable therapy case, wherein the sliding bottom cover has been omitted, and the compartments have been opened;
FIG. 11 is a reduced scale top plan view of the compartmented portable therapy case in an open position, wherein the removable support prop, illustrated in FIGS. 14 and 15 in a installed position, is in a stored position in one of the compartments;
FIG. 12 is a reduced scale bottom plan view of the compartmented portable therapy case in an open position;
FIG. 13 is a reduced scale top plan view of the compartmented portable therapy case in an open position, wherein the sliding inside cover has been separated from the case and the removable support prop, illustrated in FIGS. 14 and 15 in a installed position, is in a stored position in one of the compartments;
FIG. 14 is a left front perspective view in an alternate partially opened condition wherein the removable support prop, illustrated in FIGS. 11 and 13 in a stored position, is in a installed position;
FIG. 15 is a right front perspective view in an alternate partially opened condition, wherein the removable support prop, illustrated in FIGS. 11 and 13 in a stored position, is in a installed position;
FIG. 16 is a enlarged scale side view of the sliding top cover of FIG. 4;
FIG. 17 is a enlarged scale side view of the sliding bottom cover of FIG. 8; and
FIG. 18 is a enlarged scale side view of the sliding inside cover of FIG. 13.
The views in FIGS. 3, 4, 7, 8, 11, 12 and 13 are shown in reduced scale; and the views in FIGS. 16, 17, and 18 are shown in enlarged scale; for clarity.
