[57] **CLAIM**

The ornamental design for an eyewear lens front, as shown and described.

DESCRIPTION

FIG. **1** is a front perspective view of the eyewear lens front according to the present invention;
FIG. **2** is a side elevation view of one side of the eyewear lens front of FIG. **1**, the other side being a mirror image thereof;
FIG. **3** is a rear elevation view of the eyewear lens front of FIG. **1**;
FIG. **4** is a bottom plan view of the eyewear lens front of FIG. **1**;
FIG. **5** is a front elevation view of the eyewear lens front of FIG. **1**;
FIG. **6** is a front perspective view of an alternative embodiment of the eyewear lens front according to the present invention;
FIG. **7** is a side elevation view of one side of the eyewear lens front of FIG. **6**, the other side being a mirror image thereof;
FIG. **8** is a rear elevation view of the eyewear lens front of FIG. **6**;
FIG. **9** is a bottom plan view of the eyewear lens front of FIG. **6**; and,
FIG. **10** is a front elevation view of the eyewear lens front of FIG. **6**.
The broken line showing the nosepiece is for illustrative purposes and forms no part of the claimed design.
