[57] CLAIM

The ornamental design for an exterior surface configuration of an automobile rear light assembly, as shown and described.

#### DESCRIPTION

FIG. 1 is a rear view of the exterior surface configuration of an automobile rear light assembly according to our novel design;

FIG. 2 is a left side view of the exterior surface configuration of an automobile rear light assembly according to our novel design;

FIG. 3 is a perspective side view taken in a diagonal direction bisecting the side and rear of the exterior surface configuration of an automobile rear light assembly according to our novel design; and,

FIG. 4 is a partly perspective top view of the exterior surface configuration of an automobile rear light assembly.

Features shown in dash lines depict the environment and do not form part of the claimed design.
