[57] **CLAIM**

The ornamental design of a linked moebius band, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view showing the linked moebius band including my new design, a characteristic of which is the twist which has been incorporated into the band;

FIG. 2 is a front view of FIG. 1, the view illustrating the link design and connection, as well as the linked assembly to form the band with the included twist;

FIG. 3 is a left side view of FIG. 1, the view illustrating the link design and connection, as well as the linked assembly to form the band with the included twist;

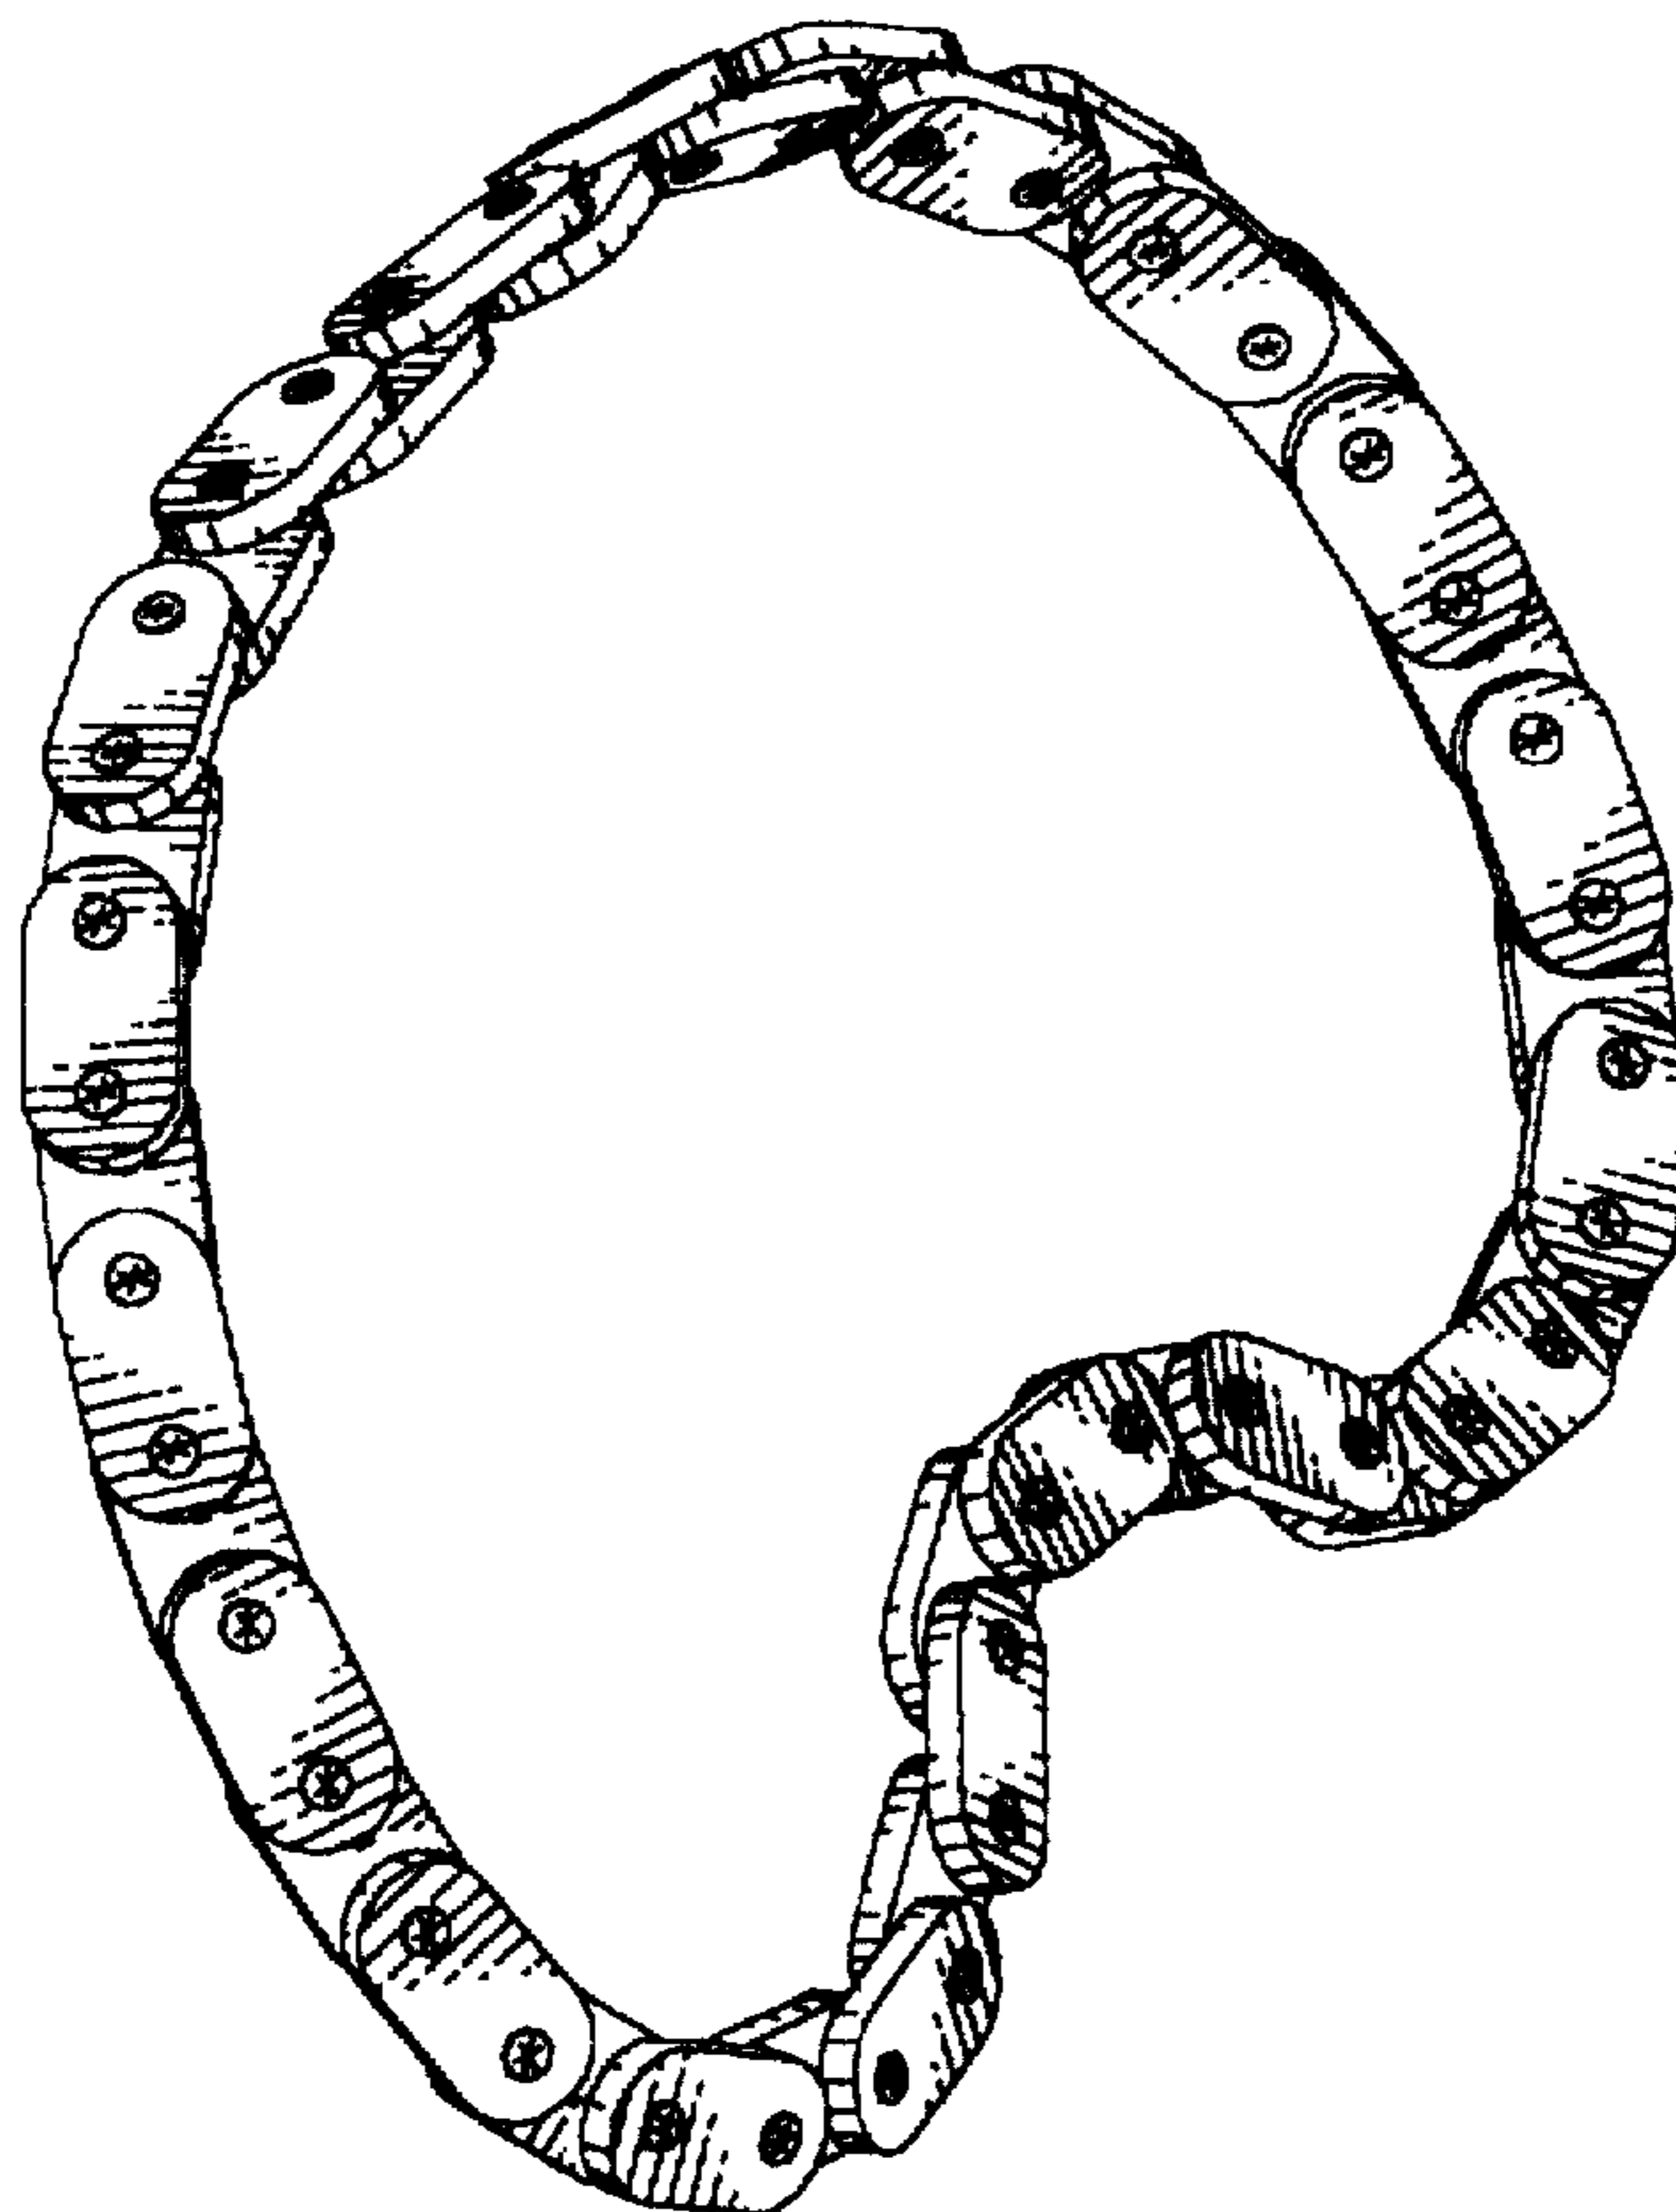

FIG. 4 is a right side view of FIG. 1, the view illustrating the link design and connection, as well as the linked assembly to form the band with the included twist;

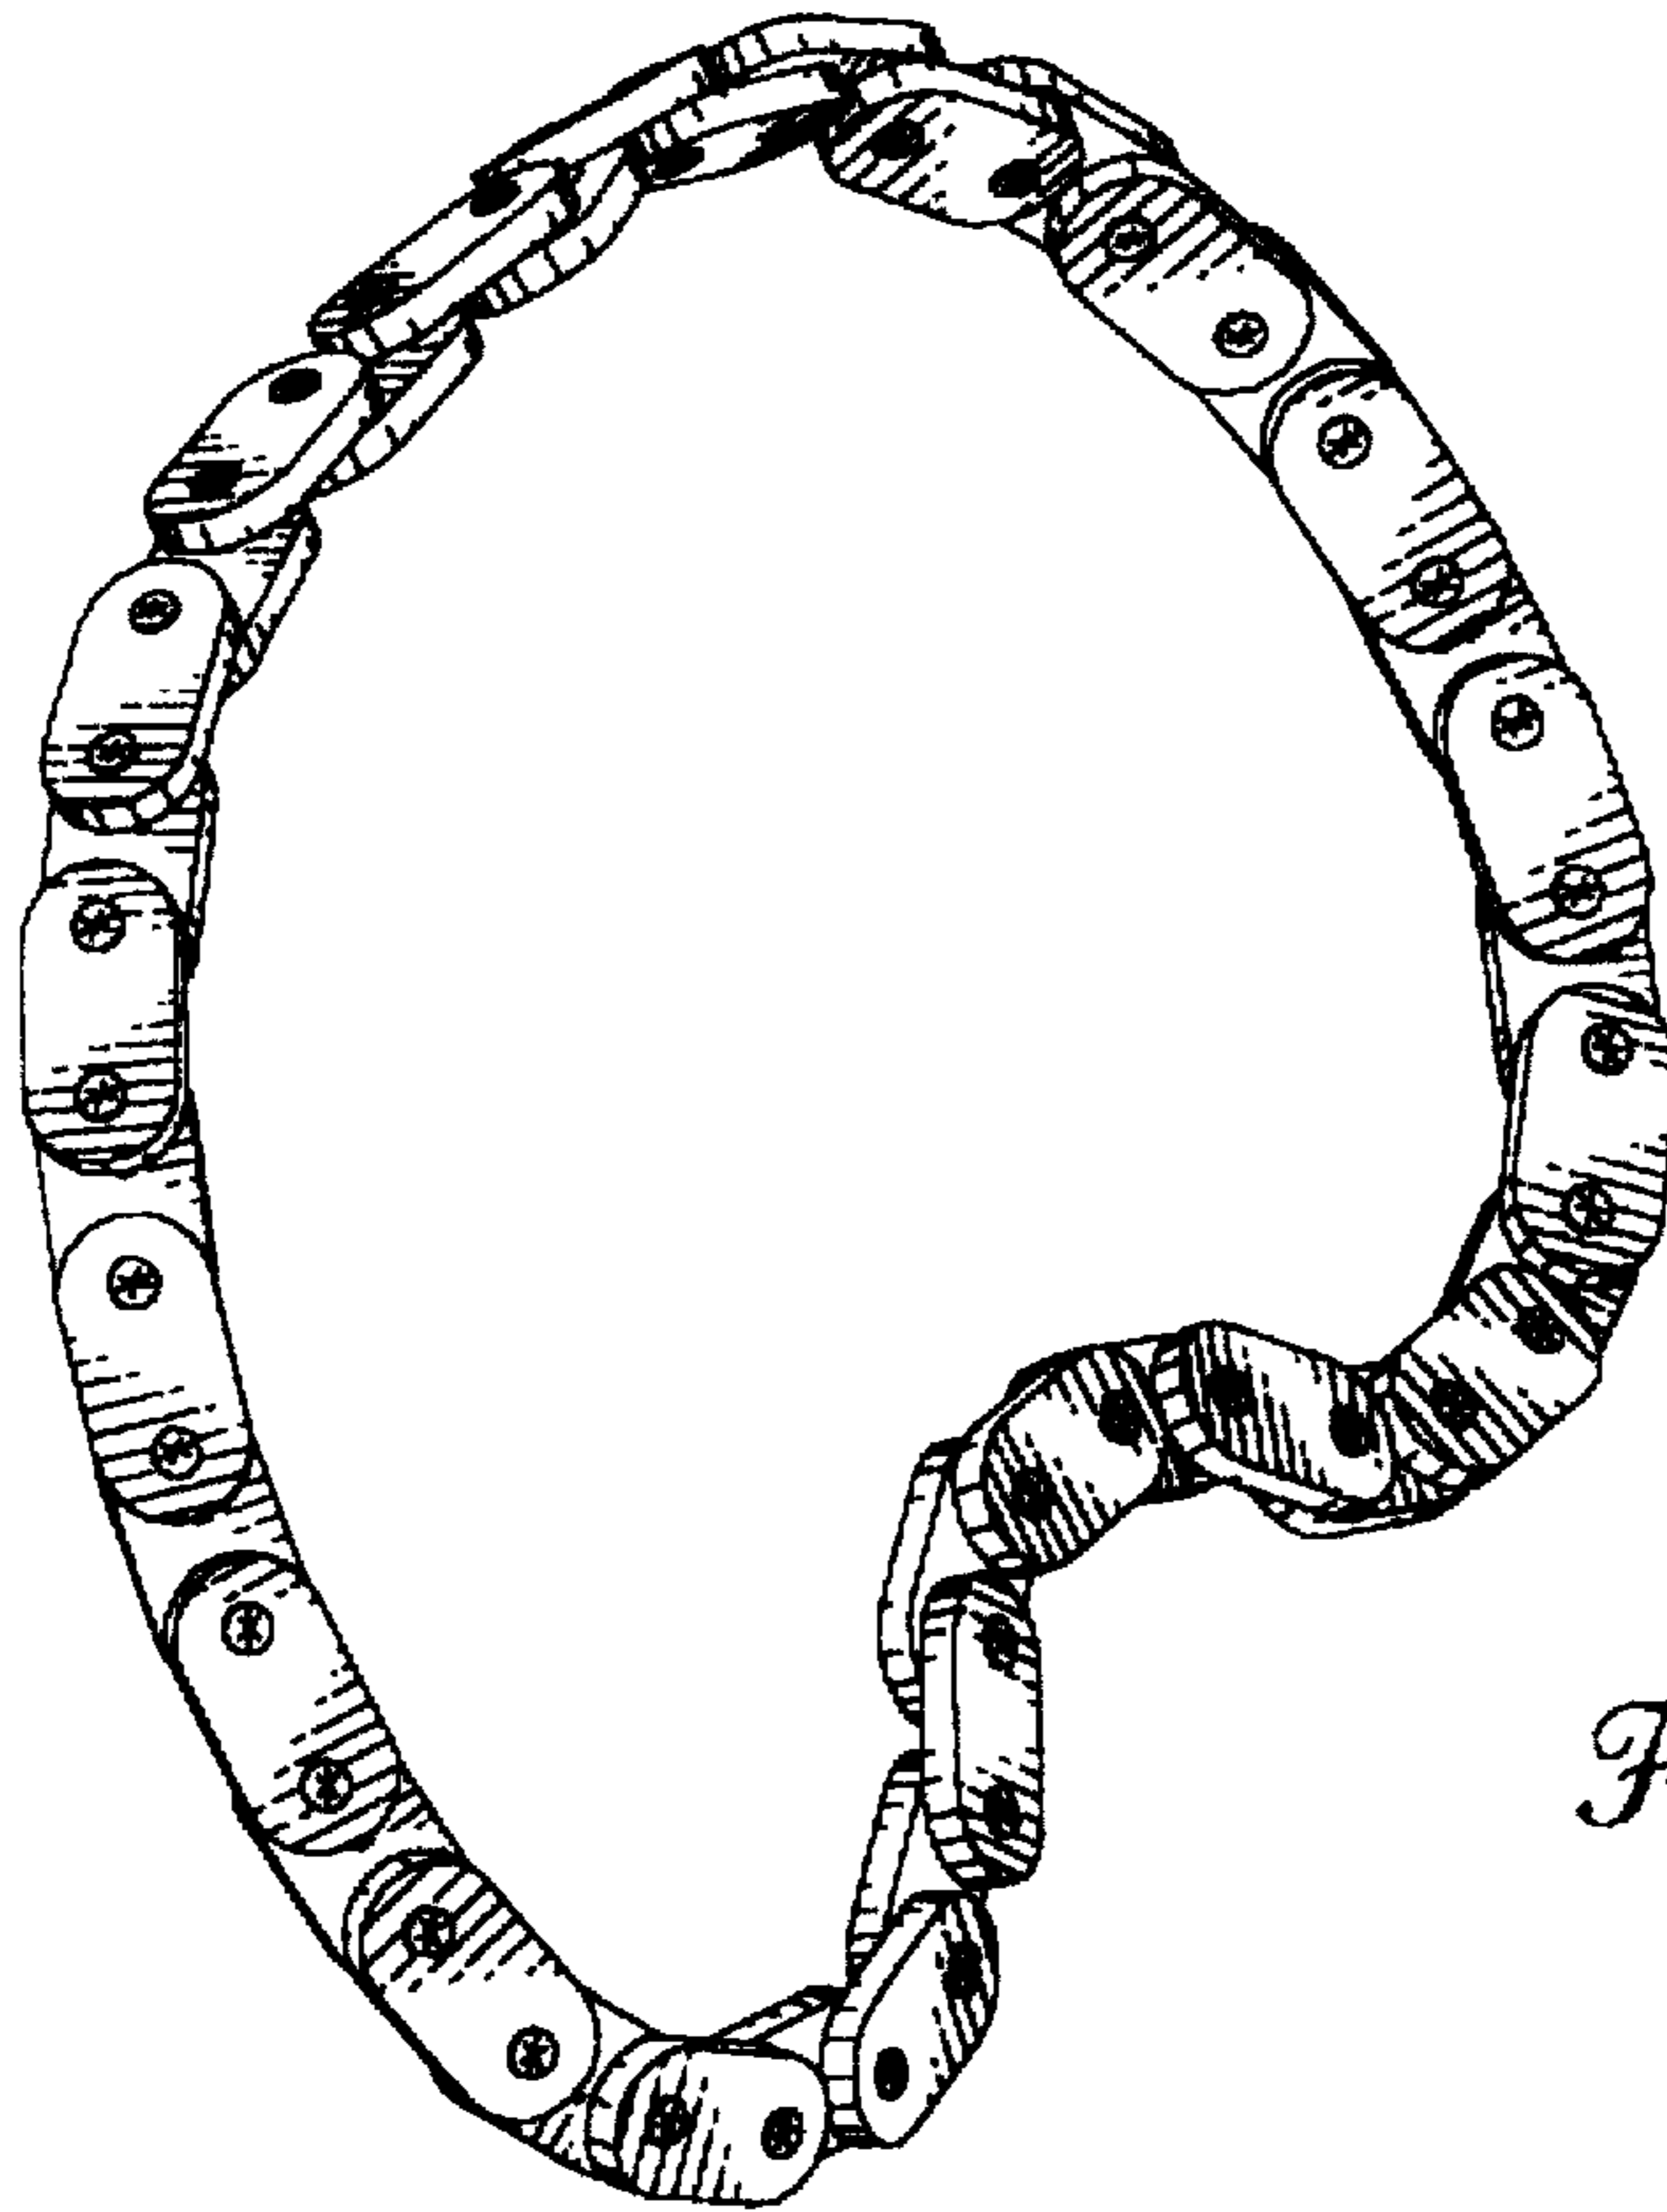

FIG. 5 is a top plan view of FIG. 1, the view illustrating the link design and connection, as well as the linked assembly to form the band with the included twist;

FIG. 6 is a bottom view of FIG. 1, the view illustrating the link design and connection, as well as the linked assembly to form the band with the included twist; and,

FIG. 7 is a near elevation view of FIG. 1, the view illustrating the included twist and including perspective views of the staggering and pinned connection of the links to form a generally flat band with the included twist.
