[57] CLAIM

The ornamental design for a tire tread, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a tire tread showing our new design, it being understood that the tread pattern repeats uniformly throughout the circumference of the tire tread; FIG. 2 is a front elevational view thereof; FIG. 3 is a side elevational view thereof, the opposite side elevational view being identical thereto; and, FIG. 4 is an enlarged fragmentary front view thereof. The broken line showing of the tire sidewall in the drawings and the peripheral boundary between the tire tread and sidewall are for illustrative purposes only and forms no part of the claimed design.
