[57] CLAIM

The ornamental design for a portable multimedia CD-ROM player, as shown and described.

DESCRIPTION

FIG. 1 is a right side perspective view of a portable multimedia CD-ROM player showing our new design wherein the speakers are extracted symmetrically from a body;
FIG. 2 is a perspective view thereof, where the left speaker further rotates vertically and takes a standing posture;
FIG. 3 is a front elevational view thereof, where the speakers are extracted horizontally;
FIG. 4 is a rear elevational view thereof, where the speakers are extracted horizontally;
FIG. 5 is a left side elevational view thereof, where the left speaker is extracted horizontally;
FIG. 6 is a top plan view thereof, where the speakers are extracted horizontally;
FIG. 7 is a bottom plan view thereof, where the speakers are extracted horizontally;
FIG. 8 is a front elevational view thereof, where the speakers are fully accommodated into the body;
FIG. 9 is a rear elevational view thereof, where the speakers are fully accommodated into the body;
FIG. 10 is a left side elevational view thereof, where the left speaker is accommodated fully into the body;
FIG. 11 is a top plan view thereof, where the speakers are fully accommodated into the body; and,
FIG. 12 is a bottom plan view thereof, where the speakers are fully accommodated into the body.
