[57] CLAIM

The ornamental design for a display unit, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the display unit configured in the outline of a map of the United States of America in accordance with a first embodiment having a flat top;

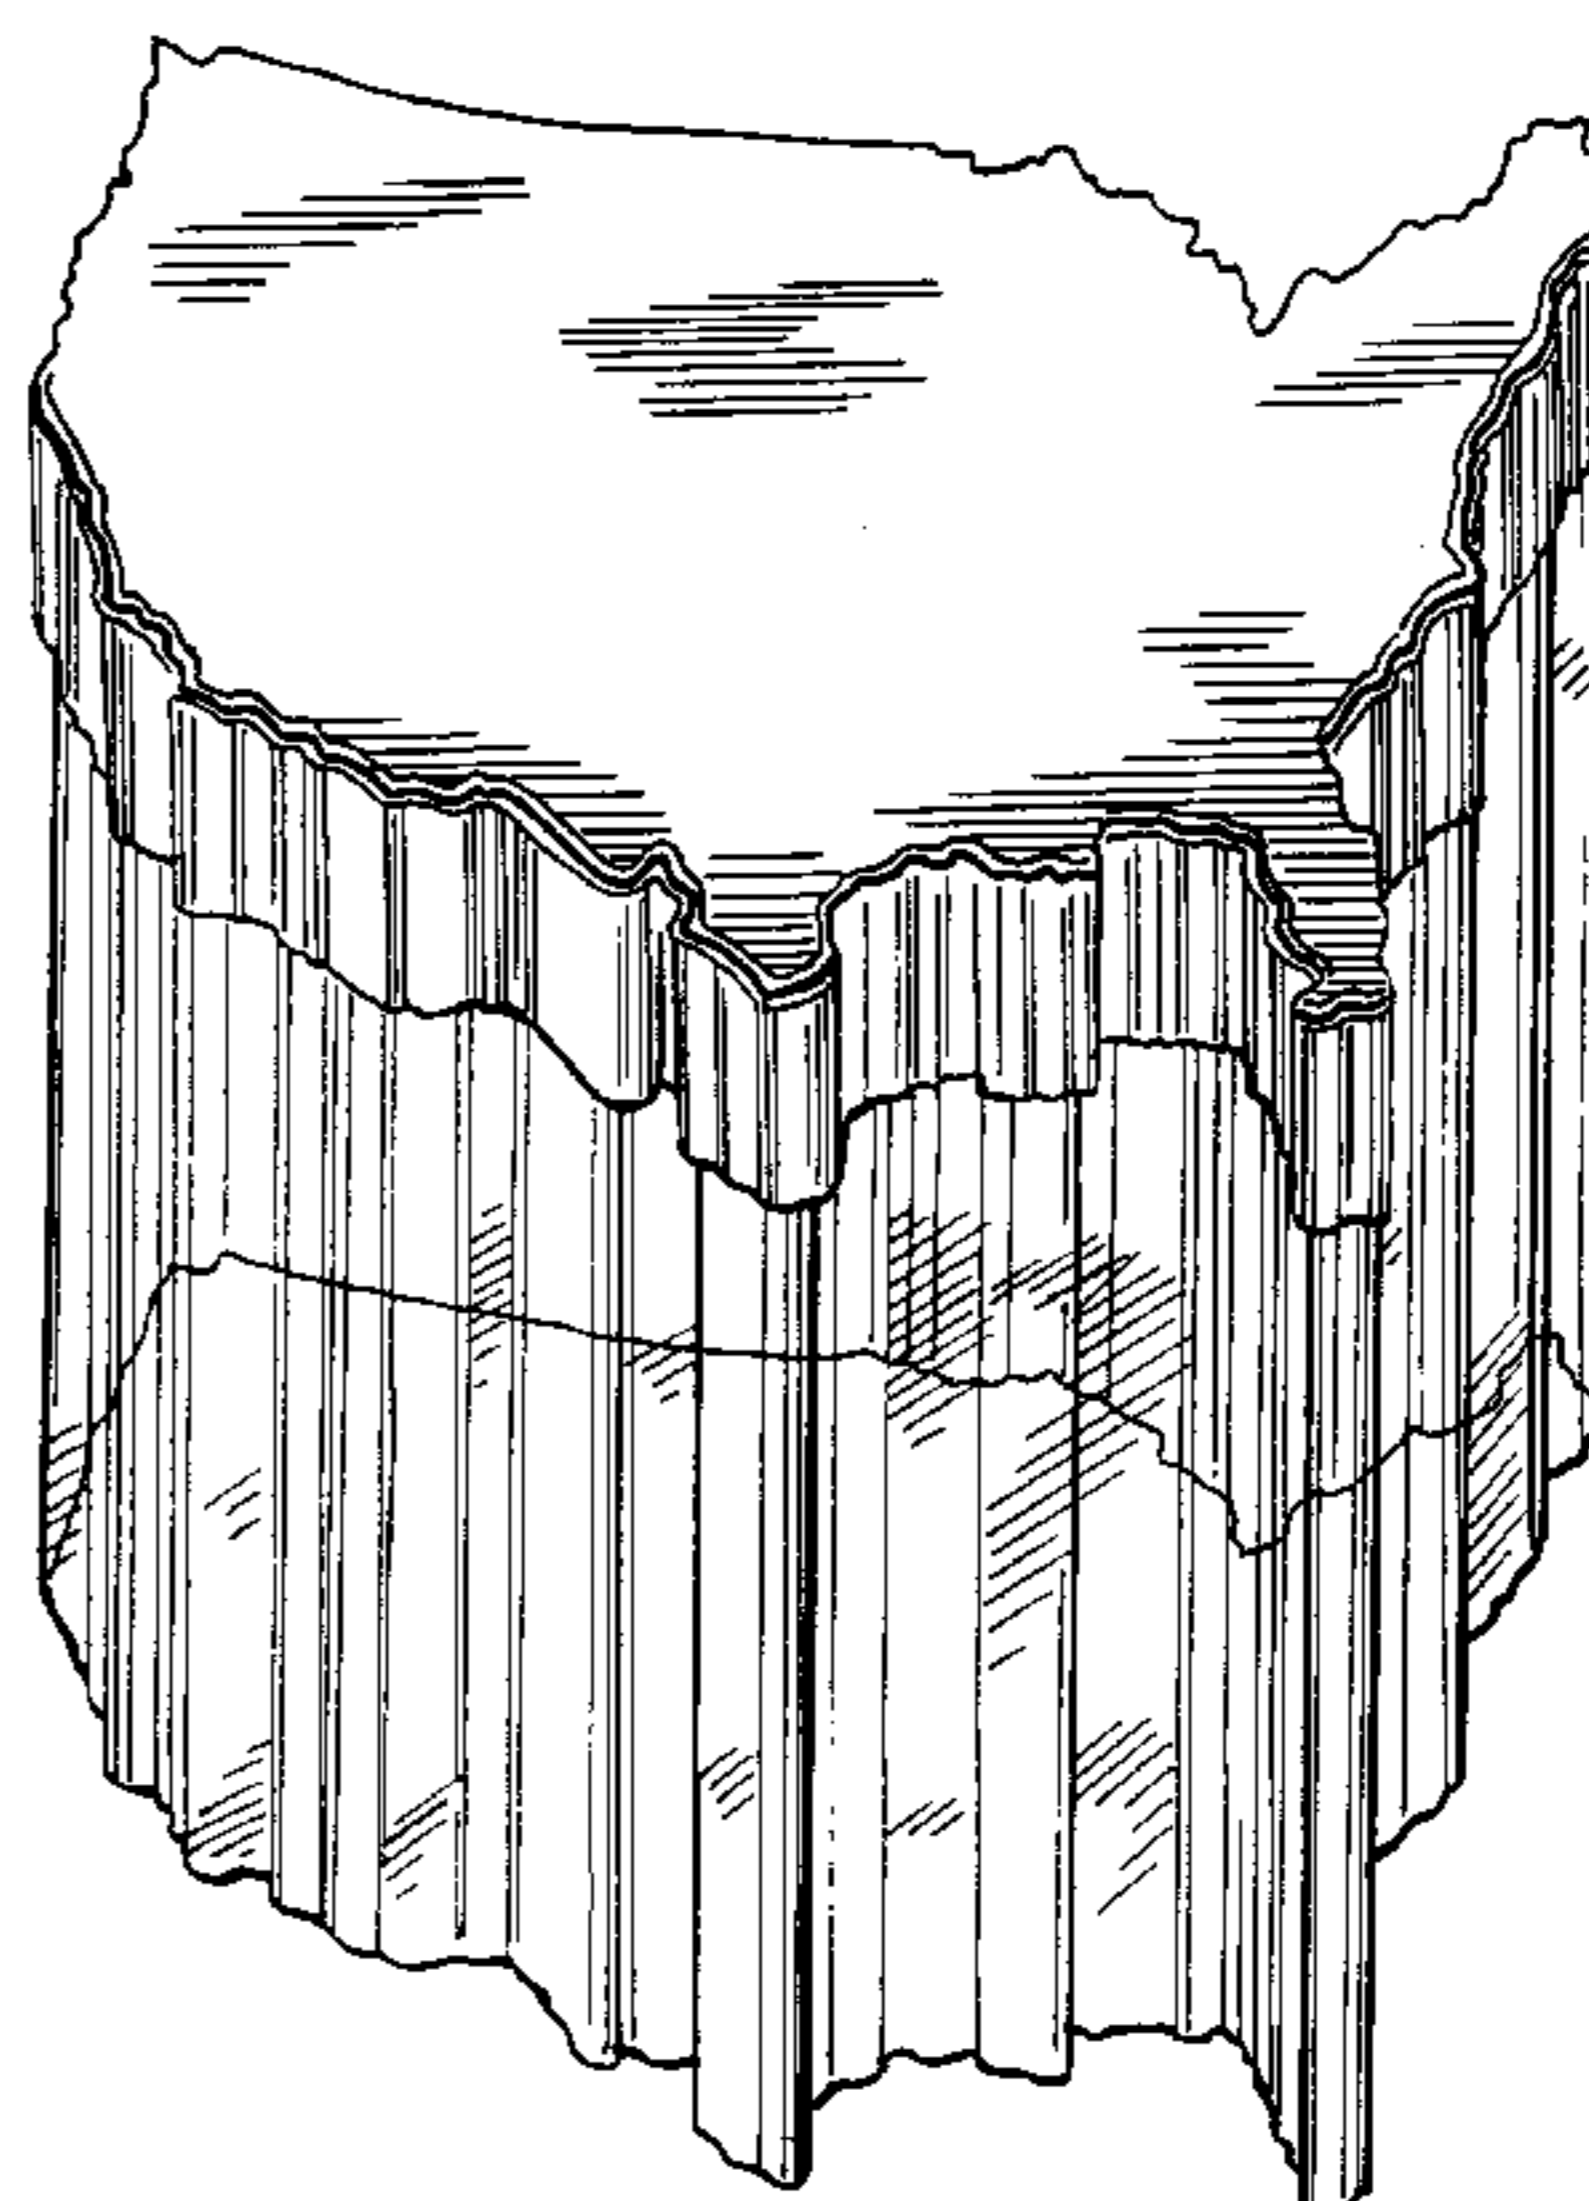

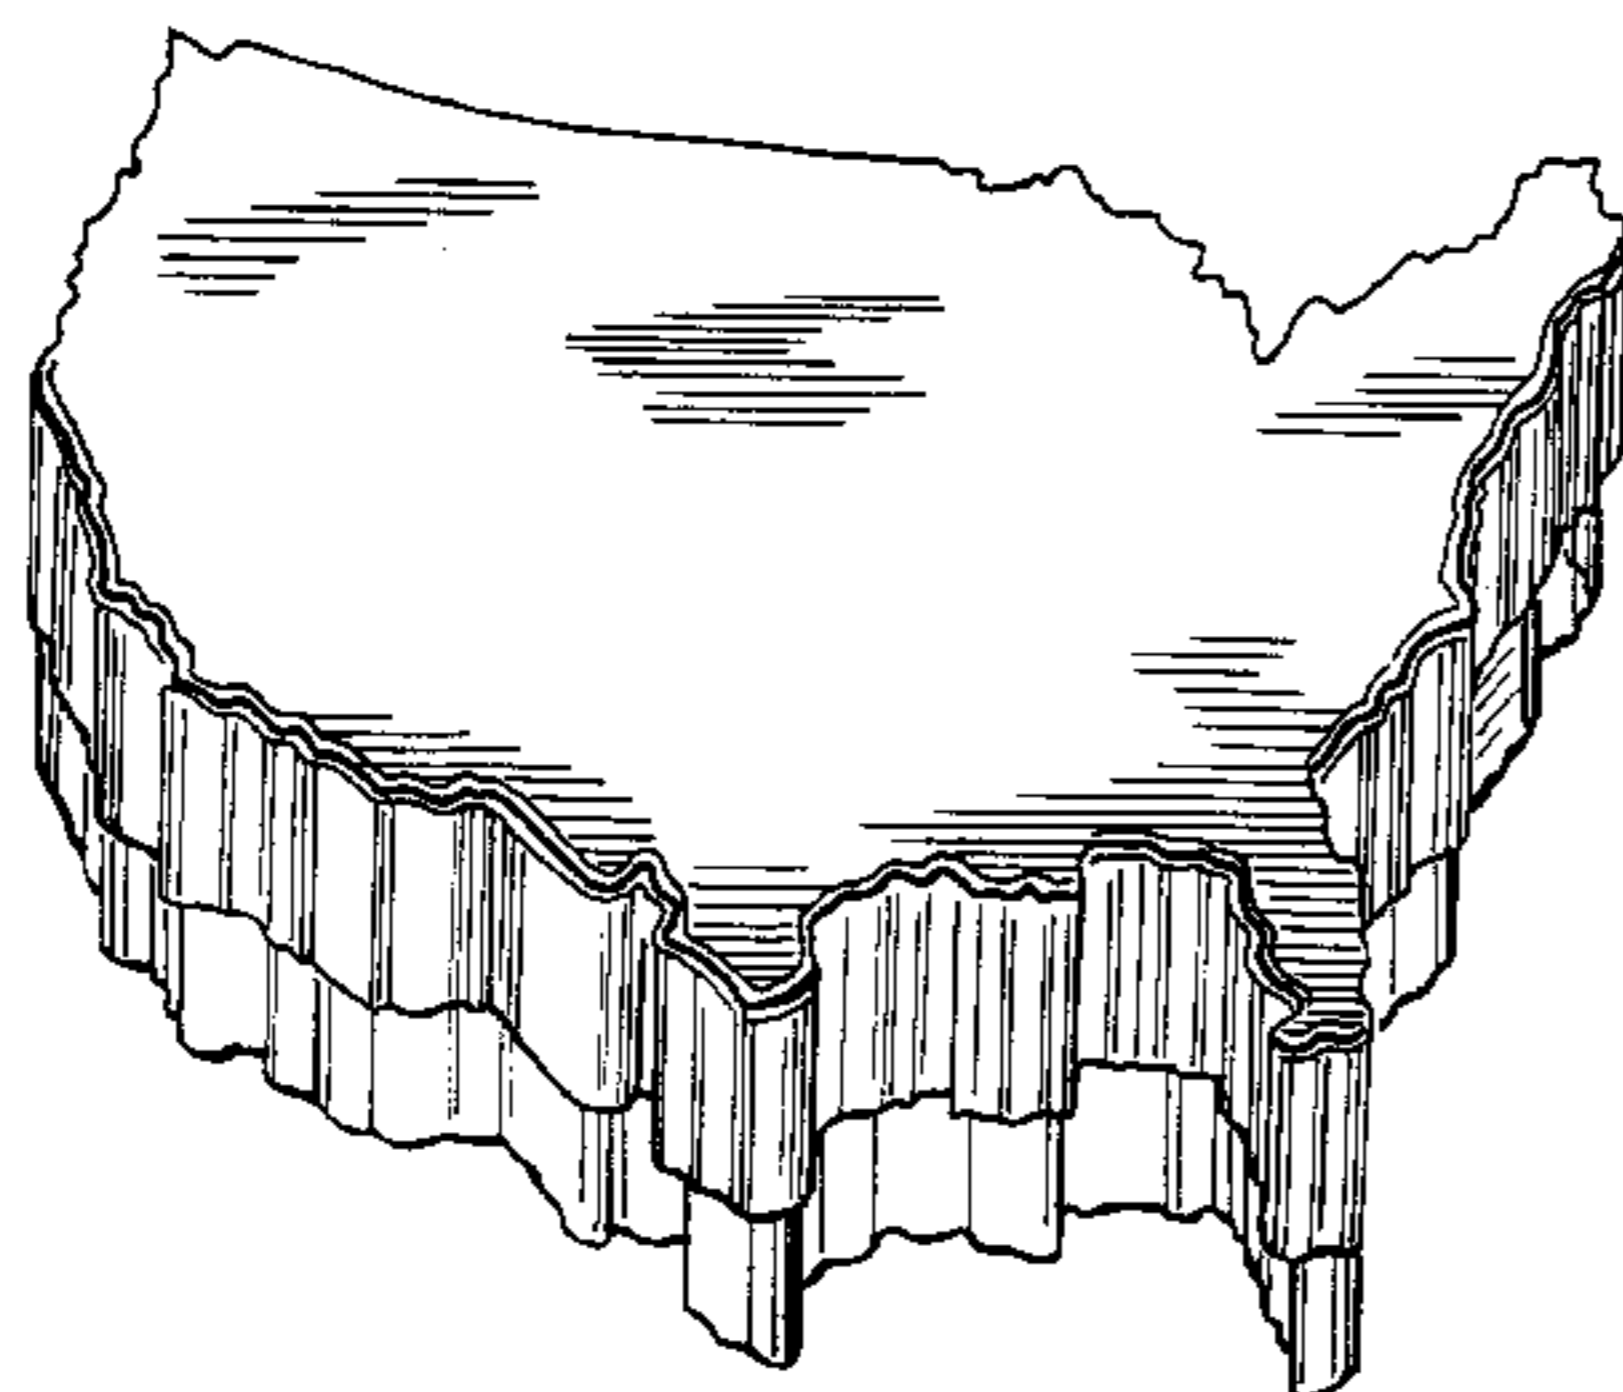

FIG. 2 is a perspective view of the display unit configured in the outline of a map of the United States of America in accordance with a second embodiment having a flat top and transparent sidewalls; and,

FIG. 3 is a perspective view of the display unit configured in the outline of a map of the United States of America in accordance with a third embodiment having an open top and transparent sidewalls.

The bottom surface is flat and unornamented.

The inner and outer surfaces of the top and side walls of the display unit in FIGS. 1, 2 and 3 that are not visible are unornamented and follow the contours of the top and side edges.

1 Claim, 3 Drawing Sheets

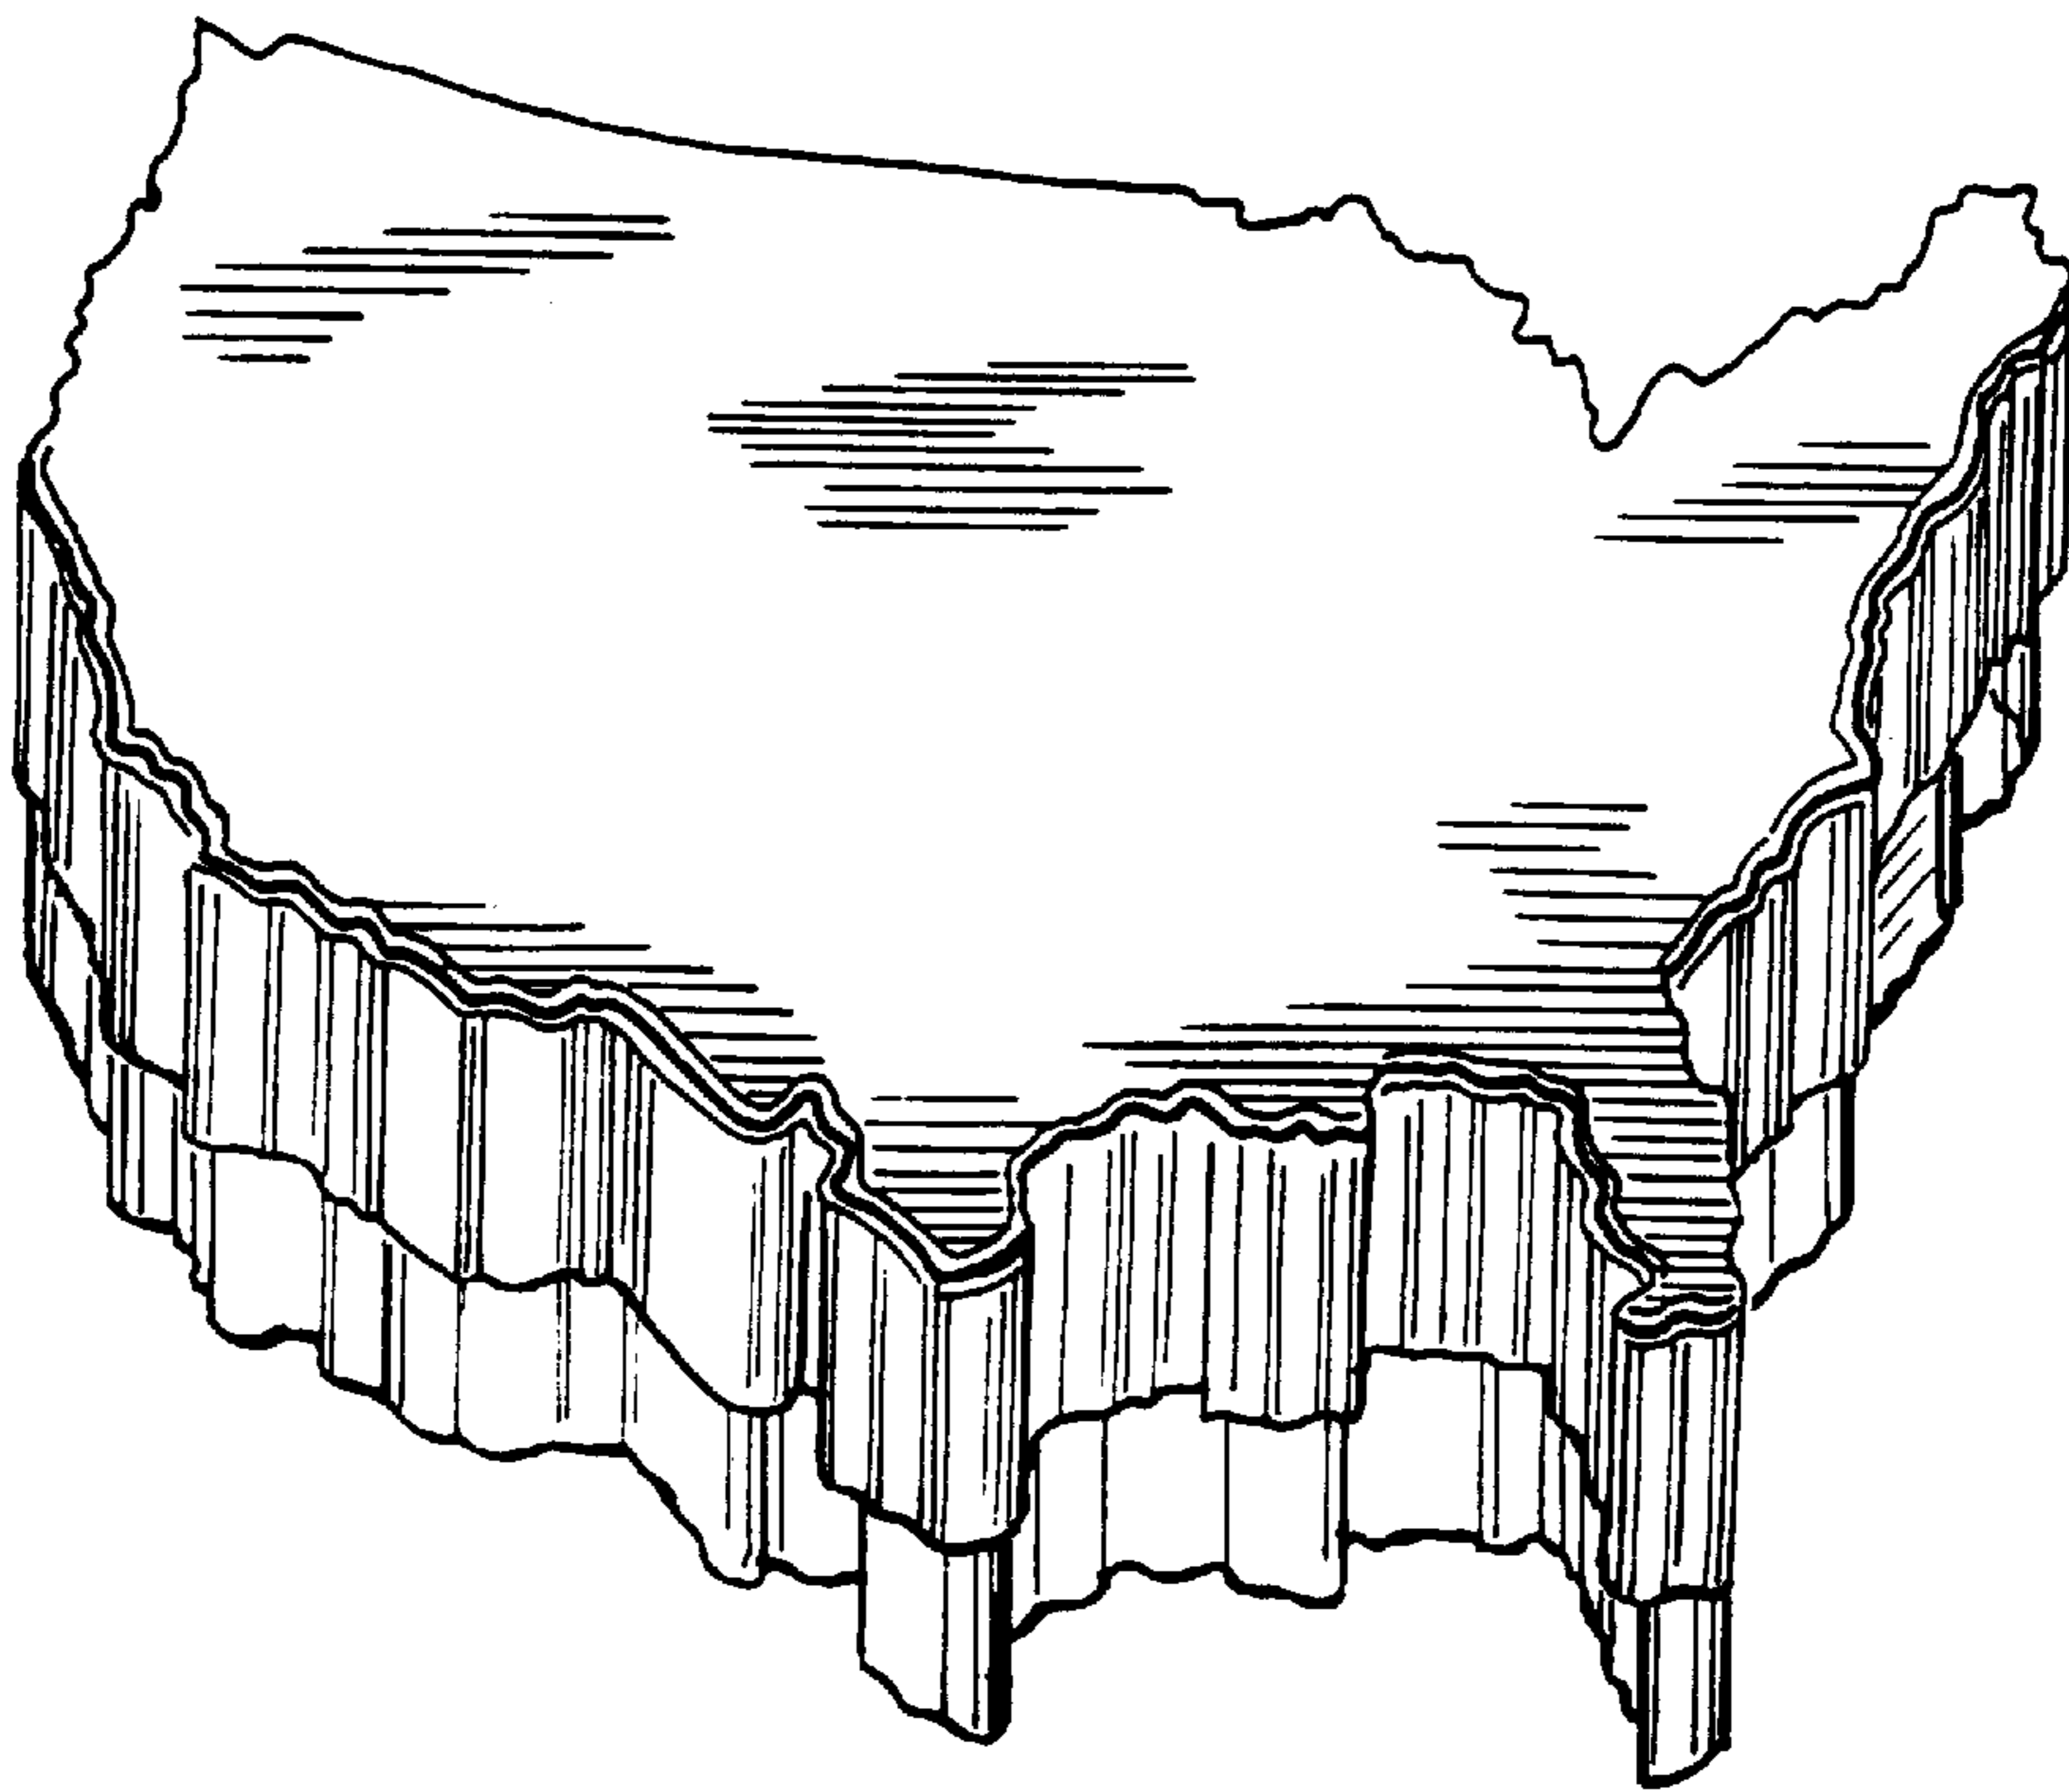

FIG. 1

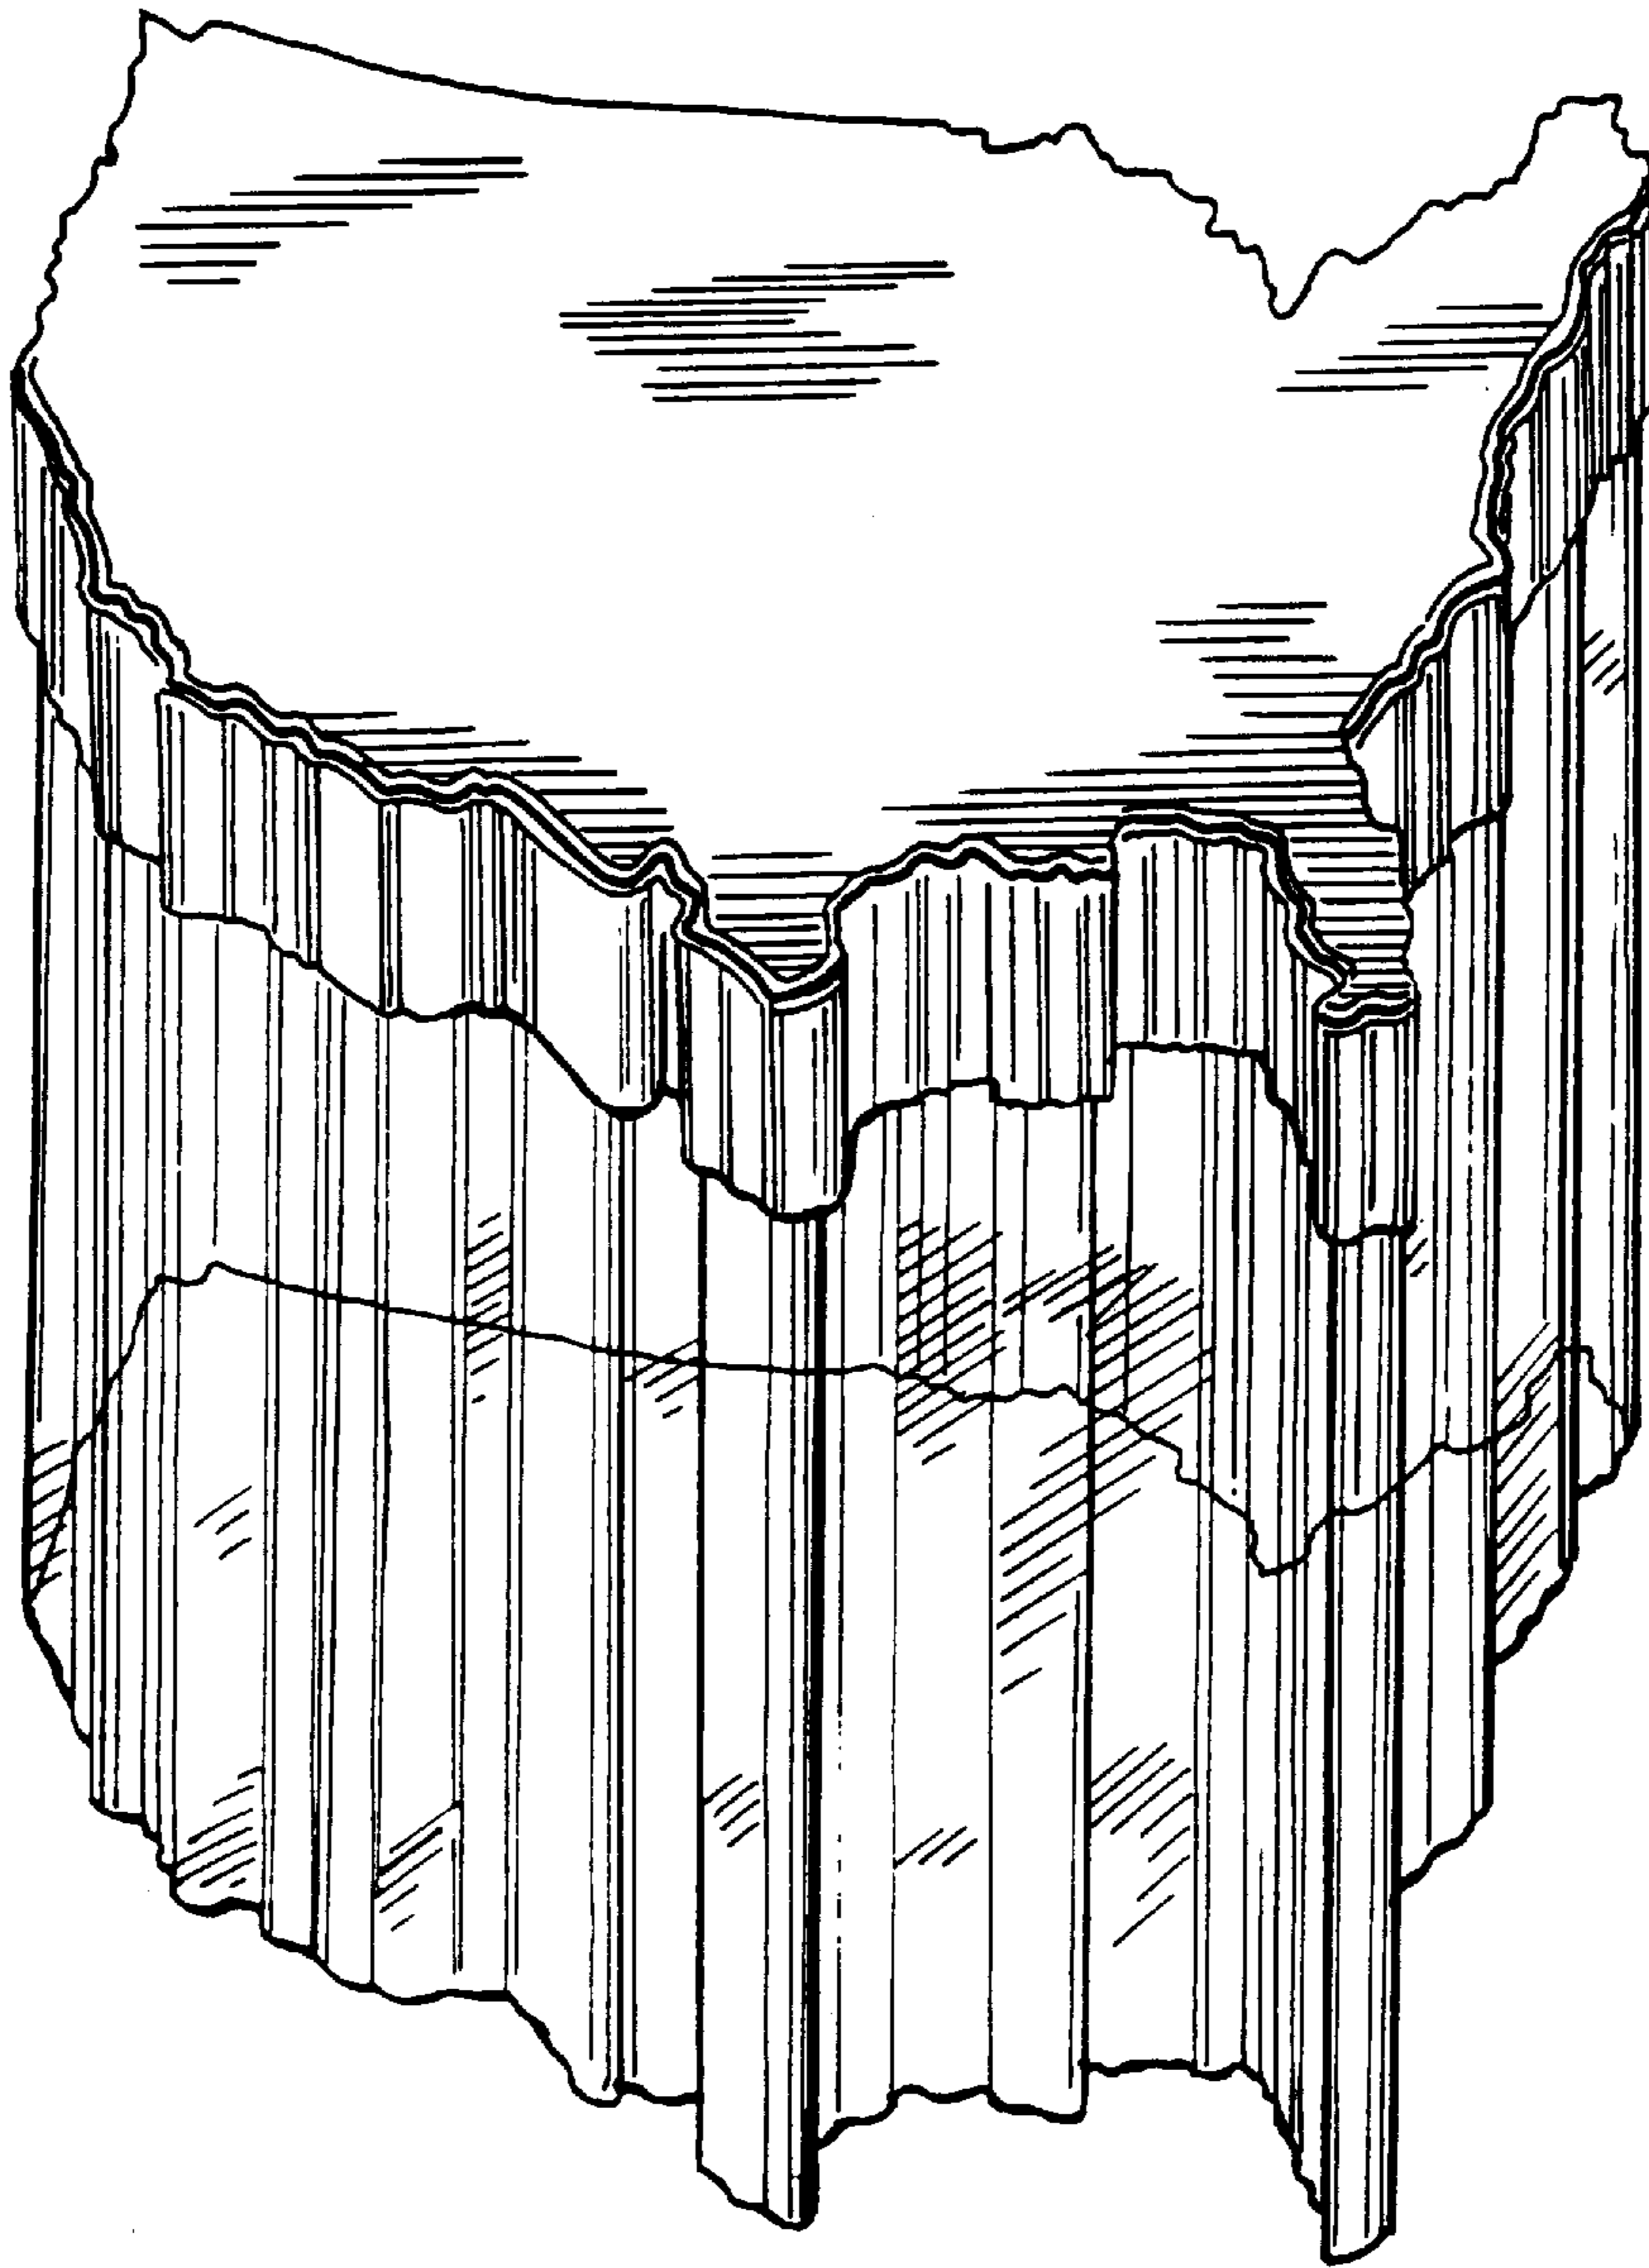

FIG. 2

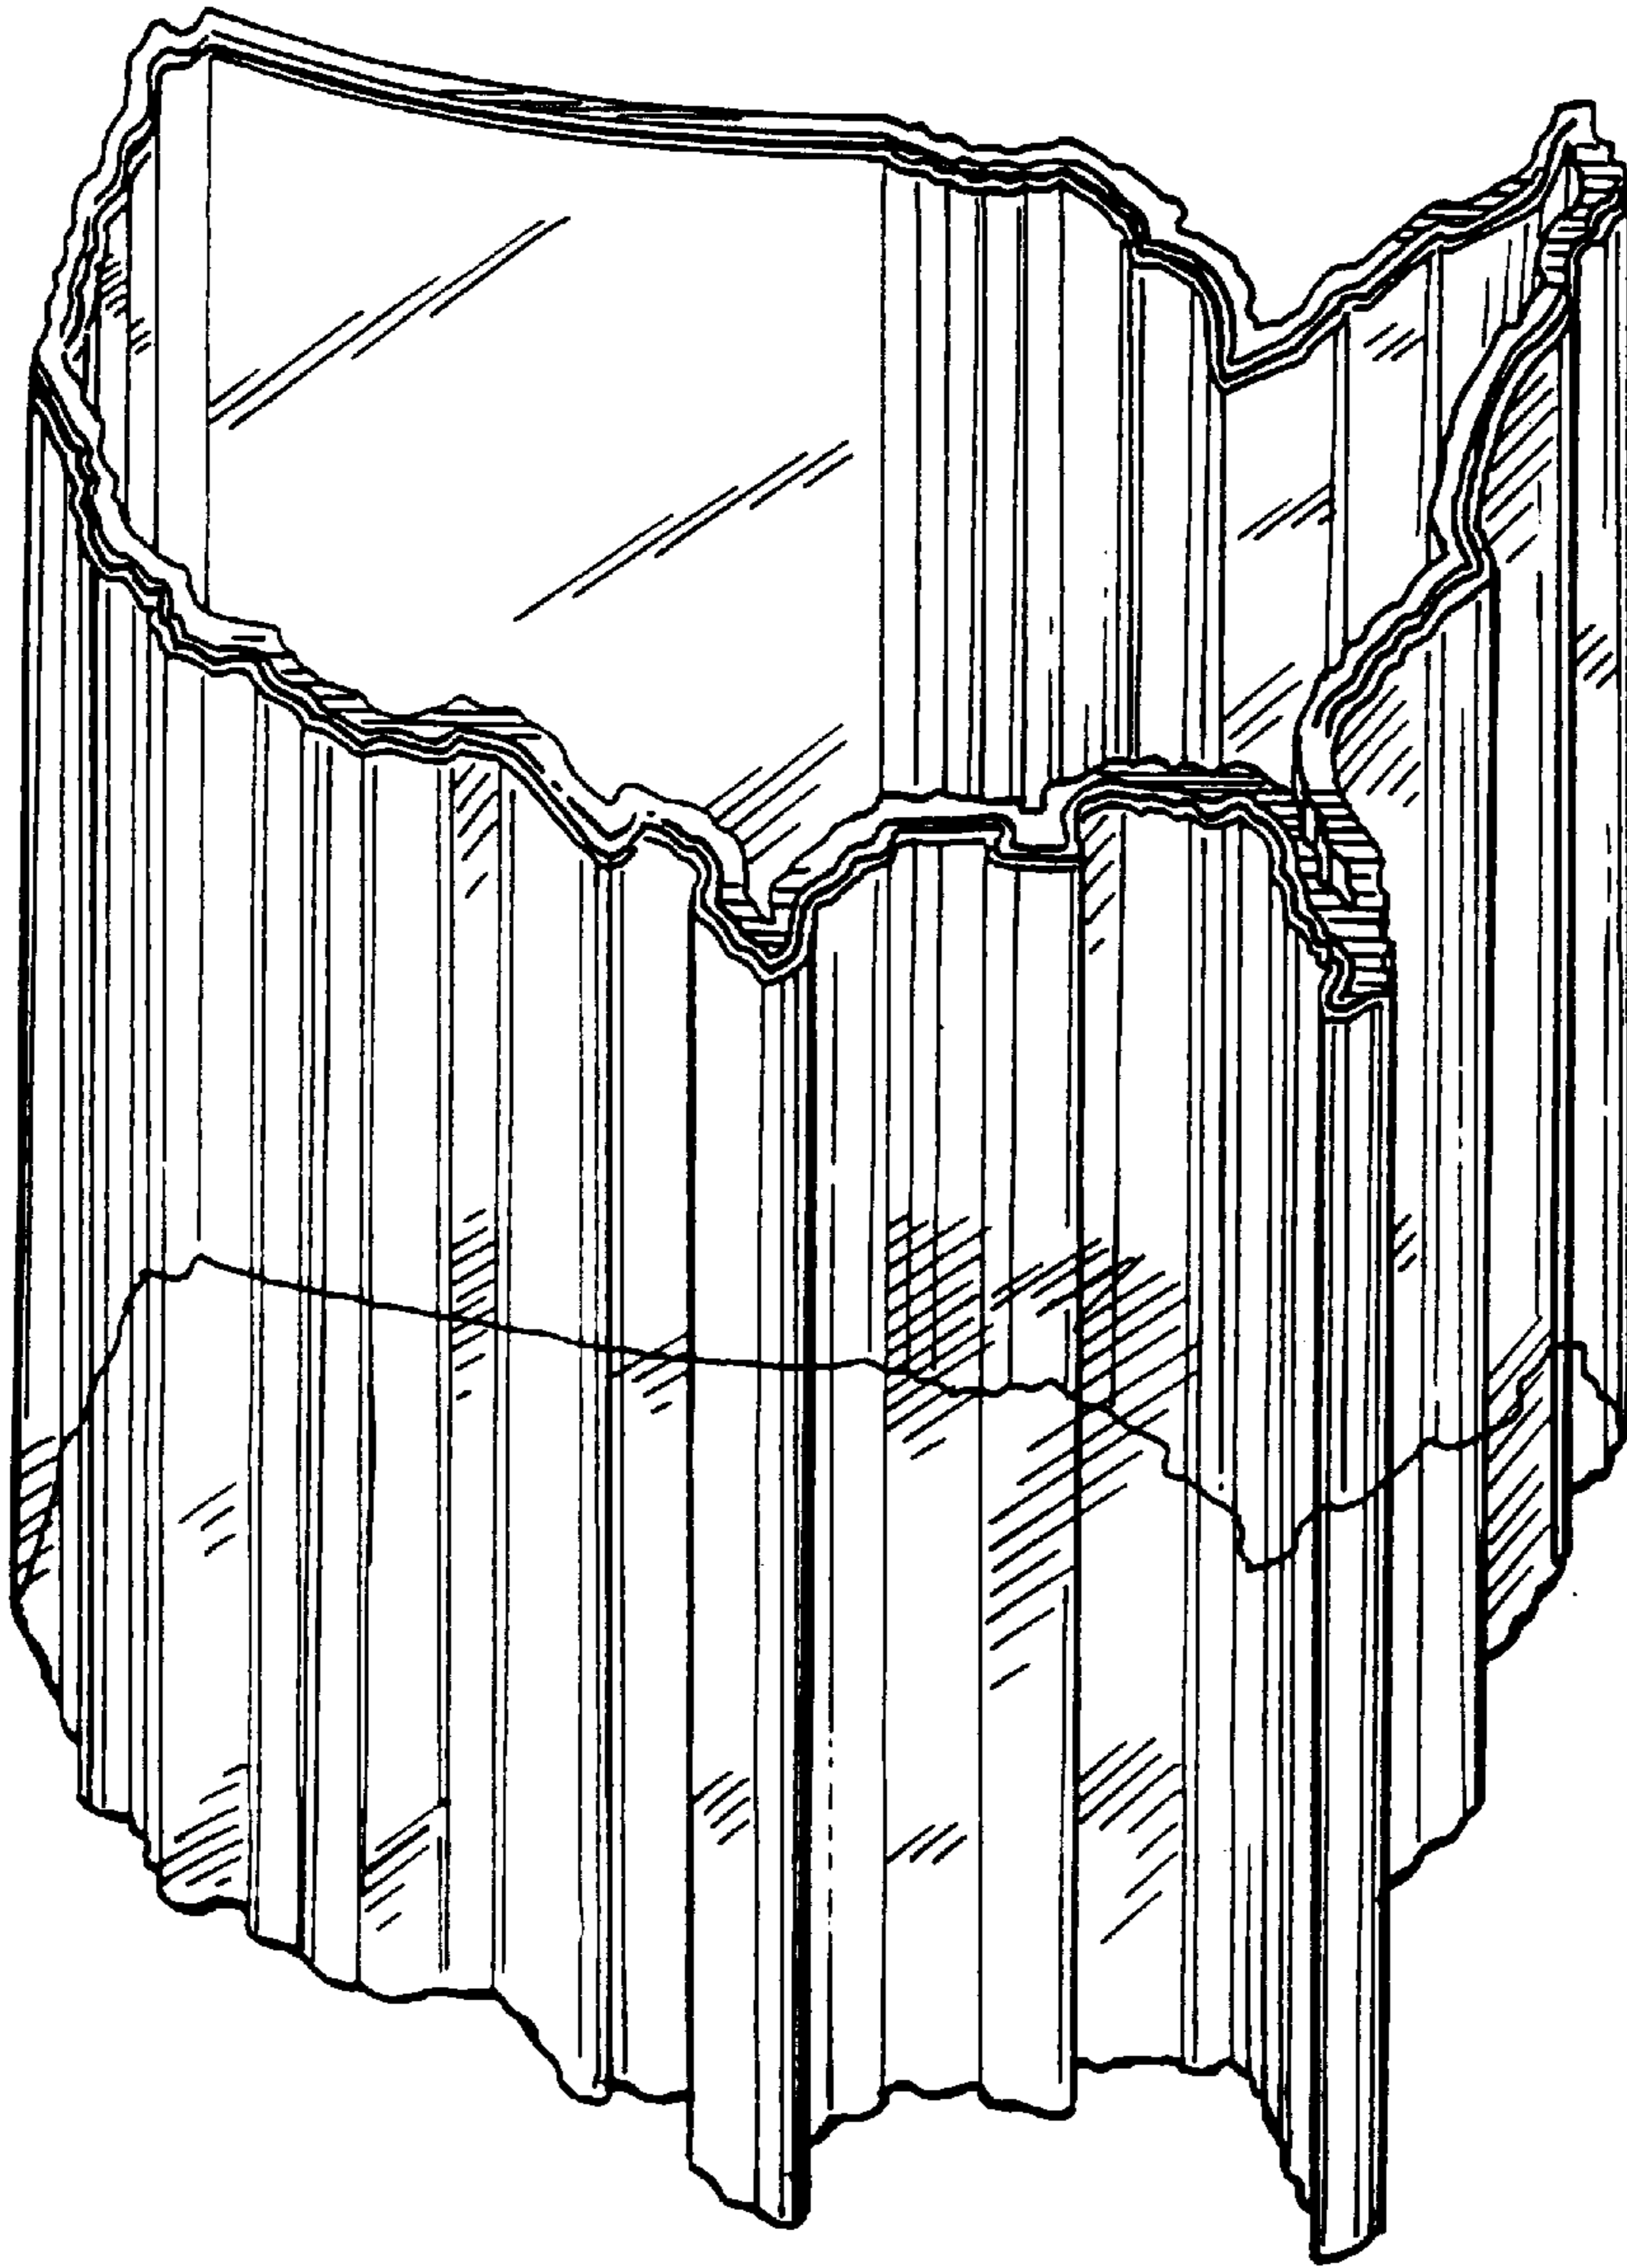

FIG. 3
