[57] CLAIM

The ornamental design for a combined galley rail and spindle, as shown and described.

DESCRIPTION

FIG. 1 is a fragmentary elevational view of a modified embodiment of the galley rail spindles of my new design; FIG. 2 is a fragmentary top view of the modified galley rail spindles of FIG. 1; and, FIG. 3 is an end view of the modified galley rail spindles of FIG. 1.

The pattern of the combined galley rail and spindle is constant throughout its width.
