[57] CLAIM

The ornamental design for a configured face insert for golf club head, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a, for use with a configured face insert for golf club head, embodying my new design; FIG. 2 is a front elevational view of the configured face insert for a golf club head shown in FIG. 1; and, FIG. 3 is another perspective view of a configured face insert for a golf club head as shown in FIG. 1, as seen by a golfer when a club head utilizing our new design of face insert is held at the address position.

The phantom representation of a golf club head is present merely to illustrate the orientation and location of our new design of a face insert on an iron-style golf club, and such phantom golf club outline forms no part of the present invention.

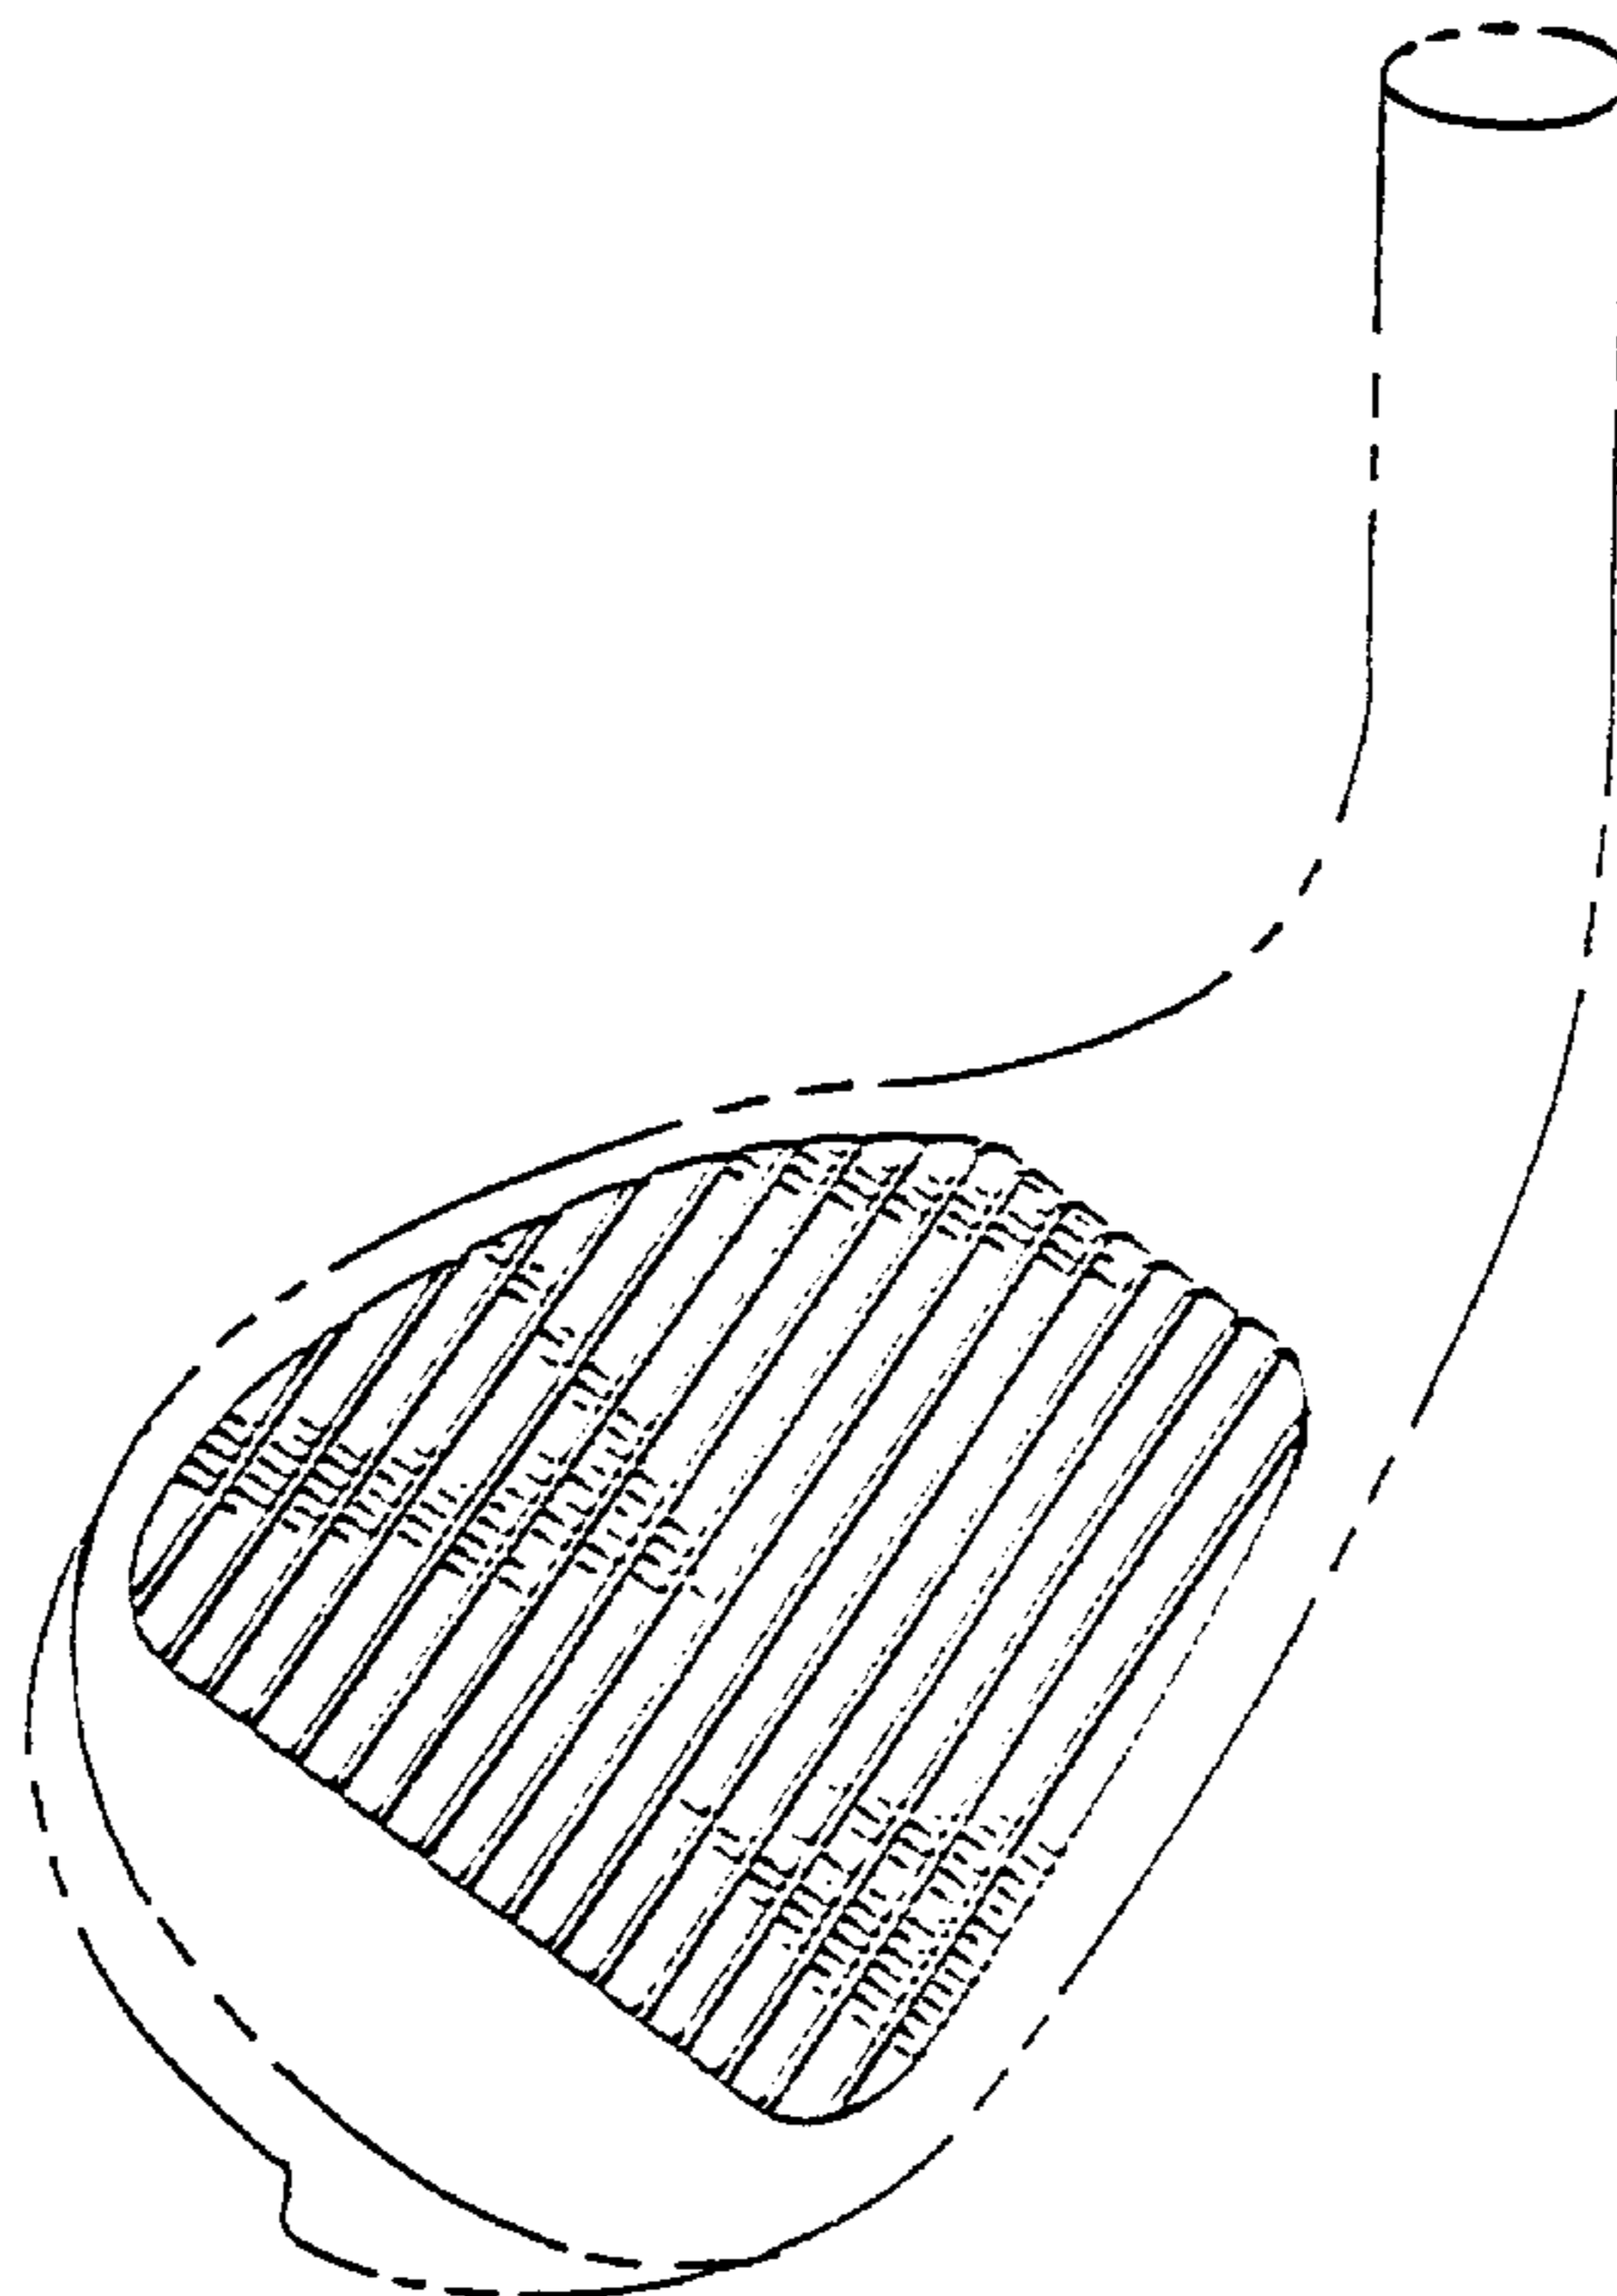

The characteristic feature of our design resides in the particular configured, non-parallel sided shape for the outer profile of a face insert for a golf club head, as shown.
