[57] **CLAIM**

The ornamental design of a form board for swimming pool coping, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of the form board for swimming pool coping of the invention shown broken away to indicate indeterminate length;

FIG. 2 is a fragmentary top view of one of the broken away portions;

FIG. 3 is a fragmentary bottom view of one of the broken away portions;

FIG. 4 is a fragmentary front view of one of the broken away portions;

FIG. 5 is a fragmentary rear view of one of the broken away portions; and,

FIG. 6 is a left side elevational view thereof, the right side elevation being a mirror image thereof.

The characteristic feature of the design resides in the frontal upper portion, having a vertical inwardly canted face underlying a horizontal concave recess extending rearwardly upward to its top surface.
