DESCRIPTION

FIG. 1 is a perspective view of a tire tread showing our new design, it being understood that the tread pattern is repeated throughout the circumference of the tire tread, the opposite side being a mirror image of that illustrated; and, FIG. 2 is an enlarged fragmentary view of the tread pattern of the tire tread of our design as shown in FIG. 1.

The broken line showing of a tire inner bead and sidewall is for illustrative purposes only and forms no part of the claimed design.
