[57] **CLAIM**

The ornamental design for a tire, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a first embodiment of my new design for a tire, it being understood that the tread pattern is repeated uniformly throughout the circumference of the tire, as shown schematically in solid lines, and the opposite side is the same as that shown;

FIG. 2 is a front elevational view of my new design of FIG. 1 for a tire; and

FIG. 3 is a side elevational view thereof, the opposite side being a mirror image thereof;

FIG. 4 is a perspective view of a second embodiment of my new design for a tire, it being understood that the tread pattern is repeated uniformly throughout the circumference of the tire, as shown schematically in solid lines, and the opposite side is the same as that shown;

FIG. 5 is a front elevational view of my new design of FIG. 4 for a tire; and,

FIG. 6 is a side elevational view thereof, the opposite side being a mirror image thereof.
