[57] **CLAIM**

The ornamental design for a display bezel for a hand-held electronic measurement instrument, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a display bezel for a hand-held electronic measurement instrument showing my new design;

FIG. 2 front elevation view of the display bezel for a hand-held electronic measurement instrument showing in broken lines the environment in which the display bezel is used;

FIG. 3 is a left side elevation view having a mirrored right side elevation view of the display bezel for a hand-held electronic measurement instrument;

FIG. 4 is a bottom end elevation view having a mirrored top end elevation view of the display bezel for a hand-held electronic measurement instrument;

FIG. 5 is a back elevation view of the display bezel for a hand-held electronic measurement instrument; and,

FIG. 6 is a front elevation view of the display bezel for a hand-held electronic measurement instrument.

The broken line showing is for illustrative purposes only and forms no part of the claimed design.
