FIG. 1 is a front elevational view of a watchband with charm holder showing my new design. The broken line showing of the band being environmental only and forming no part of the claimed design;
FIG. 2 is an enlarged front view of the charm holder portion thereof in an open position;
FIG. 3 is an enlarged front view of the charm holder portion in a closed position; and,
FIG. 4 is an enlarged side view of the charm holder portion. The watchband has an opening formed therein shown by two parallel black lines where by a charm holder is attached by looping through the opening and attaching to the watchband. The charm holder of predetermined dimensions is used as a fastener to attach charms to the watchband.
