[57] CLAIM

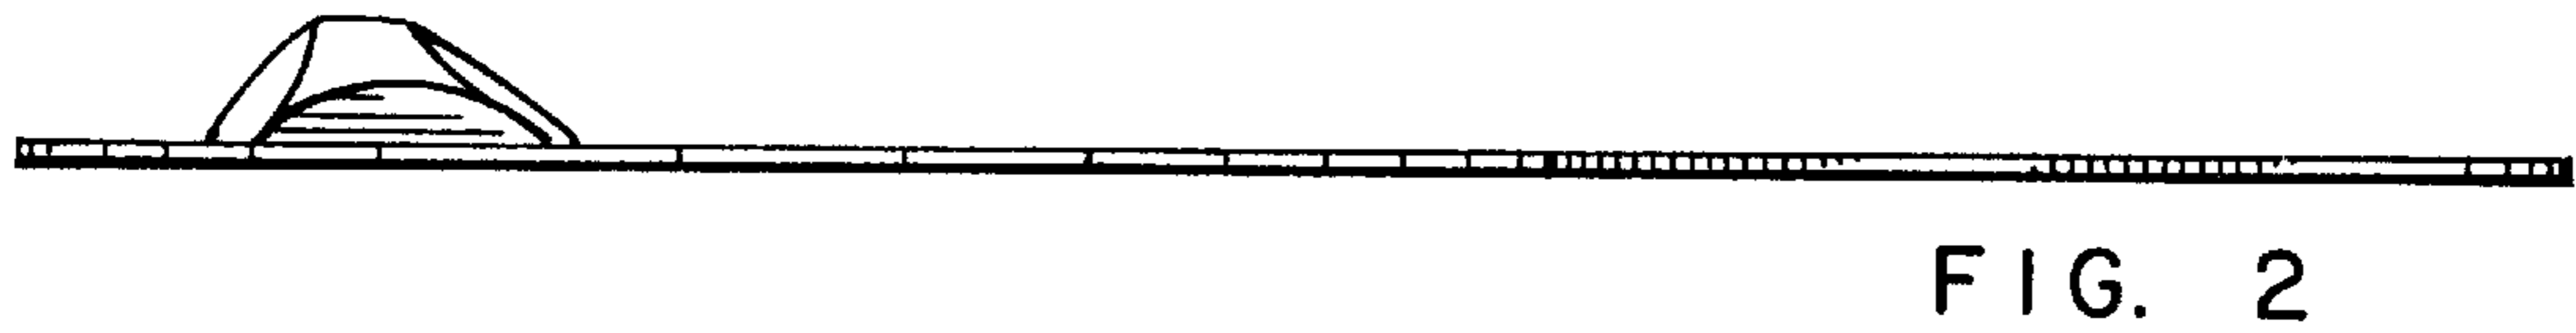

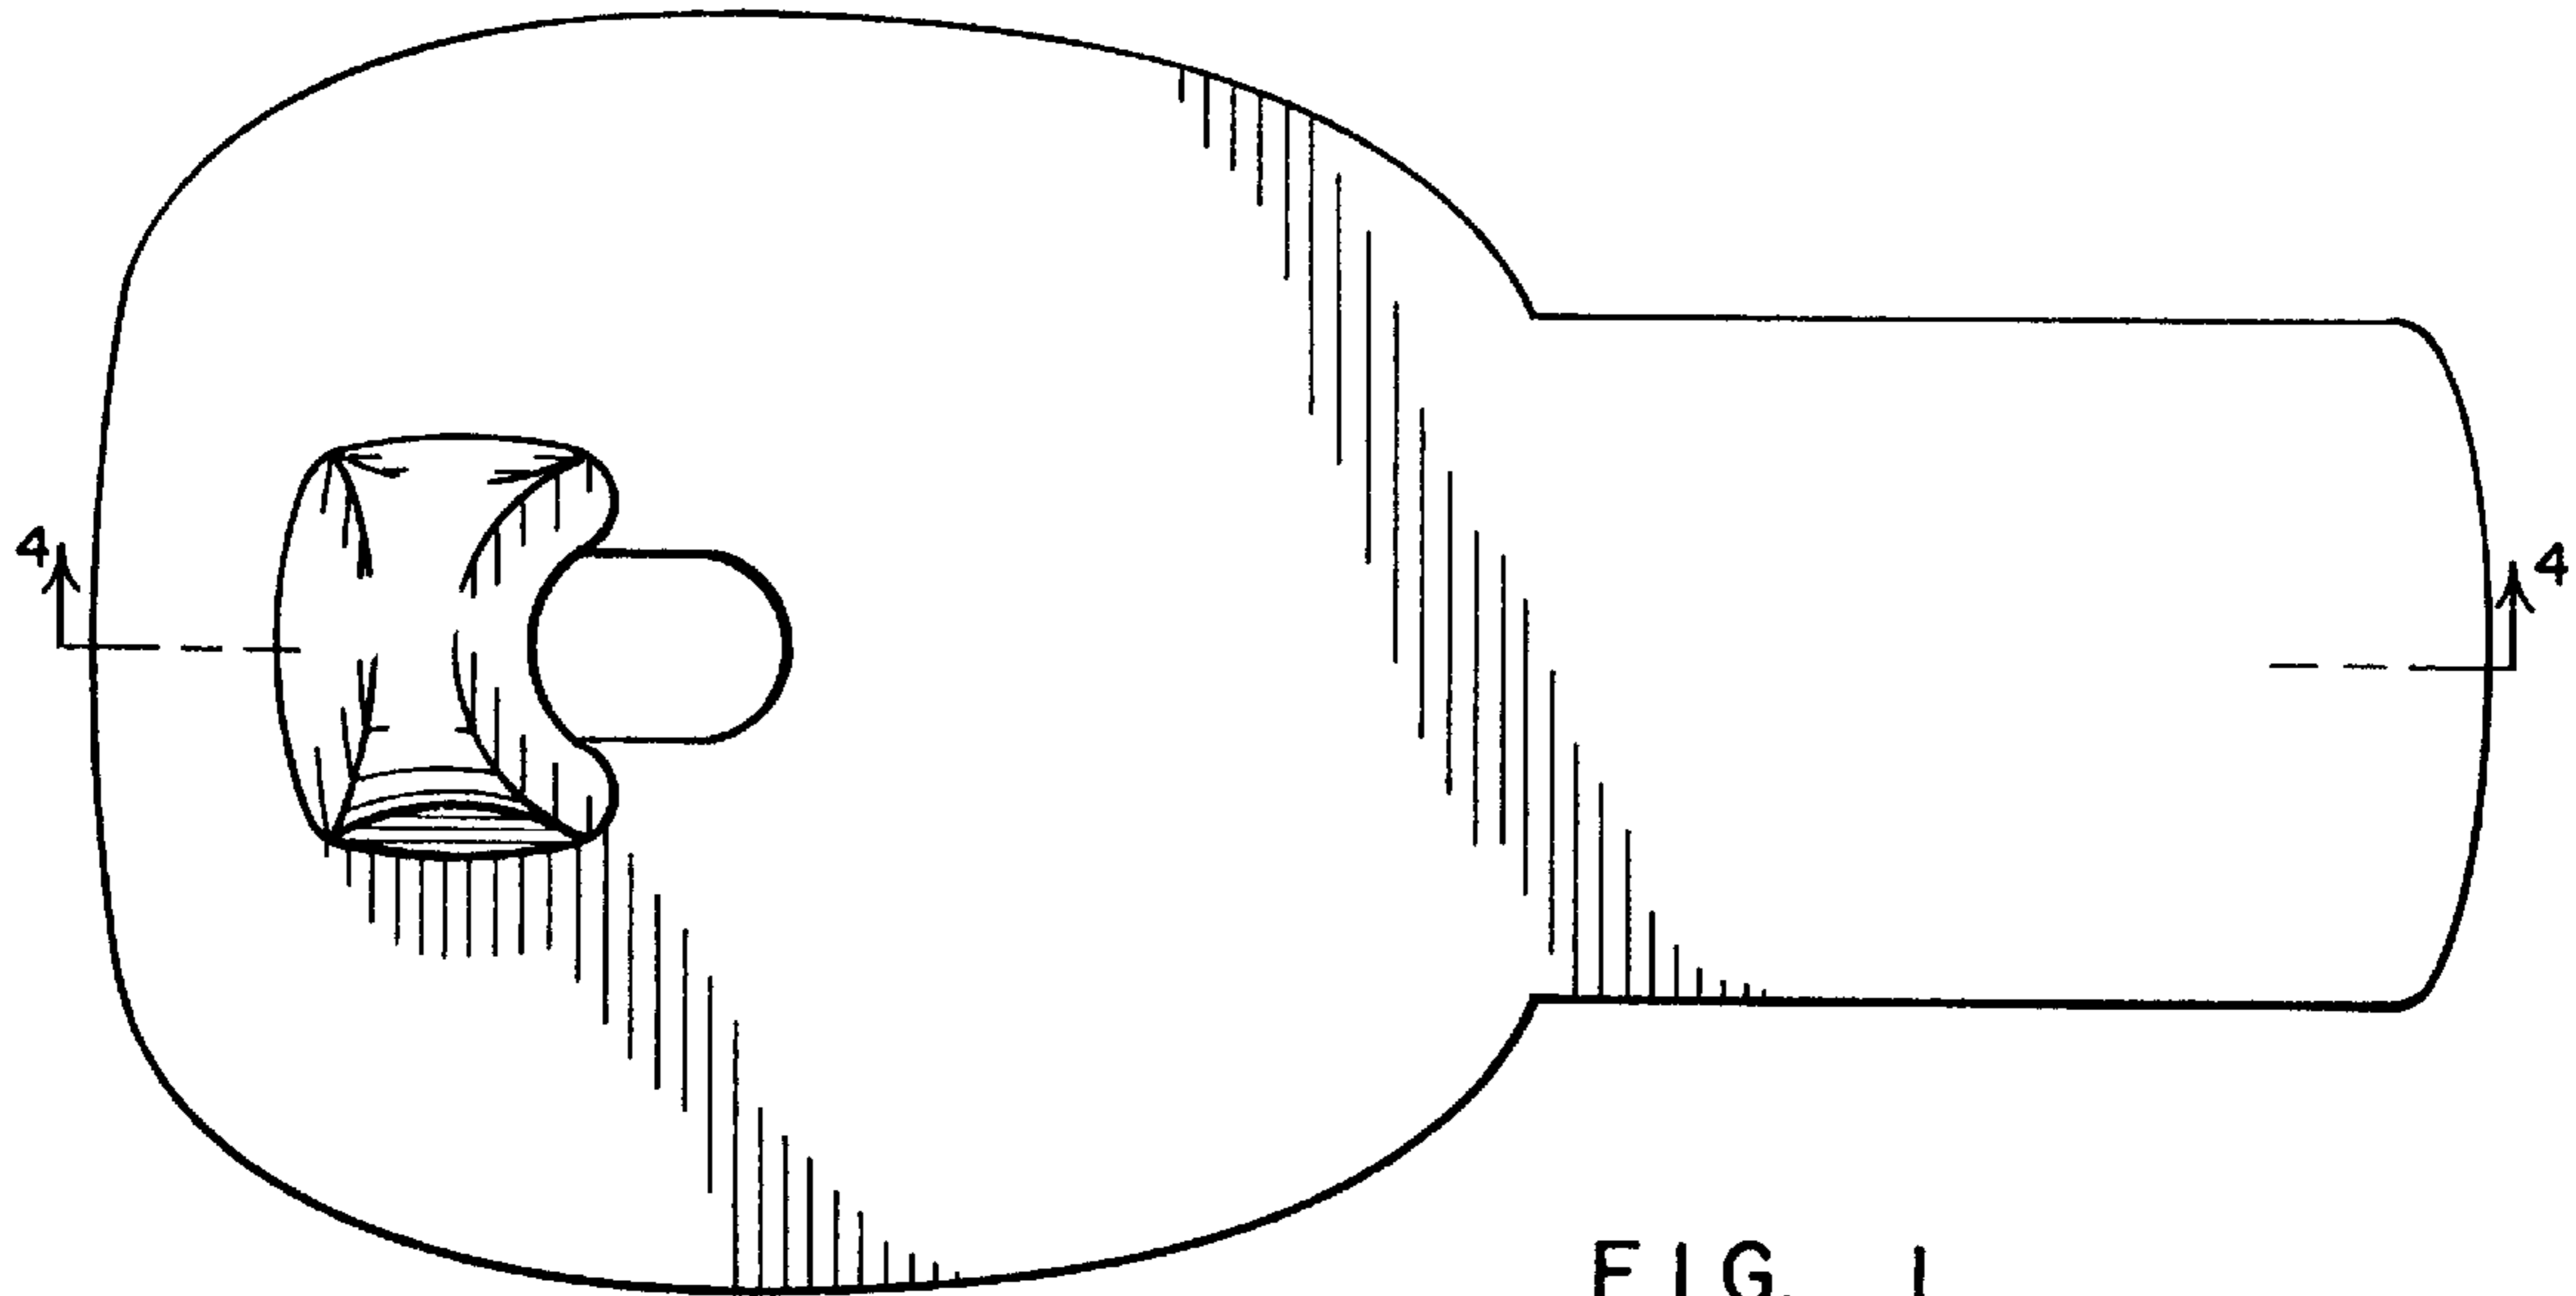

The ornamental design for a resilient support cushion for body massage, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a resilient support cushion for body massage embodying one form of my design; FIG. 2 is a front side elevational view thereof; FIG. 3 is a left end elevational view thereof; FIG. 4 is a sectional view thereof as seen from a plane indicated by a line 4-4 in FIG. 1; FIG. 5 is a top plan view of a resilient support cushion for body massage embodying a second form of my design, it being understood that this second form features a cross-sectional configuration identical to that which is illustrated in FIG. 4; and, FIG. 6 is a top plan view of a resilient support cushion for body massage embodying a third form of my design, it being understood that this third form also features a cross-sectional configuration identical to that which is illustrated in FIG. 4.
