[57] **CLAIM**  
The ornamental design for a golf club cover, as shown and described.

**DESCRIPTION**  
FIG. 1 is a side elevational view of a golf club cover in accordance with my new design;  
FIG. 2 is a bottom perspective view thereof; and,  
FIG. 3 is a top perspective view thereof.  
The undisclosed sides follow the contour of the sides shown. The broken line showing is for illustrative purposes only and forms no part of the claimed design.  
The characteristic feature of the design resides in that the design is in the shape of a “downer” style hat having a knitted “neck” portion connected thereto and extending downwardly therefrom when positioned on a golf club head, the golf club being disposed upright and upside down for storage.  
The jagged edge on the bottom of the neck or sock portion is to indicate indeterminate length.
