[57] **CLAIM**

The ornamental design for a cross connection cabinet, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view showing a first embodiment of a cross connection cabinet;

FIG. 2 is a left end view of the first embodiment of the cross connection cabinet;

FIG. 3 is a front view of the first embodiment of the cross connection cabinet, the rear view being identical;

FIG. 4 is a right end view of the first embodiment of the cross connection cabinet, the other embodiments appearing substantially the same;

FIG. 5 is a top view of the first embodiment of the cross connection cabinet;

FIG. 6 is a top, front, and right side perspective view of a second embodiment of that shown in FIG. 1, the rear, top, and left side perspective view being a mirror image thereof; and,

FIG. 7 is a top, front, and right side perspective view of a third embodiment of that shown in FIG. 1, the rear, top, and left side perspective view being a mirror image thereof, the third embodiment differs from the first embodiment only in the repetition of features as shown.
