[57] CLAIM

The ornamental design for a container for odorant in the form of a wheel to be fixed on the ventilation grille of a car, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a container for odorant in the form of a wheel to be fixed on the ventilation grille of a car showing the first embodiment of my new design; FIG. 2 is a top plan view of a container for odorant in the form of a wheel showing a second embodiment of my new design; FIG. 3 is a front elevational view of FIG. 2; FIG. 4 is a right side elevational view of FIG. 2; FIG. 5 is a rear elevational view of FIG. 2; FIG. 6 is a bottom plan view of FIG. 1; and, FIG. 7 is a left side elevational view of FIG. 2.

The sole differences between the first and second embodiments resides in the number of inner rings on the wheel and the direction of the tire tread. The tread pattern is understood to be repeated uniformly throughout the circumference of the tire.
