[57] CLAIM

The ornamental design for an exterior surface configuration of a motor vehicle front light assembly, as shown and described.

DESCRIPTION

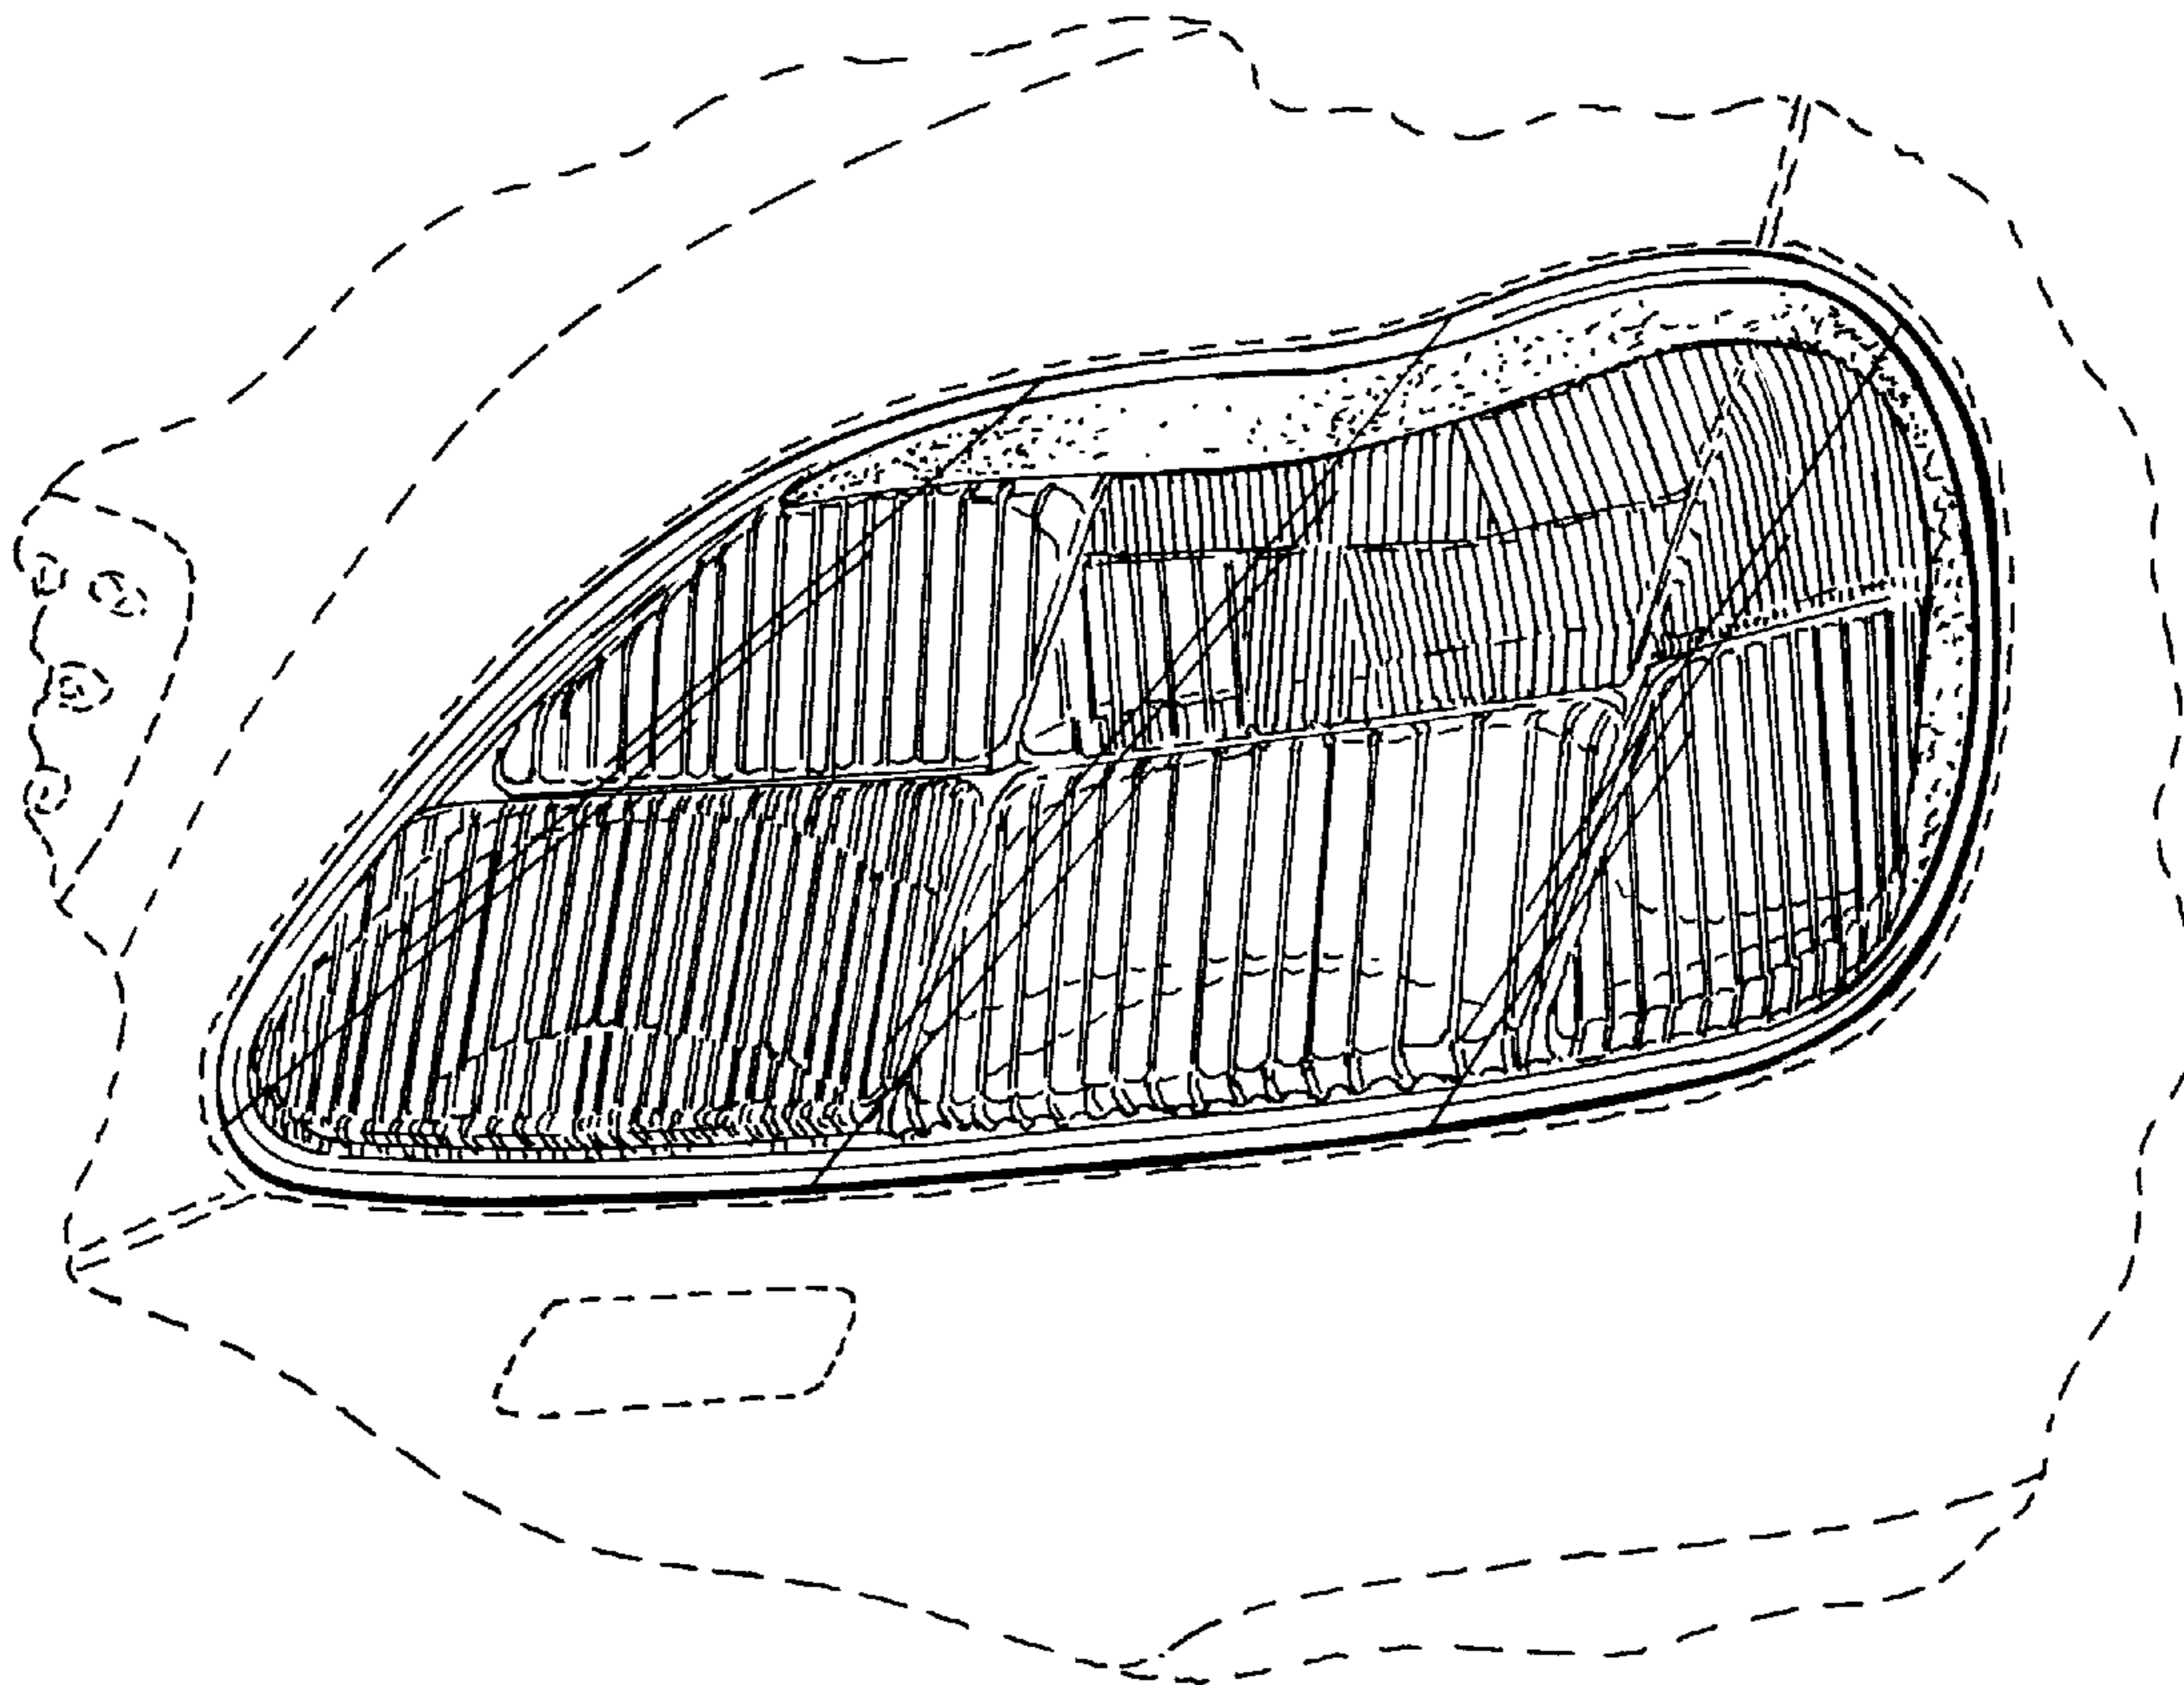

FIG. 1 is a front view of an exterior surface configuration of a motor vehicle front light assembly according to our novel design; and,

FIG. 2 is a front perspective view from the left side of a vehicle showing the exterior surface configuration of a motor vehicle front light assembly according to our novel design.

Our novel design illustrated in the drawings is for a left side front light assembly. However, our invention also contemplates mirror symmetrical embodiments for a right side front light assembly.

The broken lines which appear in FIGS. 1 and 2 are showing for illustrative purposes only and form no part of the claimed design.
