[57] **CLAIM**

We claim the ornamental design for a saddle bag trim, as
shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a saddle bag trim embodying
the present invention and mounted on a motorcycle saddle
bag;

FIGS. 2-3 is a perspective view of the saddle bag trim of
FIG. 1;

FIG. 4 is a top view of the saddle bag trim of FIG. 1;

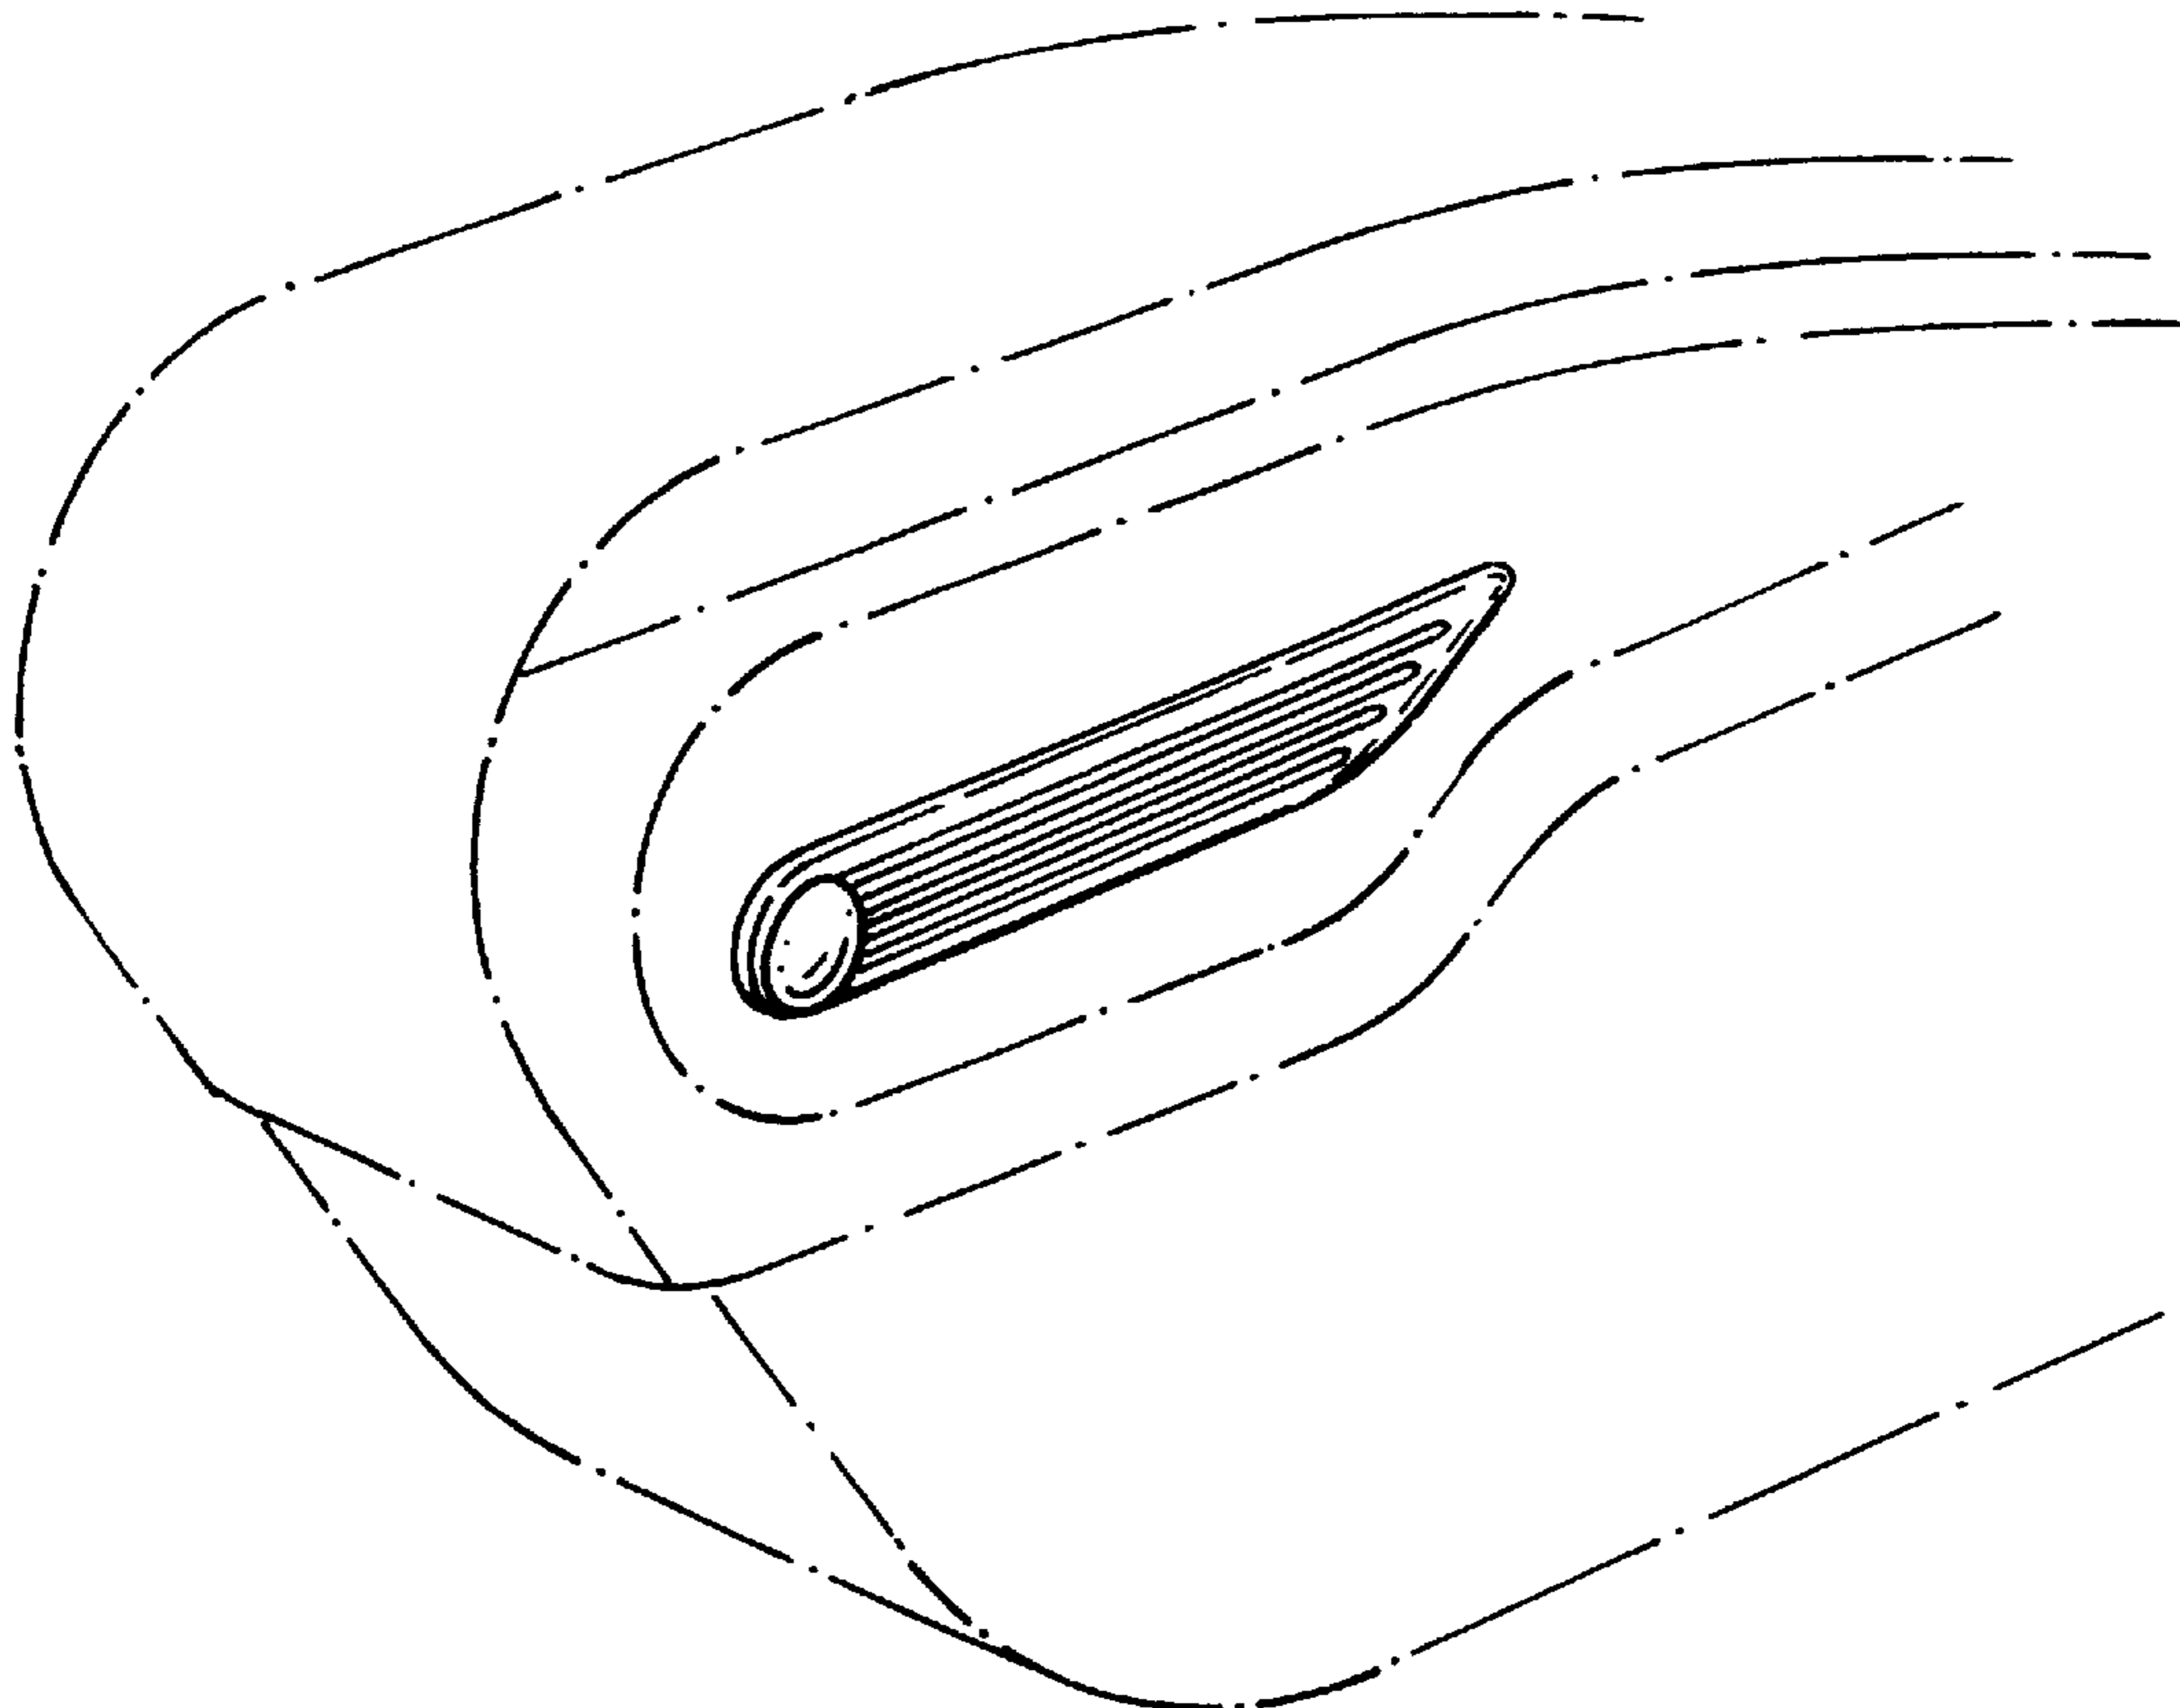

FIG. 5 is a bottom view of the saddle bag trim of FIG. 1;

FIG. 6 is a front view of the saddle bag trim of FIG. 1; and,

FIG. 7 is a rear view of the saddle bag trim of FIG. 1.

The present application is directed to the saddle bag trim
illustrated in the drawings. The other features of the draw-
ings, such as the motorcycle saddle bag in FIG. 1, are not
considered to be part of the design sought to be patented, and
those features have accordingly been shown in broken lines.
The right side view of the saddle bag trim is not visible in
its normal and intended use because it is substantially
obscured by the motorcycle saddle bag. Therefore, the right
side view is not a matter of ornamental concern and has been
omitted.
