*Primary Examiner*—Joel Sincavage

[57] **CLAIM**

The ornamental design for a set of components for a desktop wire manager, as shown and described.

**DESCRIPTION**

FIG. 1 is a front and upper left perspective view of a set of components for a desktop wire manager showing my new design configured as an inline breakout box with a channel section;

FIG. 2 is a front view of the in-line breakout box member of the set of components for a desktop wire manager;

FIG. 3 is a right side view of the in-line breakout box member;

FIG. 4 is a back view of the in-line breakout box member;

FIG. 5 is a left side view of the in-line breakout box member;

FIG. 6 is a front view of the terminal breakout box member of the set of components for a desktop wire manager (channel section connects at right);

FIG. 7 is a right side view of the terminal breakout box member;

FIG. 8 is a back view of the terminal breakout box member;

FIG. 9 is a left side view of the terminal breakout box member;

FIG. 10 is a right side view of the channel section member of the set of components for a desktop wire manager;

FIG. 11 is a front view of the channel section member;

FIG. 12 is a back view of the channel section member;

FIG. 13 is a left side view of the channel section member;

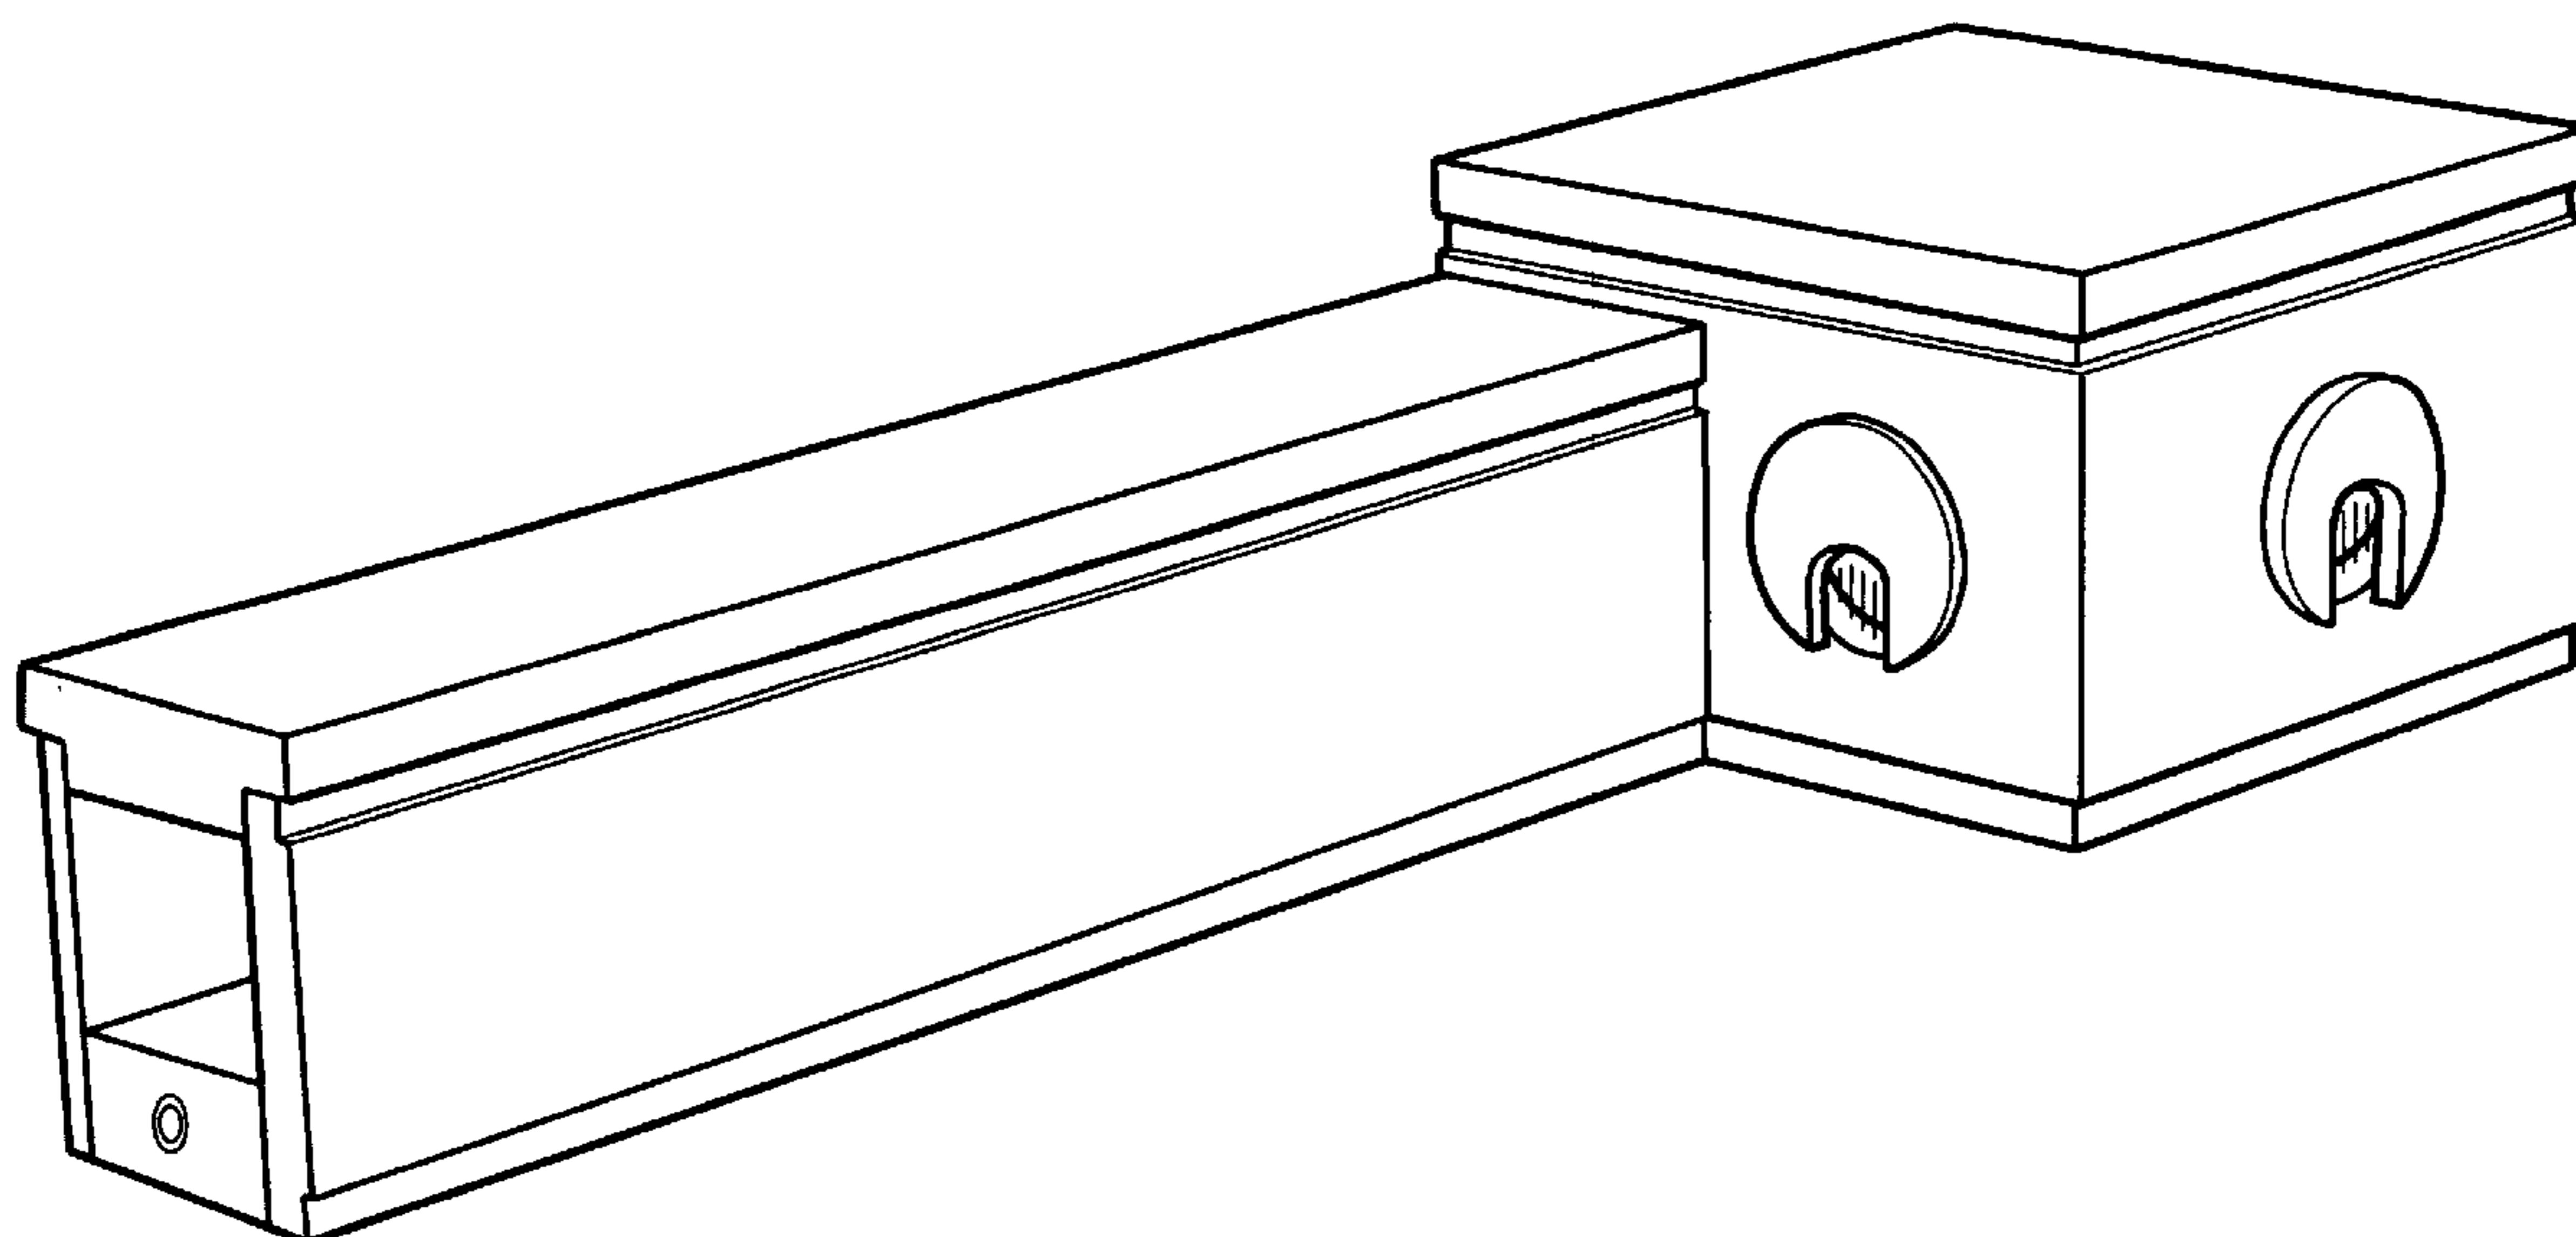

FIG. 14 is a front view of the terminal breakout box member of the set of components for a desktop wire manager (channel section connects at left);

FIG. 15 is a left side view of the terminal breakout box member;

FIG. 16 is a back view of the terminal breakout box member; and,

FIG. 17 is a right side view of the terminal breakout box member.
