[57] **CLAIM**

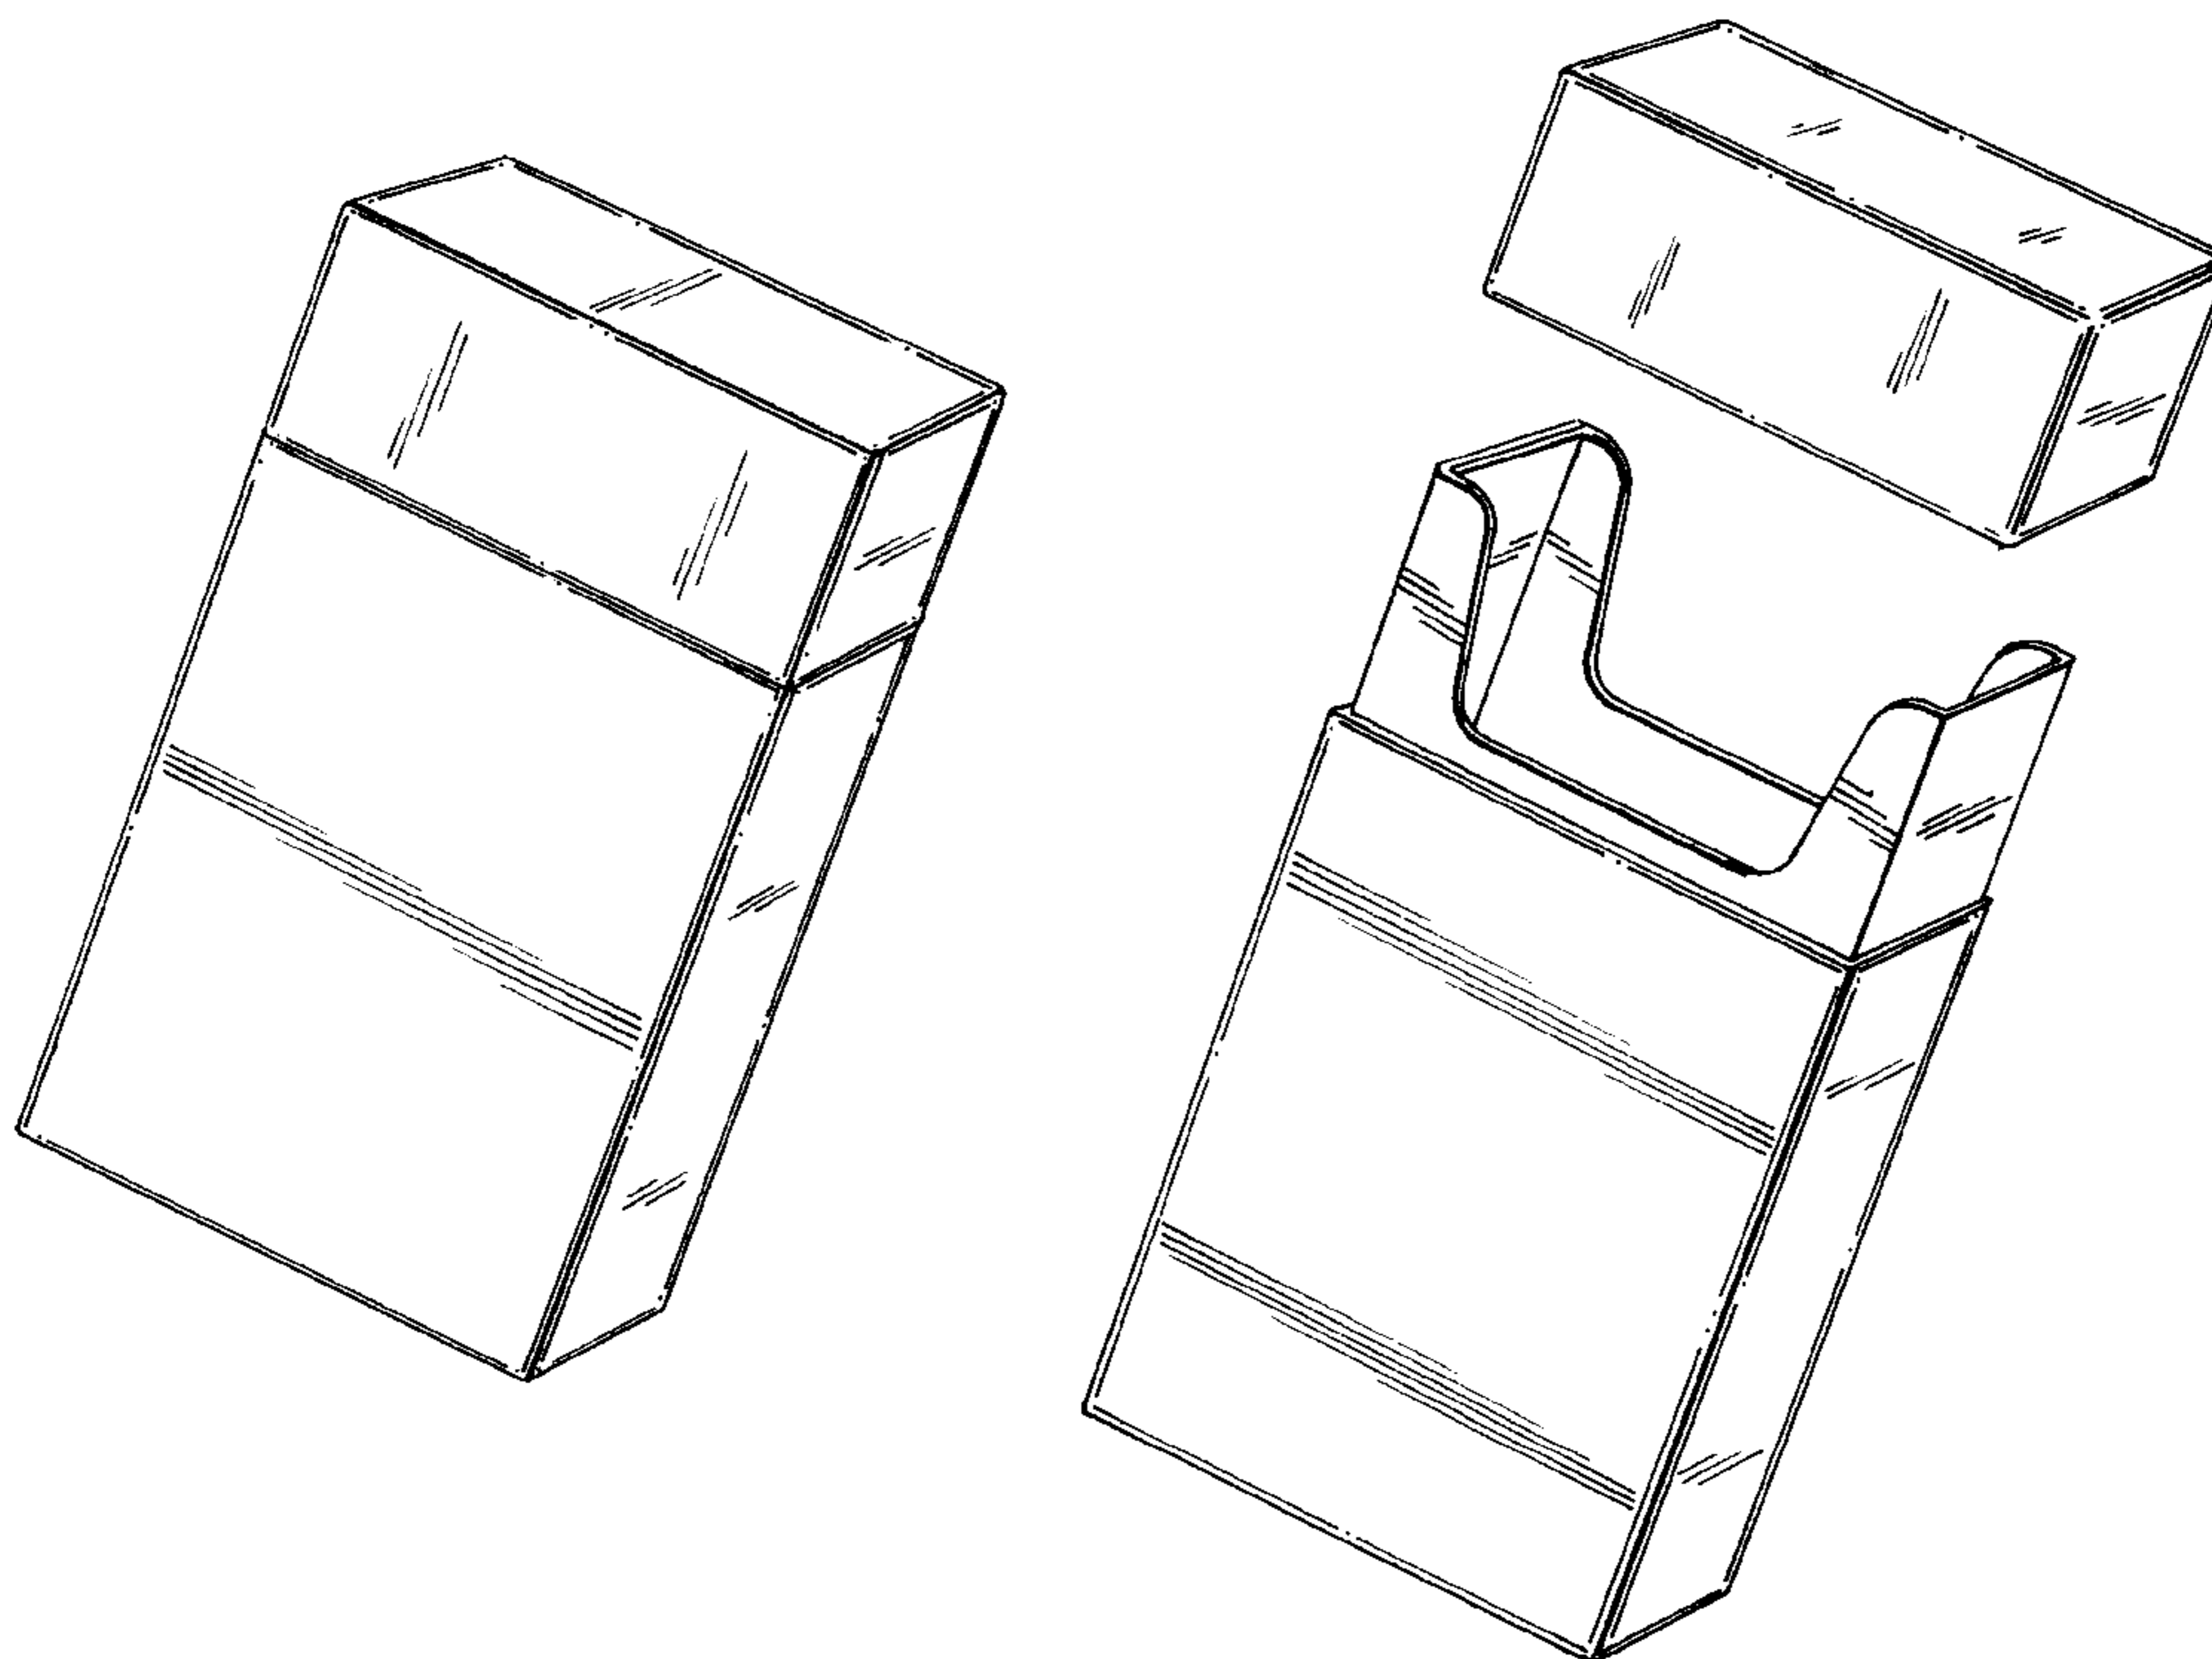

The ornamental design for a two component box for holding articles, as shown.

DESCRIPTION

FIG. 1 is a perspective view of my design for a two component box for holding articles showing my new design; FIG. 2 is a front elevational view of the design shown in FIG. 1, wherein a rear elevational view of the design is identical thereto; FIG. 3 is a bottom plan view of the design shown in FIG. 1, wherein a top plan view of the design is identical thereto; FIG. 4 is a right side elevational view of the design shown in FIG. 1, wherein a left side elevational view of the design is identical thereto; FIG. 5 is an exploded perspective view of the design shown in FIG. 1, showing an upper component and a lower component of the design thereof; FIG. 6 is a front elevational view of the lower component of the design, wherein a rear elevational view of the design is identical thereto; FIG. 7 is a top plan view of the lower component of the design; and, FIG. 8 is a right side elevational view of the lower component of the design, wherein a left side elevational view of the design is identical thereto.

The undisclosed inside views of the top compartment of the two compartment box for holding articles form no part of the claimed design.
