[57] **CLAIM**

The ornamental design for a transaction card electrical connector interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a transaction card electrical connector interface showing the new design; FIG. 2 is a front view thereof with the connector interface shown on a transaction card; and, FIG. 3 is a back view of the transaction card included to show that the rear of the connector is not visible. The broken lines are shown in the views for illustrative purposes only and do not form any part of the claimed design and the interface shown is not of substantial thickness.
