[57] **CLAIM**

I claim the ornamental design for an extruded strip for mounting on the edge of a door, as shown and described.

DESCRIPTION

FIG. 1 is a fragmentary perspective view of the extruded strip for mounting on the edge of a door of this design; FIG. 2 is a top view of the extruded strip for mounting on the edge of a door of FIG. 1. The bottom end of the extruded strip for mounting on the edge of a door is not separately illustrated because it is merely a mirror image of the top end; FIG. 3 is a fragmentary front view of the extruded strip for mounting on the edge of a door of FIG. 1; FIG. 4 is a fragmentary rear view of the extruded strip for mounting on the edge of a door of FIG. 1; FIG. 5 is a fragmentary elevation view of the right side of the extruded strip for mounting on the edge of a door of FIG. 1; and, FIG. 6 is a fragmentary elevation view of the left side of the extended strip for mounting on the edge of a door of FIG. 1. The extruded strip for mounting on the edge of a door has been broken on the end as an indication of indeterminate length.
