I claim the ornamental design for a fence plank, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view thereof;
FIG. 2 is a front view thereof;
FIG. 3 is a rear view thereof;
FIG. 4 is a right side view thereof;
FIG. 5 is a left side view thereof;
FIG. 6 is an end view thereof; and,

The characteristic feature of the design resides in the ornamental combination of the corner sections each being characterized by substantially perpendicular side and end pieces such that each corner is characterized by an absence of any beveled corner piece angled in a non-perpendicular manner relative to the side piece, the ornamental combination further including a single V-groove formed along a centerline of each side piece.
