## [57] CLAIM

I claim the ornamental design for an adapter end piece for penlights, as shown and described.

FIG. 1 is a front perspective view of an adapter end piece for penlights showing my new design. A penlight and ear dam are illustrated in dash lines;

FIG. 2 is an enlarged perspective view thereof;

FIG. 3 is a side elevational view thereof;

FIG. 4 is an elevational view thereof taken from the end as seen from the right in FIG. 3;

FIG. 5 is a top plan view thereof;

FIG. 6 is a bottom plan view thereof;

FIG. 7 is an elevational view thereof taken from the end as seen from the left in FIG. 3;

FIG. 8 is a front perspective view of a modified adapter end piece for penlights wherein an ear wax extractor instrument has been added;

FIG. 9 is a top plan view thereof with the bottom view being a mirror image thereof;

FIG. 10 is an elevational view thereof taken from the end as seen from the right in FIG. 9;

FIG. 11 is a side elevational view thereof;

FIG. 12 is a front perspective view of a modified adapter end piece for penlights without any instrument being attached thereto;

FIG. 13 is a side elevational view thereof with the top, bottom and opposite sides being mirror images thereof;

FIG. 14 is an elevational view thereof taken from the end as seen from the right in FIG. 13;

FIG. 15 is a front perspective view of a modification of the adapter end piece for penlights of FIG. 13 wherein the right end of the adapter end piece is smaller in diameter;

FIG. 16 is a side elevational view thereof with the top, bottom and opposite side views being mirror images thereof; and,

FIG. 17 is an elevational view thereof taken from the end as seen from the right in FIG. 16.
