[57] CLAIM

The ornamental design for an external data drive for a computer, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of the external data drive for a computer showing our new design with a pivotable rear hinge in an extended position;

FIG. 2 is a top plan view of the invention with the pivotable hinge in a folded position;

FIG. 3 is a bottom plan view of the invention with the pivotable rear hinge in a folded position;

FIG. 4 is a right side view of the invention where the left side view is a mirror image of the right side view;

FIG. 5 is a front edge view of the invention;

FIG. 6 is a rear edge view of the invention with the hinge in a folded position;

FIG. 7 is a front edge view of a second embodiment of the invention; and,

FIG. 8 is a rear edge view thereof with the hinge in a folded position.

The undisclosed views of the second embodiment are identical to those shown in the first embodiment.
