[57] **CLAIM**

The ornamental design for a vehicle mounted terminal, shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the vehicle mounted terminal with the bracket and terminal in relative positions for mounting the terminal on a horizontal surface; FIG. 2 is a front elevational view thereof; FIG. 3 is a rear elevational view thereof; FIG. 4 is a left side elevational view thereof, the right side elevational view being a mirror image of the left side elevational view; FIG. 5 is a top plan view thereof; FIG. 6 is a bottom plan view thereof; FIG. 7 is a perspective view like FIG. 1 except that it shows the keyboard portion of the terminal in a different pivot position relative to the display portion of the terminal; FIG. 8 is a front elevational view of the vehicle mounted terminal as shown in FIG. 7; FIG. 9 is a side elevational view of the vehicle mounted terminal as shown in FIGS. 7 and 8; and, FIGS. 10-15 are like FIGS. 1-6, respectively, except that they show the bracket connected to and pivoted relative to the terminal in a position for mounting the terminal to an overhead structure.
