

US00D407756S

**United States Patent** [19]

[11] **Patent Number:** **Des. 407,756**

**Avery et al.**

[45] **Date of Patent:** **\*\*Apr. 6, 1999**

[54] **HEALTH IMPROVEMENT DEVICE FOR MODIFYING A DAILY BEHAVIOR BY REMINDING A PERSON TO TAKE MEDICATION**

[75] Inventors: **Allan R. Avery**, New Canaan;  
**Lawrence H. Bernstein**, Storrs, both of Conn.

[73] Assignee: **Rxtra Inc.**, Norwalk, Conn.

[\*\*] Term: **14 Years**

[21] Appl. No.: **68,499**

[22] Filed: **Mar. 24, 1997**

[51] **LOC (6) Cl.** ..... **06-02**

[57] **CLAIM**

The ornamental design for a health improvement device for modifying a daily behavior by reminding a person to take medication, as shown and described.

**DESCRIPTION**

FIG. 1 is a left perspective view of a first embodiment of a health improvement device for modifying a daily behavior by reminding a person to take medication of the present invention;

FIG. 2 is a left side view of the health improvement device for modifying a daily behavior by reminding a person to take medication of FIG. 1;

FIG. 3 is a top plan view of the health improvement device for modifying a daily behavior by reminding a person to take medication of FIG. 1;

FIG. 4 is a front elevational view of the health improvement device for modifying a daily behavior by reminding a person to take medication of FIG. 1;

FIG. 5 is a right side view of the health improvement device for modifying a daily behavior by reminding a person to take medication of FIG. 1;

FIG. 6 is a rear elevational view of the health improvement device for modifying a daily behavior by reminding a person to take medication of FIG. 1;

FIG. 7 is a bottom plan view of the health improvement device for modifying a daily behavior by reminding a person to take medication of FIG. 1;

FIG. 8 is a left perspective view of a second embodiment of the health improvement device for modifying a daily behavior by reminding a person to take medication of FIG. 1;

FIG. 9 is a bottom plan view of the health improvement device for modifying a daily behavior by reminding a person to take medication of FIG. 8, shown with a drainage plug;

FIG. 10 is a bottom plan view of the health improvement device for modifying a daily behavior by reminding a person to take medication of FIG. 8, shown without the drainage plug;

The left, right, rear and front elevational views of the second embodiment being similar to the corresponding views of the first embodiment of FIG. 1;

FIG. 11 is a left perspective view of a third embodiment of the health improvement device for modifying a daily behavior by reminding a person to take medication of FIG. 1;

FIG. 12 is a top plan view of the health improvement device for modifying a daily behavior by reminding a person to take medication of FIG. 11; and,

FIG. 13 is a bottom plan view of the health improvement device for modifying a daily behavior by reminding a person to take medication of FIG. 11.

The left, right, rear and front elevational views of the third embodiment being similar to the corresponding views of the first embodiment of FIG. 1.
