[57] **CLAIM**

The ornamental design for a combined bottle and cap, as shown and described.

DESCRIPTION

FIG. 1 is a side view of a combined bottle and cap of the invention. The bottle and cap are symmetrical, with all sides appearing the same;
FIG. 2 is a front elevation of the bottle shown without the cap for clarity of illustration, the rear and side elevations of the bottle are the same except for conventional screw threading on the neck;
FIG. 3 is a side view of the cap of the invention;
FIG. 4 is a top view of the cap of the invention; and,
FIG. 5 is a bottom view of the bottle of the invention.
The bottom of the cap and the top of the bottle that are not shown in the drawings do not form part of the claimed design. The bottle is shown separately in FIG. 2 and the cap is shown separately in FIGS. 3 and 4 for clarity of illustration.
