[57] **CLAIM**

The ornamental design for a de-ionized water rinse nozzle, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of the de-ionized water rinse nozzle of the present invention;
FIG. 2 is a back perspective view of the de-ionized water rinse nozzle of the present invention;
FIG. 3 is a plan view of the de-ionized water rinse nozzle of the present invention;
FIG. 4 is an enlarged front view of the de-ionized water rinse nozzle of the present invention; and,
FIG. 5 is an enlarged rear view of the de-ionized water rinse nozzle of the present invention.
The top view, bottom view, side view, and the plan view of the de-ionized water rinse nozzle of the present invention are identical.
