[57] **CLAIM**

The ornamental design for a vacation calendar timepiece, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a calendar watch embodying the ornamental design of the present invention. The specific time indicated is not a feature of the design.

FIG. 2 is a plan view of a second embodiment of the calendar watch design of FIG. 1.

FIG. 3 is a plan view of a third embodiment of the calendar watch design of FIG. 1.

FIG. 4 is a plan view of a fourth embodiment of the calendar watch design of FIG. 1.

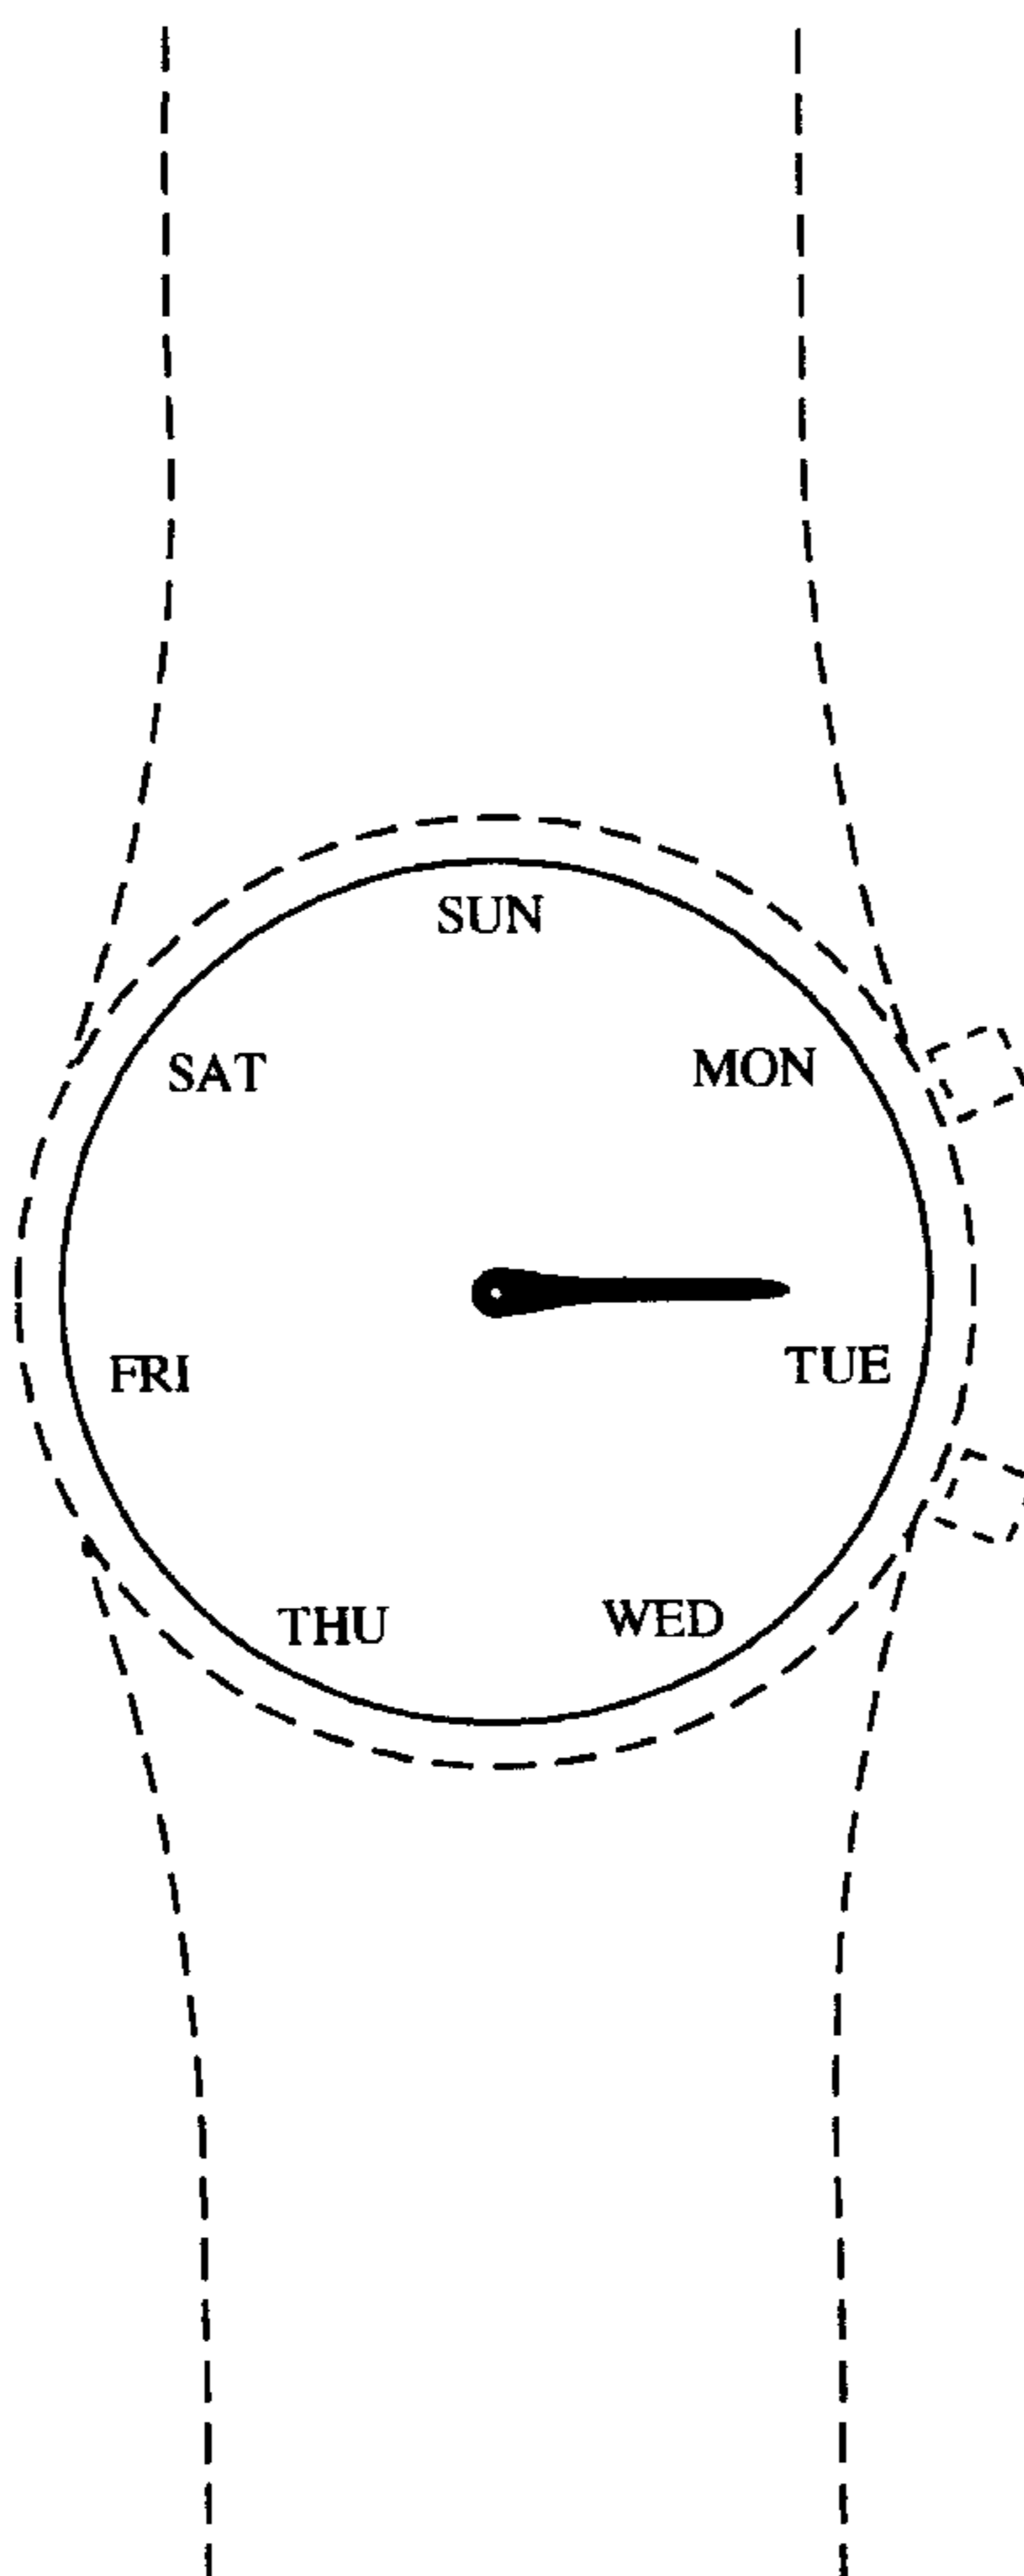

FIG. 5 is a fifth embodiment of the calendar clock according to the design of FIG. 1. and,

FIG. 6 is a sixth embodiment of a pocket calendar watch according to the design of FIG. 1.

The design includes the days of the week from the Julian calendar arranged radially in even increments about the approximate center of the face of the timepiece. A single indicator (clock-hand or watch-hand) moves from one day to the next during each 24-hour period.

The broken lines in the drawings are for illustrative purposes only and form no part of the claimed design.
