[57] CLAIM

The ornamental design for a pair of scissors, as shown and described.

DESCRIPTION

FIG. 1 is a front elevation view of a pair of scissors showing the first embodiment of our design;

FIG. 2 is a side elevation view of the first embodiment of our design;

FIG. 3 is a bottom view of the first embodiment of our design;

FIG. 4 is a top view of the first embodiment of our design;

FIG. 5 is a rear elevation view of the first embodiment of our design;

FIG. 6 is a side elevation view of the first embodiment of our design from the side opposite the view of FIG. 2;

FIG. 7 is a cross-sectional view of the handles of the first embodiment of our design showing the crown (rounding) of the inside edges of the handles, since this feature is not visible in any of the other views;

FIG. 8 is a front elevation view of a pair of scissors showing the second embodiment of our design, which differs from the first embodiment primarily in the length of the handles;

FIG. 9 is a side elevation view of the second embodiment of our design;

FIG. 10 is a bottom view of the second embodiment of our design;

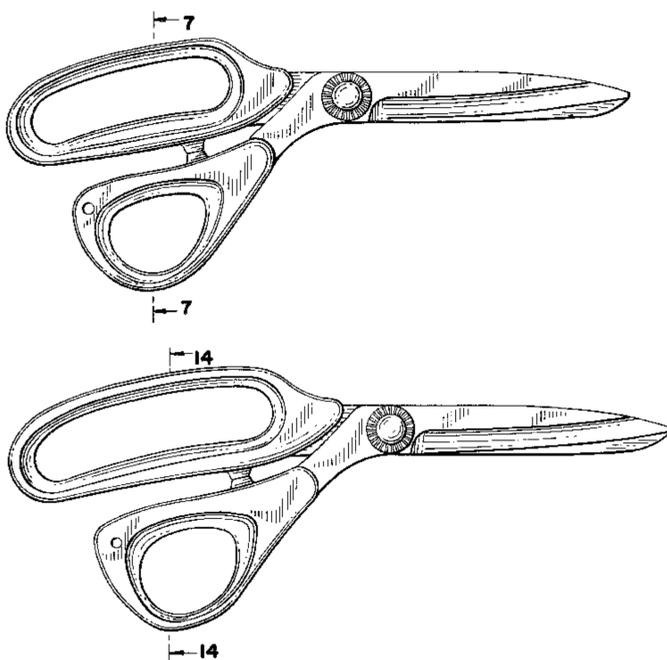

FIG. 11 is a top view of the second embodiment of our design;

FIG. 12 is a rear elevation view of the second embodiment of our design;

FIG. 13 is a side elevation view of the second embodiment of our design from the side opposite the view of FIG. 9; and,

FIG. 14 is a cross-sectional view of the handles of the second embodiment of our design showing the crown (rounding) of the inside edges of the handles, since this feature is not visible in any of the other views.
