[57] CLAIM

The ornamental design for a replacement button, as shown and described.

DESCRIPTION

FIG. 1 is a frontal perspective view of a replacement button according to the preferred embodiment of the present invention;

FIG. 2 is front view of the replacement button illustrated in FIG. 1;

FIG. 3 is a rear view of the replacement button illustrated in FIG. 1; and,

FIG. 4 is a right side view of the replacement button illustrated in FIG. 1; the left side being identical due to the symmetry of the present invention.

The broken line showing of a fastening element and swatch, in FIG. 1, is for illustrative purposes only and forms no part of the claimed design.
