[57] **CLAIM**

The ornamental design for the combination ceiling fan and light fixture, as shown and described.

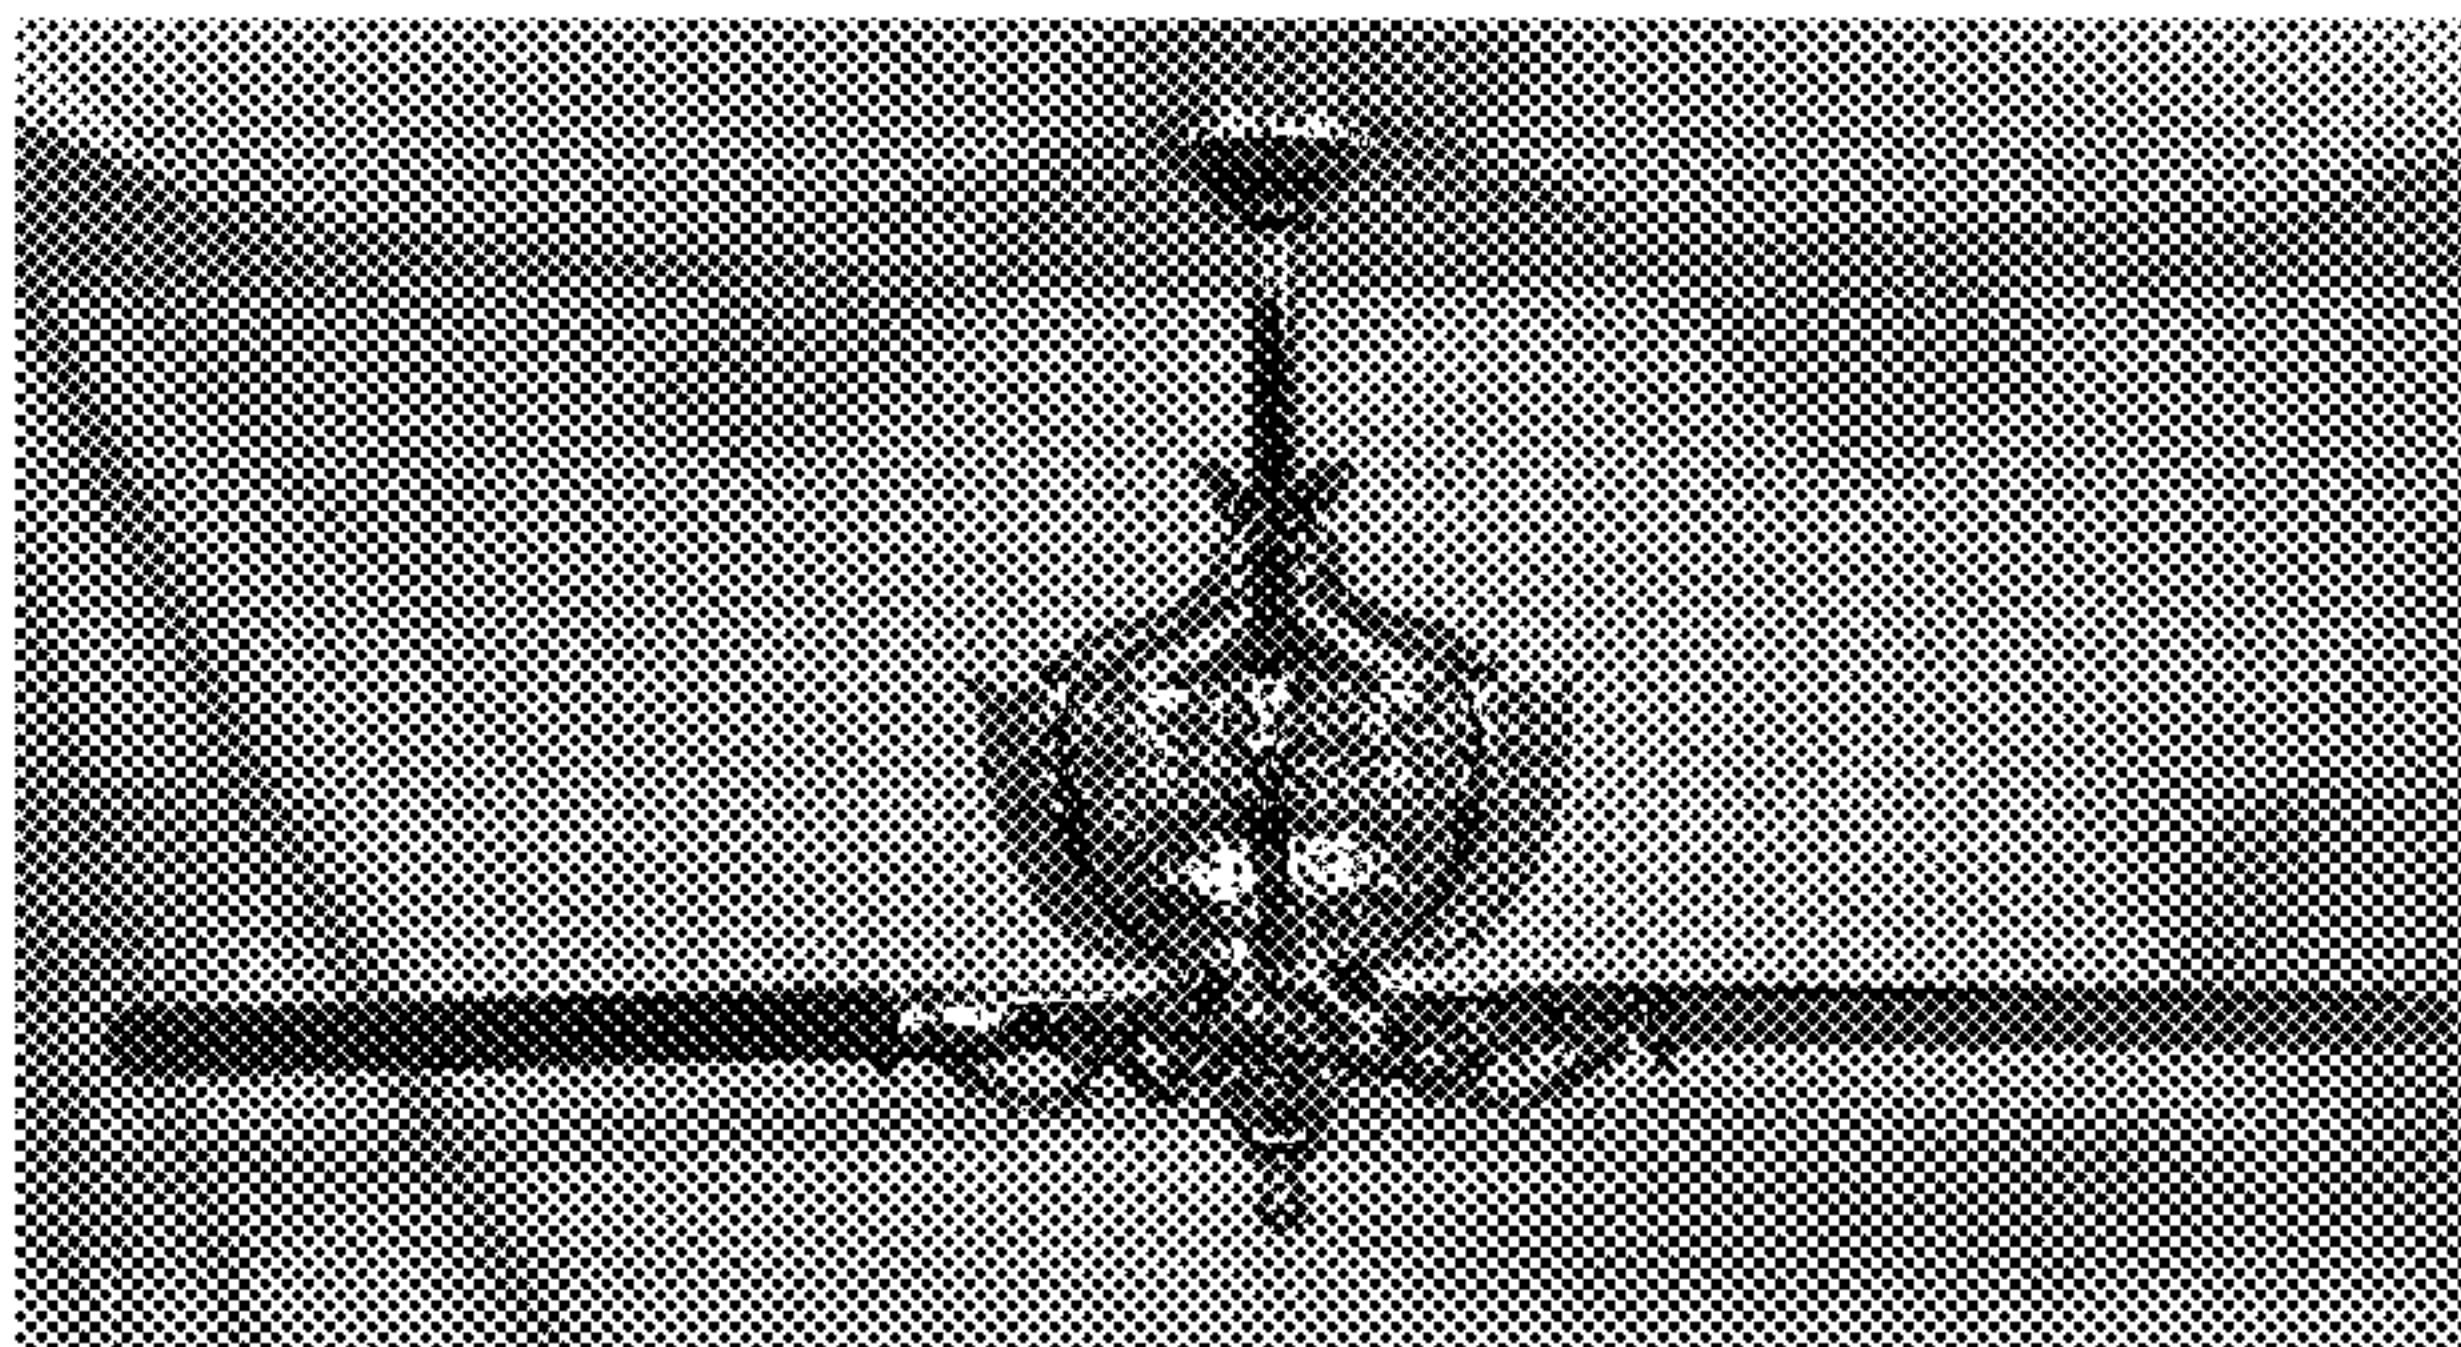

DESCRIPTION

FIG. 1 is a front elevational view of a combination ceiling fan and light fixture showing a first embodiment of my

design;
FIG. 2 is a rear elevational view of the first embodiment;
FIG. 3 is a right side elevational view of the first embodiment;
FIG. 4 is a left side elevational view of the first embodiment;
FIG. 5 is a bottom plan view of the first embodiment;
FIG. 6 is a perspective view illustrating the front, left, and top sides of the first embodiment;
FIG. 7 is a perspective view illustrating the rear, right, and bottom sides of the first embodiment;
FIG. 8 is a front elevational view of a combination ceiling fan and light fixture showing a second embodiment of my design, the second embodiment being the identical to the first embodiment with the addition of light fixtures and shades on the lower portion thereof;
FIG. 9 is a rear elevational view of the second embodiment;
FIG. 10 is a right side elevational view of the second embodiment;
FIG. 11 is a left side elevational view of the second embodiment;
FIG. 12 is a bottom plan view of the second embodiment;
FIG. 13 is a perspective view illustrating the front, right, and bottom sides of the second embodiment; and,
FIG. 14 is a perspective view illustrating the rear, left, and top sides of the second embodiment.

The support rod and mounting base are not considered part of the design claimed and are shown only to illustrate the environment in which the article is used. Also, the flat plates covering the top of the hemispherical globe, and the attachment hardware for those plates are not considered part of the claimed design and are shown to illustrate the environment in which the article is used.
