[57] **CLAIM**

We claim the ornamental design for a repeating pattern for an embossed paper product, as shown and described.

**DESCRIPTION**

The sole FIGURE is a top plan view of a repeating pattern for an embossed paper product embodying our design. The pattern of the claimed design may be applied to either a single or multi-ply paper product. The broken line boundaries depict the embossed paper product to which the repeating pattern is applied, as well as represent the boundaries of the claimed design. The claimed design repeats uniformly throughout the length and width of the paper product, which is understood to extend indeterminately in one or more directions. The broken lines form no part of the claimed design.
