[57] **CLAIM**

The ornamental design for a medicament container closure with recessed integral spike access means, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a medicament container closure with recessed integral spike access means, showing in dotted lines the medicament container; FIG. 2 is a side elevational view thereof all sides being identical thereto; and, FIG. 3 is a top plan view thereof. The broken line showing of a medicament container is for illustrative purposes only and forms no part of the claimed design.
