[57] **CLAIM**

The ornamental design for a pediatric catheter connector, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a first of a pediatric catheter embodying my design;
FIG. 2 is a right elevational view thereof, the left side being a mirror image thereof;
FIG. 3 is a rear elevational view thereof;
FIG. 4 is a top plan view thereof;
FIG. 5 is a rear elevational view of another embodiment having three tubing openings, the other views thereof being identical to FIGS. 1-4; and,
FIG. 6 is a rear elevational view of another embodiment having four tubing openings, the other views thereof being identical to FIGS. 1-4.
