[57] **CLAIM**

The ornamental design for a motorcycle tire, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the motorcycle tire of the invention showing a motorcycle tire of the present invention; the opposing perspective view being identical thereto; FIG. 2 is a front view showing the motorcycle tire design of the invention; the rear view being identical thereto;

FIG. 3 is a side view illustrating a first embodiment of the present invention; it being understood that the specific indicia are not part of the claimed design as other raised black indicia may be used; the opposing view being identical thereto and,

FIG. 4 is a side view similar to FIG. 3 but illustrating a second embodiment of the present invention it being understood that the surface indicia shown in broken lines are for illustrative purposes only and form no part of the claimed design; the opposing view being identical thereto.

The broken lines in FIG. 1 indicate that the serpentine sidewall pattern repeats uniformly throughout the sidewall, as best seen in FIG. 3.
