The ornamental design for a pointing device, as shown and described.

#### **DESCRIPTION**

FIG. 1 is a top perspective view of the pointing device, the broken line drawing of the control elements is shown for illustrative purposes only and forms no part of the claimed design in this embodiment;

FIG. 2 is a bottom perspective view thereof, the broken line drawing of the control element is shown for illustrative purposes only and forms no part of the claimed design in this embodiment;

FIG. 3 is a top perspective view of a second embodiment of the pointing device, the broken line drawing of the control element is shown for illustrative purposes only and forms no part of the claimed design in the second embodiment;

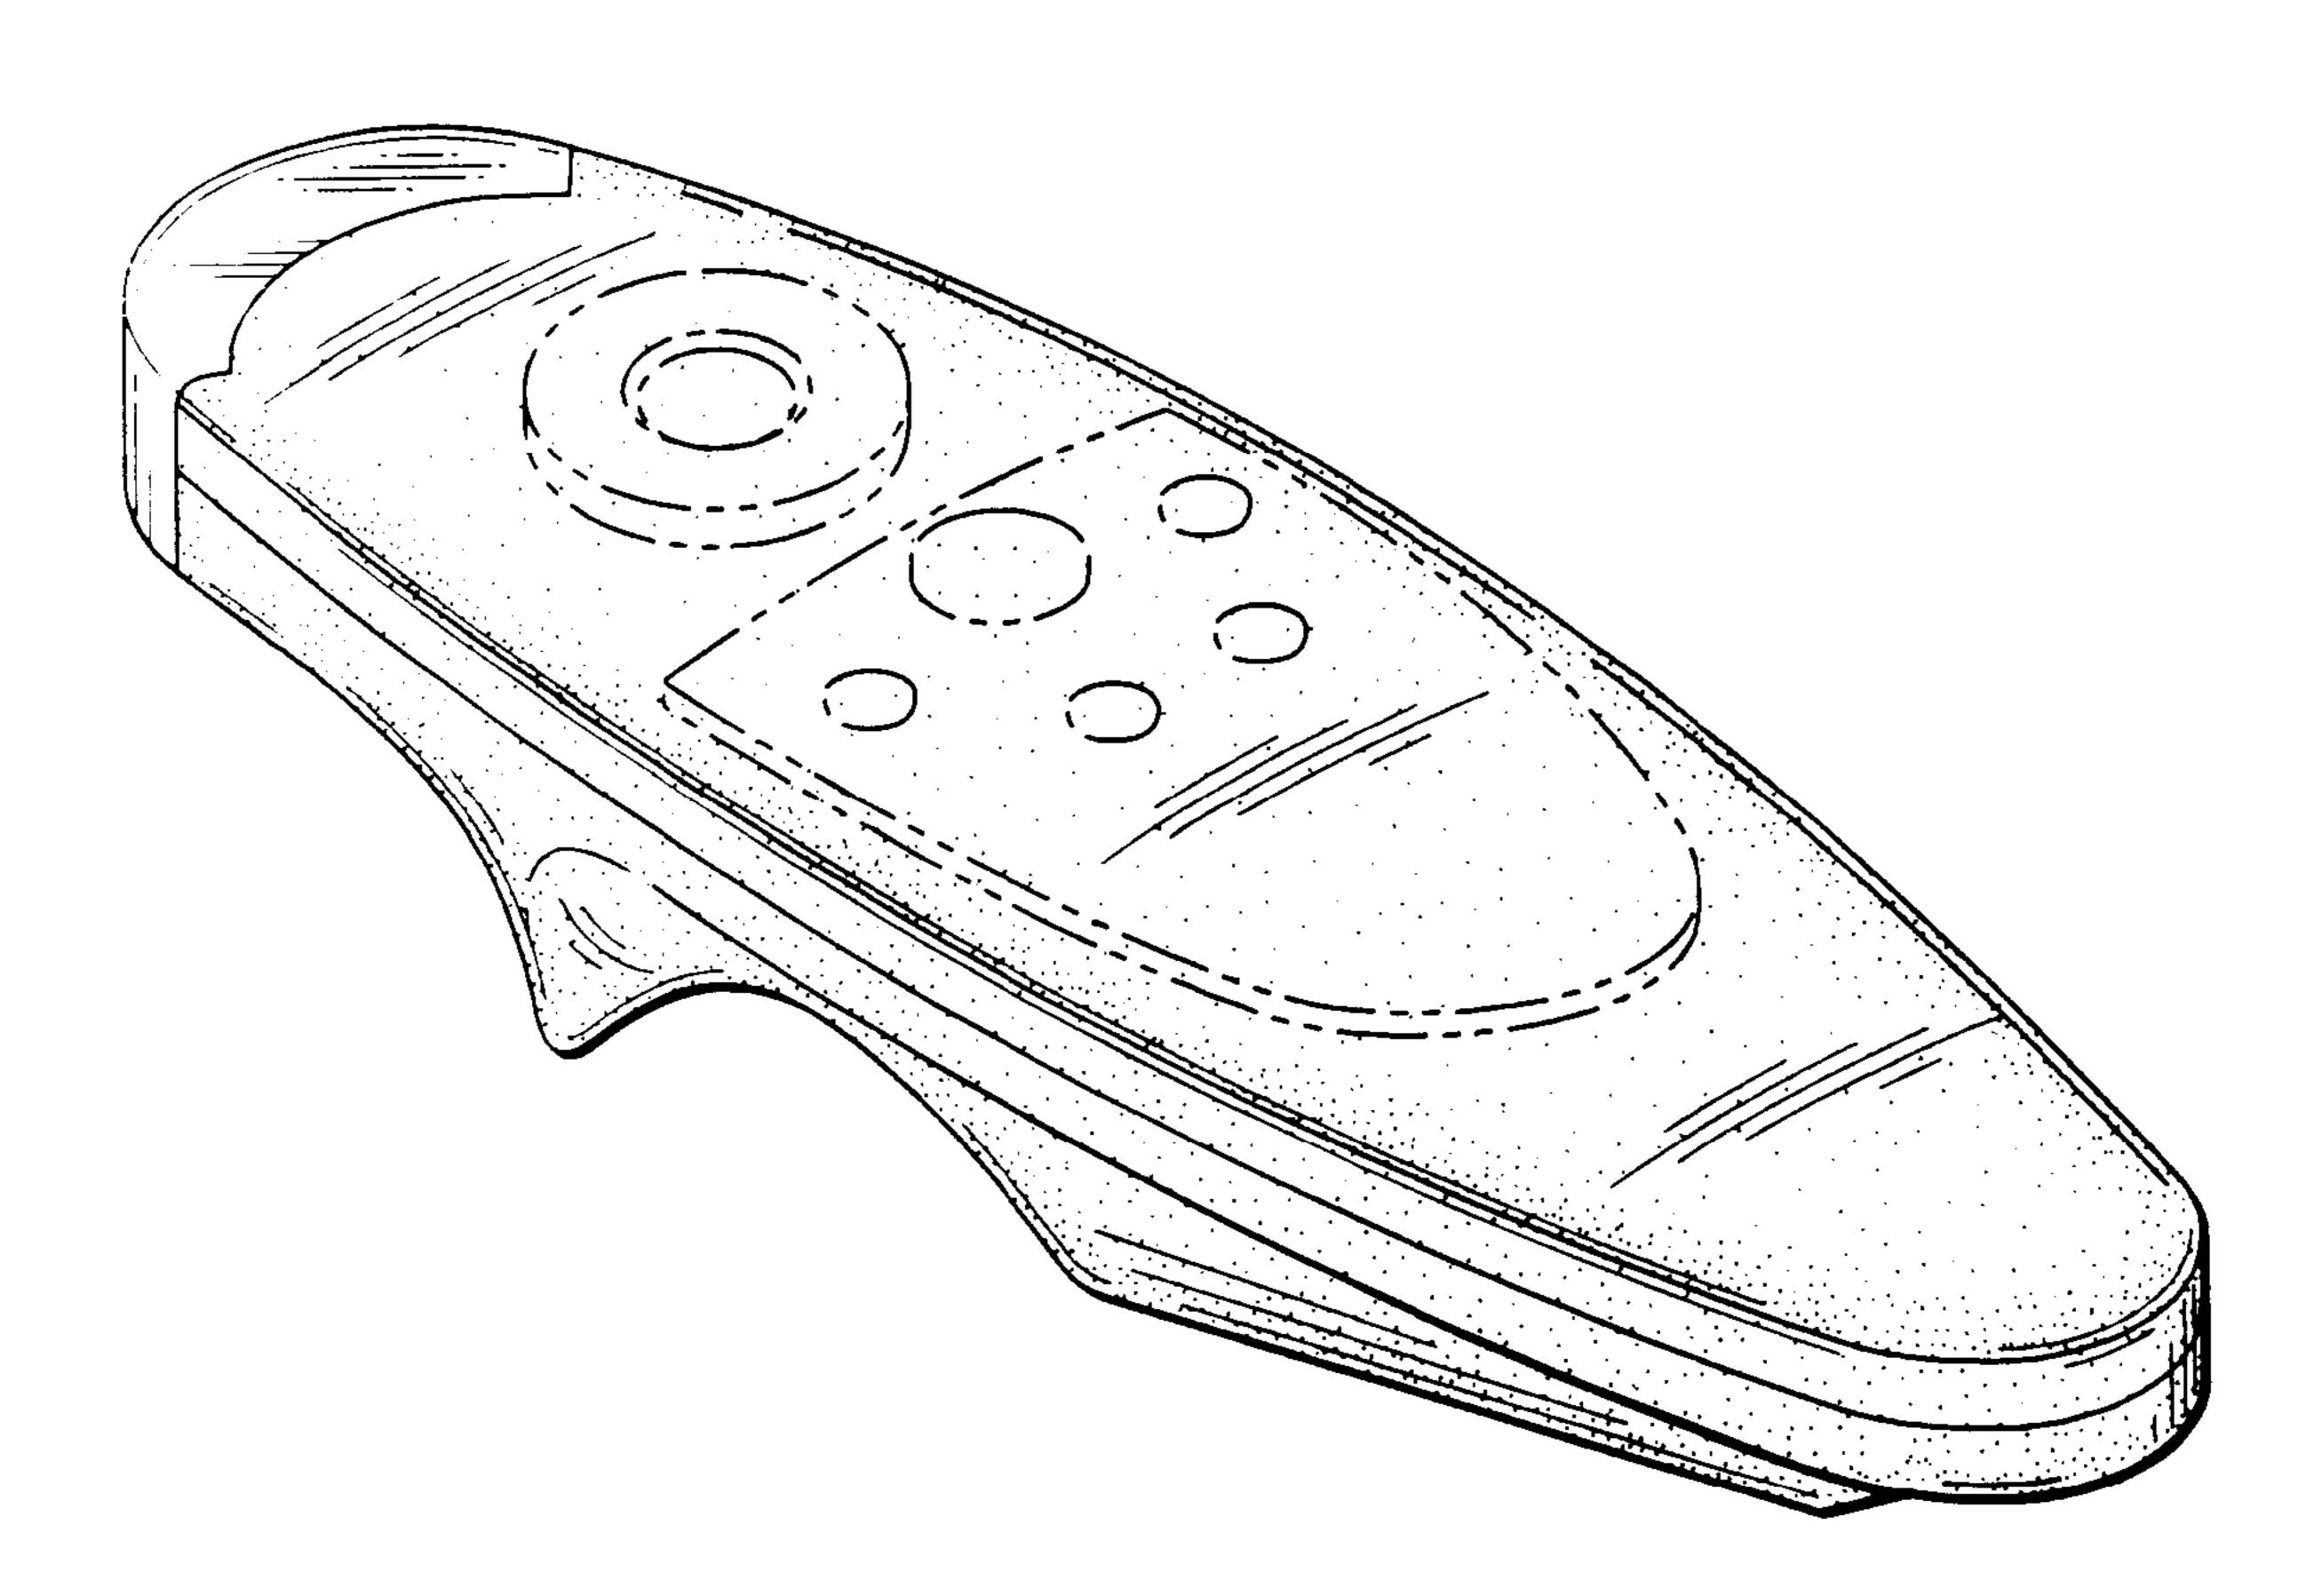

FIG. 4 is a bottom perspective view of the pointing device of FIG. 3;

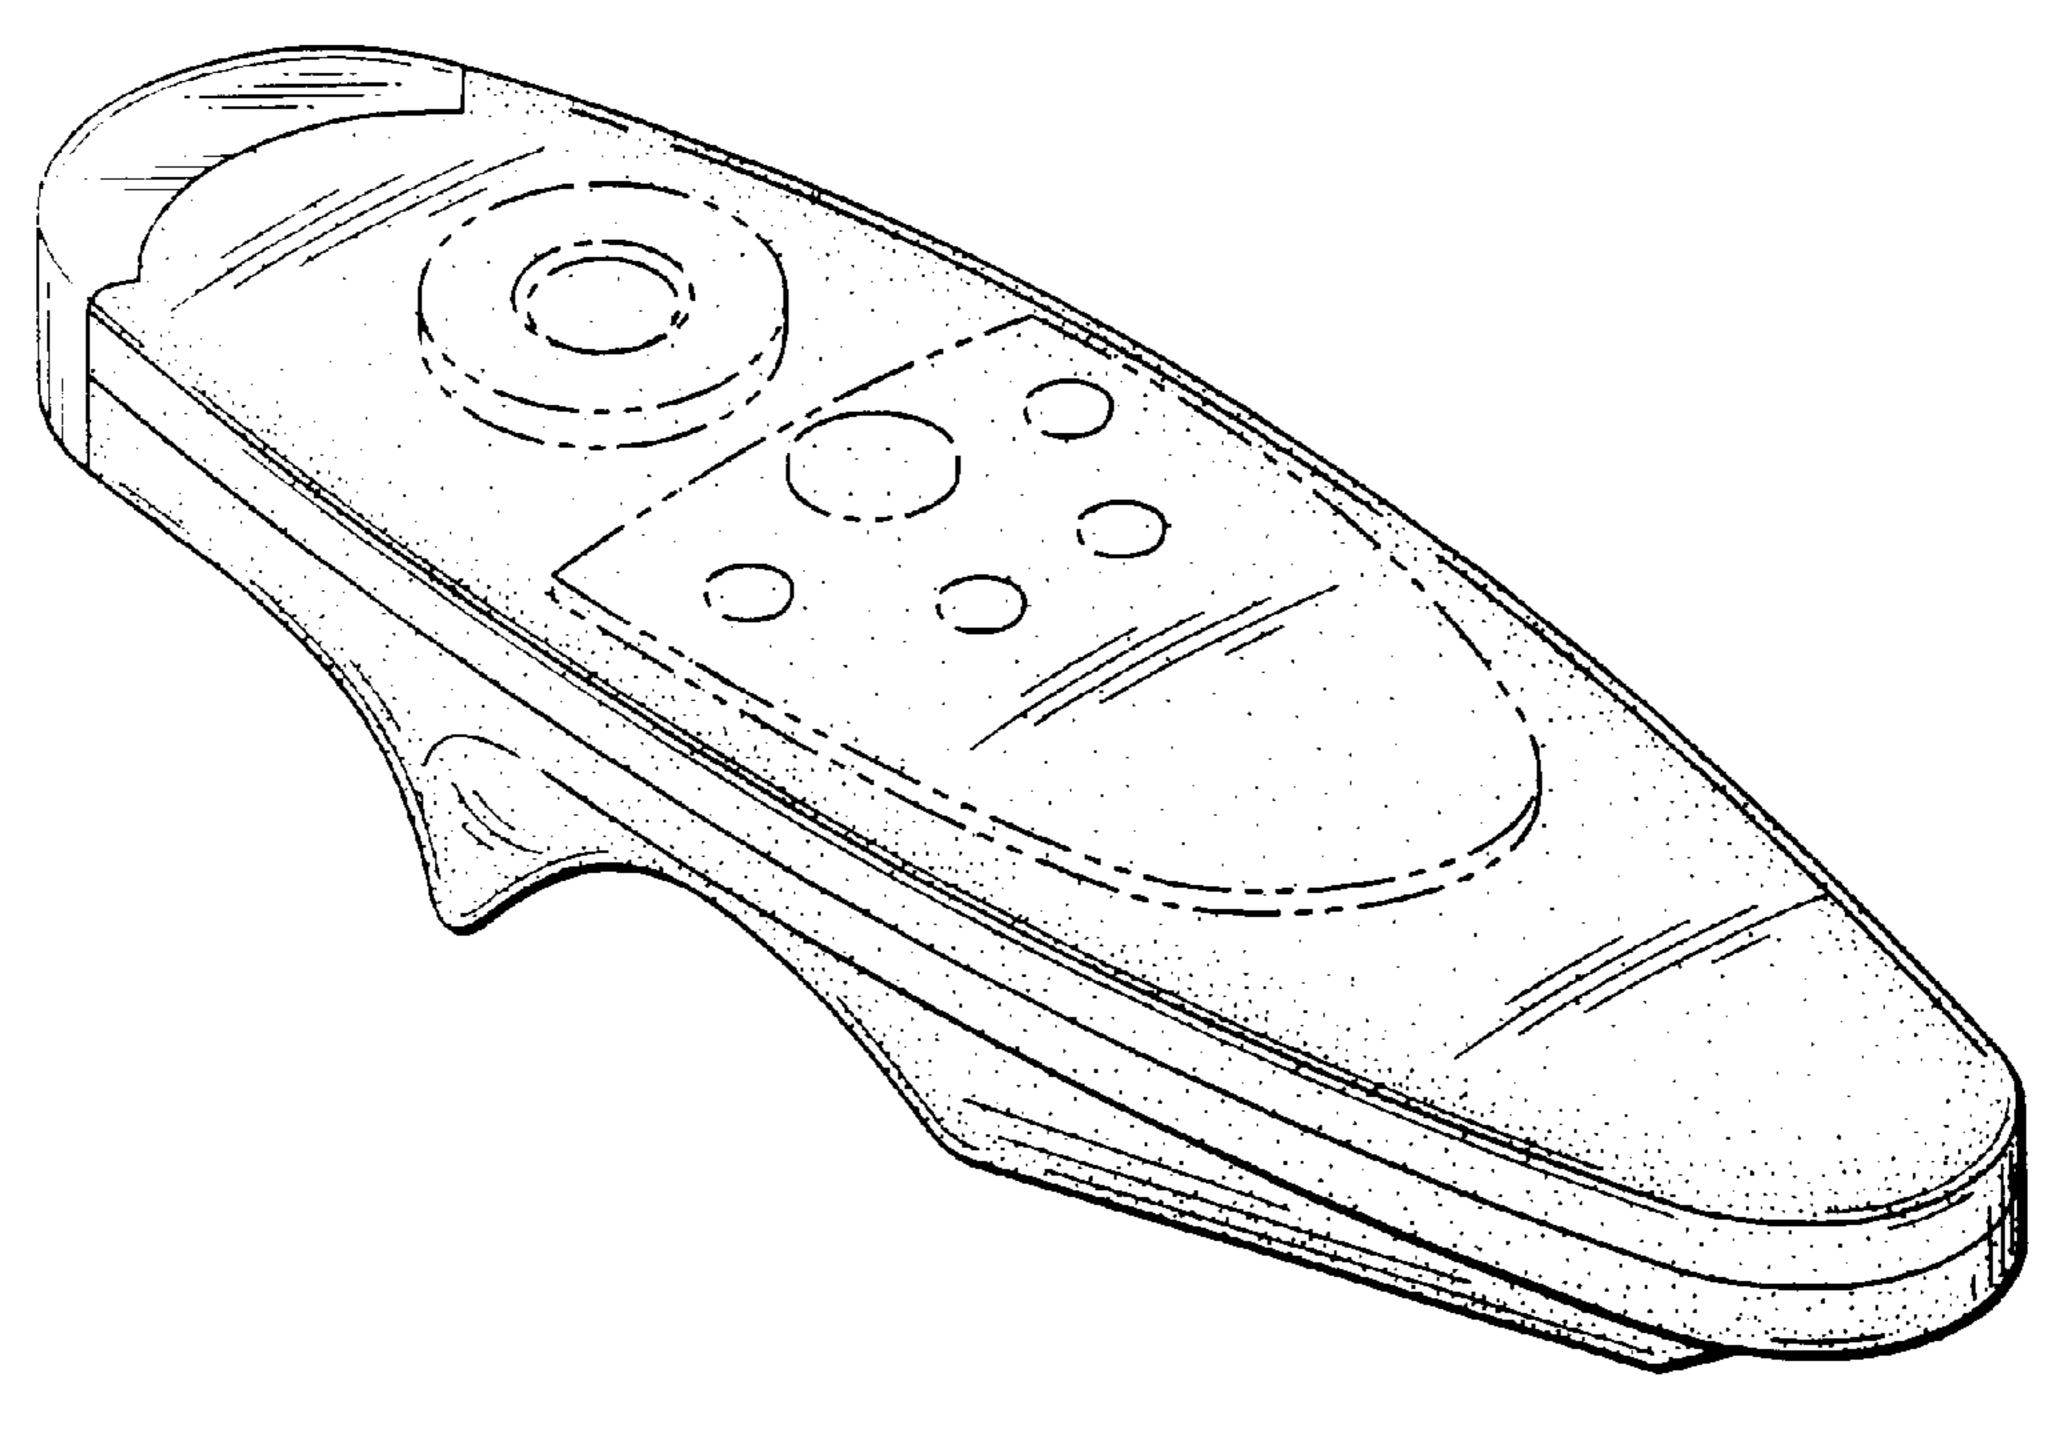

FIG. 5 is a top perspective view of a third embodiment of the pointing device;

FIG. 6 is a bottom perspective view of the pointing device of FIG. 5; and,

FIG. 7 is a bottom plan view of the first embodiment, the broken line drawing of the control element is for illustrative purposes only and forms no part of the claimed design in the first embodiment. The bottom plan view of the second (FIGS. 3 and 4) and third (FIGS. 5 and 6) embodiments is identical to this bottom plan view except that the control element would be shown in solid lines since it is part of the part of the claimed design shown in the second and third embodiments.
