### [57] CLAIM

The ornamental design for an eyeglass frame, as shown and described.

### DESCRIPTION

FIG. 1 is a perspective view of an eyeglass frame showing our new design;  
FIG. 2 is a front elevational view thereof with the rear being a mirror image thereof;  
FIG. 3 is a top view thereof with the bottom being a mirror image thereof; and,  
FIG. 4 is a right side elevational with the left side being a mirror image thereof.  
The broken line showing of the bridge and temples of the present invention is for illustrative purposes only and forms no part of the claimed design.
