DESCRIPTION

FIG. 1 is a front elevational view of a contoured door panel in accordance with the invention, the rear being a mirror image thereof, the broken lines showing a door is for illustrative purposes only, and form no part of the claimed design;

FIG. 2 is an enlarged fragmentary front elevational view thereof;

FIG. 3 is an enlarged fragmentary cross-sectional view taken along line 3—3 of FIG. 2; and,

FIG. 4 is an enlarged fragmentary perspective view of the upper right corner of the contoured door panel shown in FIG. 1.

The characteristic feature of the design resides in the profile of the concave and convex curves in the face of the contoured door panel.
